“Judge halts work on 536-unit Junipers development”

Feb. 13, 2023

Question:

I’m trying to find out if a statement has been issued by the City Attorney’s Office on the Junipers project that the judge ruled on last week.

Response:

We disagree with the ruling, which could potentially require the City to restart the environmental review process whenever a second, unrelated project is proposed nearby, delaying completion of the first project. Our Office intends to discuss the ruling with the City Council and seek direction.
