---

Pursuant to §65.0220 of the “San Diego Maintenance Assessment District Procedural Ordinance” (being Division 2, Article 5, Chapter 6 of the San Diego Municipal Code), and in accordance with Resolution No. \_\_\_\_\_, adopted by the CITY COUNCIL OF THE CITY OF SAN DIEGO, COUNTY OF SAN DIEGO, STATE OF CALIFORNIA, in connection with the annual proceedings for CENTRAL COMMERCIAL MAINTENANCE ASSESSMENT DISTRICT, Koppel & Gruber Public Finance, as District Administrator to the City of San Diego, submits herewith this annual report for the District.

DATE OF FINAL PASSAGE OF THE CITY OF SAN DIEGO, COUNTY OF SAN DIEGO, STATE OF CALIFORNIA, ON THE \_\_\_\_\_ DAY OF \_\_\_\_\_, 2021.

\_\_\_\_\_  
Elizabeth Maland, City Clerk  
City of San Diego  
State of California

## SECTION I. EXECUTIVE SUMMARY

---

**PROJECT:** Central Commercial Maintenance Assessment District (“District”)

**APPORTIONMENT METHOD:** Lot Square Footage (“LSF”)  
 Linear Front Foot (“LFF”)  
 Land Use Trips (“Trips”)

**TABLE 1 – SUMMARY INFORMATION**

Central Commercial	FY 2021	FY 2022 (1)	Maximum Authorized
Total Parcels Assessed:	441	442	
Total Estimated Assessment:	\$235,434	\$247,237	\$585,490
Total Number of Units:			
LSF	2,954,685.00	2,954,685.00	2,954,685.00
LFF	34,667.00	34,667.00	34,667.00
Trips	20,779.30	20,779.30	20,779.30
Unit Assessment Rate			
\$/LSF	\$0.0438	\$0.0460	\$0.1078
\$/LFF	\$1.8455	\$1.9378	\$4.6333
\$/Trips	\$2.0232	\$2.1244	\$5.1182
Estimated Assessment Revenue			
\$/LSF	129,415.20	135,915.51	318,515.04
\$/LFF	63,977.95	67,177.71	160,622.61
\$/Trips	42,040.68	44,143.54	106,352.61

1. FY 2022 is the City’s Fiscal Year 2022, which begins July 1, 2021 and ends June 30, 2022. Total Parcels Assessed, Total Estimated Assessment, and Total Estimated Factors may vary from prior year due to parcel changes.

**ANNUAL COST INDEXING:** The assessments are authorized to increase by the greater of the annual change in the San Diego Area Consumer Price Index (the SDCPI-U) or 5% of the previous year’s rate beginning in Fiscal Year 2001.

## SECTION II. BACKGROUND

---

### A. INTRODUCTION

The Central Commercial Maintenance Assessment District was established by Resolution R-201471 of the City Council on August 8, 2000. The District was formed in compliance with the provision of Proposition 218. An assessment ballot proceeding was conducted and a weighted majority of property owners based on assessment amount were in support of the continuation of the assessments and services and improvements the assessments fund.

On July 22, 2016, the City of San Diego passed R-310617 authorizing the annual budget and assessments for Fiscal Year 2017, and the continued levy of the assessments for the life of the District.

The District is authorized and administered under the provisions of the “San Diego Maintenance Assessment District Procedural Ordinance” (being Division 2, Article 5, Chapter 6 of the San Diego Municipal Code). This annual report has been prepared pursuant to the requirements of §65.0220 of the “*San Diego Maintenance Assessment District Procedural Ordinance*”.

## **SECTION III. PLANS AND SPECIFICATION**

---

### **A. GENERAL DESCRIPTION OF THE DISTRICT**

The territory within the District consists of all lots, parcels and subdivisions of land as shown on the Boundary Diagram titled “Map of Proposed Boundaries of the City of San Diego Central Commercial Maintenance Assessment District” contained within this Annual Report in Exhibit A.

The District is located in the Southeastern San Diego Community Planning Area, Sherman Heights neighborhood situated along Imperial Avenue from Interstate 5 to 32<sup>nd</sup> Street; Commercial Avenue from Interstate 5 to 28<sup>th</sup> Street; National Avenue from 28<sup>th</sup> Street to 32<sup>nd</sup> Street; and all side streets in between Imperial Avenue and Commercial Avenue between Interstate 5 and 28<sup>th</sup> Street. The non-profit Central Commercial District Revitalization Corporation manages the District.

### **B. DESCRIPTION OF IMPROVEMENTS TO BE MAINTAINED AND SERVICES**

The District, through the levy of special assessments, provides funding for ongoing maintenance, operation and servicing of landscaping, lighting, and other improvements or appurtenant facilities located within the public rights-of-ways and dedicated easements located within the District. Maintenance services will be provided by City personnel and/or private contractors. The improvements maintained and services provided by the District are generally described as follows:

- Public safety, security, and suppression of gang activity;
- Managing with homeless and vagrancy issues;
- Maintaining and beautifying the areas adjacent to the street rights-of-way, which are landscaped with groundcover, trees and shrubs;
- Graffiti removal;
- Tree planting and trimming;
- Regular sidewalk and street gutter sweeping;
- Operation of enhanced street lighting for pedestrian safety and encouragement;
- Administration/Corporate Operations/Outreach including;
  - District management
  - Overseeing of contract
  - Relations with City and Council office
  - Relations with property owners
  - Relations with Community Planning Groups
  - Insurance
  - Legal and accounting
  - Office related expenses

Plans and specifications for these improvements to be maintained by the District are on file with the City Engineer’s office and by reference are made part of this Annual Report. These documents are on file with the City Clerk and the City Planning and Community Investment Department and are available for public inspection during normal business hours.

## **SECTION IV. ESTIMATE OF COSTS**

---

Estimated Fiscal Year 2022 annual expenses, revenues, reserves and assessments are included in Exhibit B.

## SECTION V. METHOD OF APPORTIONMENT

---

### A. SPECIAL BENEFIT ANALYSIS

As determined in the formation Engineer’s Report, each of the proposed improvements and the associated costs and assessments within the District were reviewed, identified and allocated based on special benefit pursuant to the provisions of the applicable law.

Proper maintenance and operation of landscaping, street trees, streetlights, sidewalks, gutters and litter removal provides special benefit to properties within the District by providing community character, security, safety and vitality. In addition, the Improvements will enhance the ability of property owners to attract and maintain customers as well as increase the viability of commercial development. These special benefits are benefits that are above and beyond the City’s standard level of service, and exclusive of those “general benefits” provided to the public at large or properties located outside the District. Under applicable law, only “special benefits” are assessable. As such, separation and quantification of the “special benefits” associated with the improvements/services are illustrated in the following equations:

$$\text{Special Benefits} = \text{Total Benefits} - \text{General Benefits}$$

$$\text{General Benefits} = \text{City Standard} + \text{External Benefits}$$

$$\text{Special Benefits} = \text{Total Benefits} - [\text{City Standard} + \text{External Benefits}]$$

In these equations, “Total Benefits” refers to the cost of providing the total benefits of the improvements/services; “City Standard” represents the cost of providing the City’s standard level of service; and “External Benefits” refers to the cost of those additional benefits accruing to the public at large or properties located outside the District. In order to isolate the “Special Benefits,” it is necessary to quantify the amount of “General Benefits” associated with the improvements/services.

#### CITY STANDARD

The District will continue to receive the standard level of service provided to the public at large under City funded and administered programs. These cost and service allocations, reviewed and adjusted annually by the City, are representative of the City’s standard level of service for maintenance and servicing of public facilities and improvements (e.g., medians, open space, street lights, street trees, sidewalks, parks, etc.), including street sweeping and graffiti removal on public property. With or without the proposed assessment District, the area will continue to receive the City’s standard level of services, a “general benefit” that is not funded by assessments.

#### EXTERNAL BENEFITS

Applicable law prohibits levying assessments to pay for “general benefits” conferred to the public at large or properties located outside the District. Public safety benefits of the improvements may accrue to persons traveling through the improvements (incidental beneficiaries). Based on a review of the spatial limits of the District and the proposed

improvements/services, it has been determined that the maintenance and servicing of the improvements does not confer benefit to properties outside District.

To quantify the benefit to persons traveling through the District, a traffic study was completed to isolate the estimated “pass-through” traffic along each segment. Pass-through traffic is traffic that has neither an origin nor destination within the defined area, which provides a reasonable means of quantifying benefits not accrued to property within the District.

Additionally, improvements have been reviewed to determine the potential amount of benefit to Pass-through traffic. Since much of the District budget is for improvements that are a direct benefit to property within the District such as sidewalk spraying, gutter clean up and utility costs, the potential benefit to Pass-through traffic was considered low and was factored into the traffic counts.

It is estimated that as much as 3.58% of the total benefit may accrue to the public at large as incidental beneficiaries passing through the District. The estimated costs associated with these “general benefits” have been quantified and will not be funded by the assessments.

#### **SPECIAL BENEFIT**

Parcels within the District receive a special benefit resulting from the maintenance and services and improvement provided with the assessments. Specifically the special benefits are summarized as follows:

- Improved cleanliness and maintenance of sidewalks used to access property in the District.
- Enhanced cleanliness and desirability of the area, including removal of litter and debris from sidewalks and other public facilities for the direct advantage of property in the District.
- Protection and improvement of views, scenery and other permanent public facility resources for property in the District and preservation of public assets maintained by the District.
- Enhanced safety of property in the District and reduced liability risk.
- Improved illumination of property in the District.
- Improved access to property in the District due to cleaner and safer sidewalks and improved lighting.
- Improved nighttime visibility for the local access of emergency vehicles.
- Improved safety and traffic circulation to and from parcels.
- Increased deterrence of crime and aid to police and emergency vehicles.

**B. ASSESSMENT METHODOLOGY**

To establish the special benefit to the individual lots and parcels within the District a formula that spreads the costs of the maintenance based on the special benefit must be established. At the time of formation, the improvements were reviewed and a formula was established to apportion the maintenance costs based on special benefit.

The method of assessment established at the time of the District’s formation is based on a combination of three factors; Lot Square Footage (“LSF”), Linear Front Footage (“LFF”), and the parcel’s Trips by Land Use (“Trips”) for each parcel located within the District. The table below defines these factors, the weighting of total assessment given to each factor, and the rationale for each factor.

**TABLE 2 – FACTORS**

<b>FACTOR</b>	<b>WEIGHT<sup>1</sup></b>	<b>RATIONALE</b>
Lot Square Footage (Size) (LSF)	50%	Measure of a parcel’s proportionate LSF ownership or stakeholder interest in the community.
Linear Front Frontage (LFF)	25%	Measure of a parcel’s LFF share of the linear frontage of right-of-way enhancement/services.
Trips by Land Use (Trips)	25%	Measure of a parcel’s proportionate contribution to the intensity of public right-of-way use. A Single Family Residential parcel is assigned 10 and other land uses are compared to this land use shown in Table 2 below.

1. The total assessment for each parcel is the sum of the assessment calculated by the application of each factor.

**LOT SQUARE FOOTAGE FACTOR**

The Lot Square Footage (LSF) Factor is a measure of a parcel’s proportionate area of ownership or stakeholder interest relative to the total area of the District, which is receiving enhanced and increased maintenance, beautification, and other property related services provided by the District. This factor has been weighted to provide a “target component” of 50% of the total assessment.

**LINEAR FRONT FOOTAGE FACTOR**

The Linear Front Footage (LFF) Factor is a measure of a parcel’s proportionate share of the LFF of the total LFF length of the public right-of-way for which the District is providing enhanced and increased maintenance, beautification, and other property related services

provided by the District. This factor has been weighted to provide a “target component” of 25% of the total assessment.

### TRIPS BY LAND USE FACTOR

The Trips by Land Use (Trips) Factor is a measure of a parcel’s proportionate contribution to the intensity of use of the public right-of-way. This intensity of use can be quantified by the number of trips a parcel generates to and from the public right-of-way. The standard and accepted document for establishment of the number of trips generated by a parcel is the “Trip Generation Manual” as approved by the City of San Diego in September 1998. The Trip Generation Manual bases trip generations on a rate of trips per residential dwelling unit, or per building square footage and/or lot acreage for the various classifications or non-residential land uses. The land use classification for each parcel within the District boundary has been identified and the number of daily trips generated by each parcel has been calculated. This factor has been weighted to provide a “target component” of 25% of the total assessment. However, due to the variation of land use intensity, this target component is not achievable. The actual land use factor was calculated such that the assessment on any parcel would not exceed that assessment which would result if the land uses were uniform and the total land use component would add up to the target component. For ease and reasonableness of calculation, land use trip generation rates have been grouped and averaged.

The following table summarizes the trip generation rates used for the assessment calculation.

**TABLE 3 – TRIPS BY LAND USE FACTOR**

<b>Land Use</b>	<b>Code</b>	<b>Trip Factor</b>
Single Family Residential	SFR	10 per dwelling unit
Multi-Family Residential	MFR	7 per dwelling unit
Commercial	COM	32 per 1,000 sq ft
House of Worship	HOW	9 per 1,000 sq ft
Industrial	IND	12 per 1,000 sq ft
Institutional	INST	14 per 1,000 sq ft
Parking Lot	PRK	0
Vacant	VAC	0

## SAMPLE CALCULATIONS

As described above, assessments have been calculated for each parcel based the LSF, LFF of the property along the improvement/service corridor, and the Trips.

LSF = Lot Square Footage
LFF = Linear Front Footage
Trips = Trip Generation by Land Use

Shown below are calculations for various sample parcels.

- **Commercial Property with 190-foot frontage, 5,000 square feet of building on .16 acres**  
LSF = 6,970 LSF  
LFF = 190.00 LFF  
Trips = (5,000 ÷ 1,000) x32 trips = 160 Trips
- **Multi-Family Residential property with 50-foot frontage, 4 units on .16 Acres**  
LSF = 6,970 LSF  
LFF = 50.00 LFF  
Trips = 4 units x 7 Trips per unit = 28 Trips

The total assessment for each parcel in the District is based on the calculated LFF, LSF and Trips for the parcel and the applicable unit assessment rate, as shown in the following equation:

$\text{Total Assessment} = \text{LSF} \times \text{LSF Unit Assessment Rate} + \text{Total LFF} \times \text{LFF Unit Assessment Rate} + \text{Total Trips} \times \text{Trip Unit Assessment Rate}$
--

### C. ASSESSMENT RANGE FORMULA

The purpose of establishing an Assessment Range Formula is to provide for reasonable increases and inflationary adjustment to annual assessments without requiring the District to go through the requirements of Proposition 218 in order to get a small increase. This Assessment Range Formula was approved by the property owners at the time the District was formed. If the budget and assessments calculated requires an increase greater than the adjusted Maximum Assessment, then the assessment is considered an increased assessment and would be subject to Proposition 218 balloting.

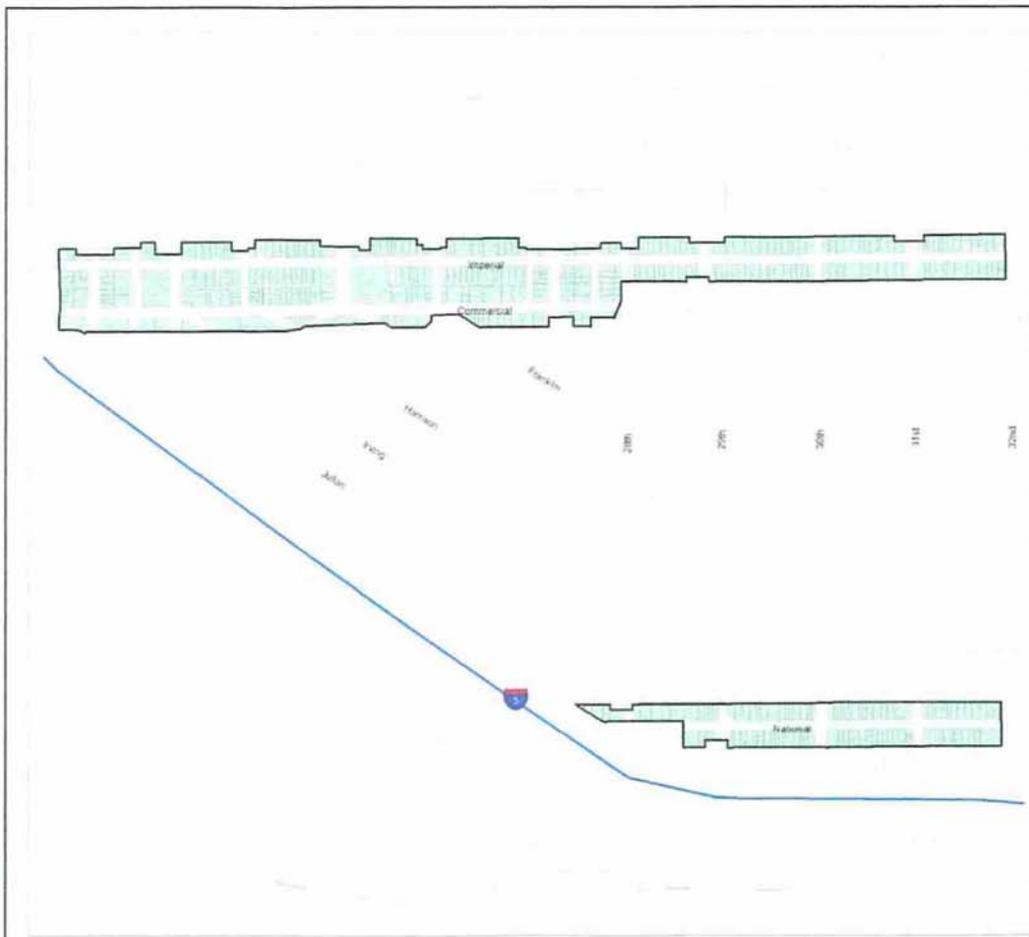

The maximum authorized assessment established in the Fiscal Year 2000 proceedings are authorized to be indexed (increased or decreased) annually by the factor published in the SDCPI-U or 5% whichever is greater. The annual change in second half SDCPI-U values, as compiled by the U.S. Bureau of Labor Statistics (see [www.bls.gov](http://www.bls.gov)), for the prior year period was from 300.718 to 305.823 (a 1.70% increase). In accordance with the approved cost-indexing provisions, the maximum authorized assessment rates contained within this Annual Report have been increased by 5.00%.

The Maximum Assessment is adjusted annually and is calculated independent of the District's annual budget and proposed annual assessment. Any proposed annual assessment is not considered an increased assessment, even if the proposed assessment is greater than the assessment applied in the prior fiscal year.

## **EXHIBIT A- DISTRICT BOUNDARY**

---

The parcels within the Central Commercial Maintenance Assessment District consist of all lots, parcels depicted within the boundaries of the District. The District diagram reflecting the exterior boundaries of the District is on file with the City Clerk.
