Detailed Report:

In reference to the attached complaints, have to report this matter has been given attention to the limit of our resources. During the month of January both cars 22 and 27 were given specific instructions to confine their activities to this point, to curb all disorder and trespass as far as possible, this activity extended through the month of February as well and is still being carried on with 22, augmented by 27 on Saturday and Sunday nights.

The matter of the lights complained of were taken up with Mr. Demers who assured me that he would immediately instal them. This has been done.

From reports coming to me, the complaints originating from this place, aside from the opening nights (New Years) have been before 2:00 AM and immediately thereafter at closing time. Any evidence of drunken and boisterous conduct has been dealt with by summary arrest and during this time several have been made. This action has had the effect of curbing to a marked extent according to the reports of the officers, actions that they could take action on.

Disorders consisting of starting cars and other noises co-incident can not be curbed by law and the whole controversy aside from trespass upon private property, which is being watched as carefully as possible, resolves itself into the fact that a section primarily a residential district has been zoned as a business district and the transition from the one to the other has always been the source of unending controversy, particularly with a business such as is being conducted at this point. This phase has been explained to other complainants in the neighborhood notably Mr. Ruocco and Mr. Grisetti, and that the redress, if any, is through an action before a court of ~~xxx~~ maintaining a nuisance either civil or ~~criminal~~ criminal.

Efforts will be continued to keep these complaints down insofar as the power of the police extends.

Respectfully,
