Actualizaciones importante de COVID-19

July 17, 2020

Querida comunidad,

El 12 de marzo de 2020, emití mi [declaración inicial](#) sobre la pandemia de COVID-19. Durante los cuatro meses transcurridos desde la emisión de esa declaración inicial, hemos mantenido la **activación de nuestros Protocolos de Comunicaciones de Emergencia**. Hemos estado respondiendo sus correos electrónicos los siete (7) días de la semana. Mi oficina ha trabajado diligentemente para conectar a nuestros residentes con la seguridad alimentaria y los recursos económicos, difundir información precisa y asegurarles constantemente que estamos todos juntos en esto. Todos vamos a tener que abordar los impactos continuos de la pandemia.

Desde el principio, uno de mis principales pilares de gobernanza y una prioridad para esta oficina ha sido la **Oportunidad Económica para Todos**. Uno de los impactos más devastadores de esta pandemia ha sido la ampliación de la brecha de desigualdad para esta comunidad, además de exacerbar muchos problemas clave que han plagado a nuestra ciudad durante décadas y han tenido un impacto dispar en nuestras comunidades **vulnerables**. No importa lo que nos depare el futuro, **continuamos con nuestro movimiento de base para "aplanar la curva de la inequidad"**. Aquí tienes noticias que puedes usar para esta actualización.

Rastreador de COVID-19

[La orden de salud pública](#) más reciente del condado entró en vigencia el 15 de julio. Además de continuar con la orden de quedarse en casa, con notables excepciones para negocios esenciales y reabiertos, la orden también estableció pautas para presentar un plan seguro de reapertura para negocios, incluyendo protocolos de [saneamiento y requisitos de distanciamiento físico](#).

En respuesta a la alarmante propagación del COVID-19 en el estado de California, [la orden de salud pública](#) estatal cerró las operaciones en interiores en todo el estado para restaurantes, bodegas, cines, entretenimiento familiar, zoológicos y museos, y salas de juego. Las barras deben cerrar todas las operaciones.

[La cantidad de casos es particularmente alarmante para los códigos postales de nuestro distrito](#). Continúe siguiendo las órdenes de salud pública lavándose bien las manos, practicando una distancia física de 6 pies cuando esté en público, use una cubierta facial y quédate en casa siempre que sea posible. No se necesita cita. Las pruebas COVID-19 están disponibles en Tubman-Chavez, 415 Euclid.

Hoja de ruta para reinventar la policía y la seguridad pública

Esta semana, la Concejal dio a conocer su [Mapa de Ruta para Reimaginar la Policía y la Seguridad Pública](#) antes de la reunión del [Comité de Seguridad Pública y Vecindarios Habitables \(PSLN\)](#). La hoja de ruta describió los objetivos, los principios rectores y el cuadro de mando del progreso del plan de acción de políticas para abordar el racismo sistémico y las barreras para la transparencia y la rendición de cuentas de la policía. Para leer la hoja de ruta completa, [haga clic aquí](#). La Ordenanza de Vigilancia, incluida en la hoja de ruta, fue aprobada en esta reunión del PSLN y se enviará al Consejo en pleno para su consideración. La Comisión de Privacidad, también incluida en la hoja de ruta, será considerada por el Comité de Reglas, en una fecha futura. Esta fue la primera reunión del PSLN que se convocó desde el brote.

FACT SHEET

Road Map to Reimagining Policing & Public Safety

Foundation for Reimagining Policing & Public Safety

For more than half a decade, we have been faced with mounting data that racial bias and profiling does exist in San Diego law enforcement and public safety departments. A 2016 SDSU study found that [Black and Latino drivers were more likely to be searched](#) following a traffic stop and yet less likely to be found with contraband than White counterparts. Subsequently, [Campaign Zero](#) evaluated the policing practices of the San Diego Police Department (SDPD) and San Diego Sheriff's Department (SDSD) and found that SDPD stopped Black People at a 219% rate higher than White people, and SDSD were 21% more likely to search, 18% more likely to arrest and 47% more likely to use force against Black people during a stop.

There has been a groundswell of demand from community organizers and activists for police accountability and transparency. This fact sheet offers goals, a progress scorecard, and the crucial work that remains to address the systemic racism that is prevalent in local law enforcement. The collaborative work depicted in this broad road map is just the beginning to reimaging policing and public safety.

Goals

- Community reconciliation to heal past trauma
- Develop more police accountability & transparency measures
- Shape policy with holistic approach to reform that includes economic and social justice components
- Divert funding to more community programs that will better serve residents
- Rebuild trust between communities of color and law enforcement
- End systemic racism

219%

The San Diego Police Department stopped Black people at a 219% higher rate than White people.

Guiding Principles

- Equity
- Procedural Justice
- Community-oriented Public Safety
- Dignity in Treatment
- Reconciliation

"The issue is not the split-second decisions that police officers must make. The issue is the culture, the training, the beliefs and perceptions about our communities of color that surround police officers, long before they need to make split-second decisions." Councilmember Montgomery's UT Op-Ed, September 2019

- Change the culture of bias
- Change the heart
