

Community Composting Residential Organic Waste Drop-off Locations

City of San Diego residents may drop-off organic waste at any community compost location listed below. Community composting is the activity of composting green, agricultural, food or vegetative food materials, alone or in combination. The total amount of feedstock and compost on-site at any one time does not exceed 100 cubic yards and 750 square feet. Please contact the organizations directly for more information on pricing, drop-off hours and the organic waste accepted.
