

CITY OF SAN DIEGO, CALIFORNIA

COUNCIL POLICY

SUBJECT: COMMUNITY PLANNERS COMMITTEE

POLICY NO.: 600-09

EFFECTIVE DATE: _____, 2022

BACKGROUND:

The Community Planners Commission (CPC) is an independent organization voluntarily created and operated by City community members who are not City employees, City agents, or City representatives. It is not a City-controlled or managed organization. The City does not direct or recommend the election, appointment, or removal of voting members, or delegate authority to the CPC to act on its behalf.

The adoption in 2008 of the City of San Diego General Plan provided policy guidance to balance the needs of a growing city while enhancing quality of life for current and future San Diegans. It provides a strategy, the City of Villages, for how the City can enhance its many communities and neighborhoods over time. It presented ten elements that provide a comprehensive “blueprint” for the City of San Diego’s growth over the next twenty plus years. The 2008 General Plan found the City of San Diego and its residents and businesses facing new issues: a lack of vacant developable land for future growth; unmet public facilities standards; a changing economic base; and major environmental challenges.

This Council believes that the involvement of San Diegans in City planning, implementation, and prioritization ensures that the City can prepare for the growth outline above and that the City will be prosperous, healthy, safe, inclusive, and equitable. The City Council established Policy 600-24 in 1976, encouraging, and supporting the formation of community planning groups (CPGs).

PURPOSE:

The purpose of this Policy is to recognize the CPC as an independent organization that may provide input to the City on those matters related to the General Plan, its amendment, implementation, and related planning, infrastructure, and development programs.

The CPC may make advisory recommendations to the City and other governmental agencies on land use and infrastructure matters. However, the City is not bound to follow the advisory recommendations of the CPC.

POLICY:

It shall be the policy of the City to recognize an organization that may offer review and recommendations to the City on those matters related to the General Plan, its amendment, implementation, and related planning and development programs.

1. This organization is generally expected to be composed of the chair, or officially designated representative, or alternate of each of the CPGs recognized under City Council Policy 600-24.
2. The CPC is independent of recognized community planning groups and not dependent on their guidance in formulating recommendations on regional or City-wide matters.
3. The CPC may participate in reviewing and offering recommendations to the City associated with implementing the goals, objectives, and policies contained in the City's General Plan, including land use and infrastructure issues of regional or City-wide scope.
4. The CPC is responsible for keeping informed on current projects. The CPC should monitor City agendas and announcements for public input, deliberations, and decision-making on City actions. The CPC is solely responsible for offering input and recommendations to the City in a timely manner.
5. With a goal of inclusive and robust participation in City-wide deliberations, the CPC should adopt rules and procedures calling for meeting schedules, methods of conduct of business, compliance with the Brown Act, and related matters as appropriate.

HISTORY:

Adopted by Resolution R-199050 02/12/1970

Amended by Resolution R-212667 02/20/1975

Amended by Resolution R-_____
