Dear Community,

For the past six months, the pandemic has changed every aspect of our daily living. My office has diligently worked to connect our residents with food security options, employment opportunities, COVID-19 testing locations, economic resources for small and disadvantaged businesses, as well as keeping you updated on our policy progress at City Hall. We understand the toll the public health and economic crises have taken on our community.

We spent the August legislative recess hosting dumpster days in all of our communities. Those efforts removed over 80 tons of trash from our neighborhoods (see page 4).

With ongoing uncertainty looming, it is important that you have accurate information about this year’s voting process. Here is information for a safe & hassle-free voting experience:

Mail ballots will start going out the week of October 5; you can drop off your ballot at one of the 126 locations in the county; if you decide to vote in-person, bring your mail ballot to your polling location to be surrendered. A new ballot will be issued; polls will be open four days, October 31 through November 3; early voting takes place at the Registrar's Office beginning on October 5, Mon - Fri, 8 a.m. - 5 p.m.

Your vote counts. Never let anyone tell you that it doesn't. Now more than ever before, we must exercise our right to vote.

Sincerely,

Monica Montgomery Steppe, Councilmember
Fourth Council District

Office of Councilmember Monica Montgomery Steppe
202 C. Street | San Diego, CA 92101

A safe & hassle-free voting experience:
A practical guide.

For the November 2020 Presidential General Election, all voters will be mailed a ballot. This will help to reduce exposure to COVID-19 while allowing you to exercise your right to vote. To protect the health and welfare of all San Diegans, we encourage you to vote your mail-in ballot from the safety and comfort of your home.

Here are a few strategies to help make the voting process not only safer, but more convenient as we head into flu season with COVID-19 still looming.

**VERIFY YOUR VOTER REGISTRATION**

Have you moved or changed your name? Whether you are new to San Diego County or just moved down the street, you need to re-register to vote.

**WILL THERE BE POLLING PLACES?**

Yes, in fact, polling places throughout the county will be open for four days, October 31 through November 3. Be prepared. There will be fewer locations than in prior elections, so your polling place has most likely changed. Be sure to go to your assigned polling location. Visit vote.san_diego.gov or look on the back cover of your sample ballot and voter information pamphlet to find your assigned polling place.

If you decide to vote in-person, don’t be surprised if lines may be long. Be Vote Ready. Mark your selections on your sample ballot in advance so when you go inside the voting booth you can quickly fill in the official ballot. We encourage older adults and people with underlying medical conditions to avoid long lines and crowded polling places by acting early. If you need to vote in-person or you should take advantage of early voting:

- At the Registrar’s office beginning Tuesday, November 3, 8 a.m. to 5 p.m. Monday through Friday.
- At your assigned polling place or the Registrar's office Saturday, October 31 through November 7, 8 a.m. to 5 p.m. All will again be open on Election Day when the voting hours will change to 7 a.m. to 8 p.m. but we urge you not to wait. Avoid delays by voting early.

**Bring your mask.** The Registrar of Voters is adhering to the County's public health orders and will make reasonable accommodations when needed to ensure the health and safety of all election workers, voters and observers at our office and polling places.

**YOUR VOTE. YOUR CHOICE. YOUR HEALTH.**

Waiting until Election Day can be a hectic time of last-minute decisions. Or with a little preparation, you can vote early, and the experience can be not only safer but more convenient and easier for all. Either way, we will ensure every eligible vote is counted.

September 9 | Update on Streetlight Sensors

The Public Safety and Livable Neighborhoods (PS&LN) Committee was set to discuss the supplemental contract and amendment to the Master Purchase Agreement with Ubicquia for services related to the controversial streetlight sensor program. However, the item was pulled from the discussion agenda. Subsequently, Mayor Faulconer ordered the sensors shut off until the oversight framework is in place. Councilmember Montgomery Steppe is leading the charge to establish a surveillance ordinance and privacy advisory commission to bring necessary oversight to the City's various surveillance technologies. As chair of the committee, the Councilmember issued the following statement: "It was the right decision for City staff to request that this item be pulled from the discussion agenda. There has been consistent push back from community activists and privacy advocates regarding the San Diego Police Department's (SDPD) usage of smart streetlights for crime-solving purposes, without any true accountability or oversight mechanisms in place to govern this usage. The issue is not whether surveillance technology can be used as a public safety tool. The issue is transparency within SDPD. Every decision that we make, in this moment, will either build trust with the community or tear it down. This is why it is imperative that we have an oversight framework in place to set parameters and advise City Council on how, when, and where surveillance technology, such as the streetlight sensors, may be used. No decision should be made until that framework is in place."

September 15 | Item 332: FY 2021 CDBG Allocation – San Diego Workforce Partnership-TechHire Program

Economic opportunity for all is one of the Councilmember’s pillars of governance. In line with her ongoing advocacy efforts for economic justice in District Four, the Councilmember made a motion to allocate $500,000 of the unallocated FY2021 CDBG Funding to San Diego Workforce Partnership TechHire Program with the following staff direction: 1. Staff to come back to council with an item allocating $500,000 of the unallocated FY 2021 CDBG Funding for CONNECT 2 Careers (C2C) City Mentorship Program and; 2. Staff to provide a six month update on the TechHire Program to the PS&LN Committee. In this bold move, the Councilmember made it clear that C2C had better served the youth in Southeastern San Diego with actual leadership development and preparation for jobs with the City of San Diego. The motion passed 8 – 1 with the Councilmember sharing these remarks: “When pulling this item, I sought to learn more about the TechHire Program and to assess the possibility of reallocating funds to the C2C Mentorship Program. This is a conversation of values. We are proposing to support an outside private job placement program and drop a program that prepares job seekers for employment with the City. We must continue to invest in the City of San Diego’s own leadership development pipeline through C2C Mentorships. We must support disconnected youth, in an area with high unemployment, during this pandemic. While I appreciate the great work TechHire has done, I can’t dismiss the success of C2C Mentorships for the youth in my community."
**CHILDCARE**: To apply for the YMCA Childcare scholarships, please visit:

Safe & Healthy Communities Initiative

As crucial components of our ongoing commitment to have safe and healthy communities, our **D4 Green Team** partnered with local waste management companies to secure dumpsters for district-wide cleanups during the entire month of August and two weekends of September.

"Dumpster Days" is a responsible way to address illegal dumping in our neighborhoods. We went into 17 neighborhoods with 49 bins and removed 80+ tons of trash.

Thank you to our waste management partners, neighborhood councils, volunteers and the D4 Green Team. It takes all of us working together. We are working hard to deliver on our promise for safe and healthy communities. A clean community is safer and healthier.

Get It Done Casework
Illegal Dumping

**USING GET IT DONE:** Here is an illegal dumping report that we made on 8/31. The report was completed, and case closed on 9/4 with the removal of the items. Get It Done Reports are easy to make. Help us keep our communities safe and healthy. As you see neighborhood issues (illegal dumping, graffiti, potholes, etc.), please report them immediately.

If you have outstanding Get It Done reports or reports marked closed that didn't get addressed, please email cd4news@sandiego.gov. Our office will follow-up. Thank you!
