| Natalie Neshat | Commission on Police Practices | 5/20/2021     | 52                  | My name is Natalie Neshat and I am a San Diego native from zip code 92131. I wanted to make a comment voicing my severe concern with SDPD officers being present in the closed CPP meetings. This does not lead to best practices, unbiased decisions, nor reflects the will of the people, 75% of which voted yes on Measure B. Please remove police officers from closed CPP meetings. Thank you.   |
| Deidre McLeod  | Commission on Police Practices | 5/20/2021     | 4.2                 | Residents of San Diego voted overwhelmingly for *independent* oversight of the police. It is the guiding principle of the CPP. The presence of police representatives during closed meetings gives them undue influence over the deliberative process - up to and including opportunities for intimidation during and after discussions - even if attempts are made to mitigate that influence. If certain commissioners feel they won't properly be able to explain the context of decisions made during closed sessions - either to the Police Department or to the San Diego community that clearly wants more transparency in this process - than those commissioners, respectfully, need to resign and make way for other community members with a more serious understanding of what independent oversight of the police truly means and what the residents of San Diego overwhelmingly want. |
| Francine       | Commission on Police Practices | 5/20/2021     |                     | Hi please vote NO on having police and representatives in closed session for our next CPP. You are interim and the newly trusted Commission should make this decision. Yes they can change it but no need to waste time. Your the interim CPP but your culture is still in tact CRB stop it. We won't go backwards! The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Measure B made it clear. We all voted yes on Measure B because police oversight bodies need to be independent from the police. The Commission on Police Practices needs to be independent, transparent, and community-led. Thank you.   |
| Lynsey Buerer  | Commission on Police Practices | 5/20/2021     | 4.2                 | "We won't go backwards! The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Measure B made it clear. The Commission on Police Practices needs to be independent, transparent, and community-led. Thank you."  |
| Steph Gaudreau | Commission on Police Practices | 5/20/2021     | 1                   | The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Measure B made it clear. The Commission on Police Practices needs to be independent, transparent, and community-led. Allowing police officers or their staff to attend closed session meetings would eviscerate the independence and transparency of the Commission. The closed session meetings are critical to justice for all and for robust discussions. Do we allow police or police staff access or defendants or their colleagues into the jury deliberations room? Thank you.   |
| Patrick Dudley | Commission on Police Practices | 5/20/2021     | 1                   | "We won't go backwards! The Commission on Police Practices needs to be independent, transparent, and community-led. Thank you.  |
| Sabrina Van Zuiden        | Commission on Police Practices | 5/20/2021 | 1   | The Interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Measure B made it clear. The Commission on Police Practices must be independent, transparent, and community led. "We won't go backwards! The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Measure B made it clear. The Commission on Police Practices needs to be independent, transparent, and community-led. Accountability and justice need to be honored. Thank you. |
| Dustin                    | Commission on Police Practices | 5/20/2021 | 1   | The voters have spoken! Measure B passed with a clear initiative : the Commission on Police Practices must be community led, transparent, and most of all : INDEPENDENT of police officers and staff. Allowing PO's (and staff) to attend closed door meetings is the antithesis of what the voters and citizens want and passed. The interim commission MUST vote NO and continue to abide by the precedent that the voters set!   |
| Ashley Roberts            | Commission on Police Practices | 5/20/2021 | 2   | "We won't go backwards! | Amy Besnoy         | Commission on Police Practices              | 5/20/2021 4.2 | The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Measure B made it clear. The Commission on Police Practices needs to be independent, transparent, and community-led. Thank you.  |
| Christopher Carter | Citizens Advisory Board/Community Relations | 5/20/2021 2   | Keep police out of closed door sessions. We voted for police accountability. If they want to input they can put it in public comments like the rest of us. Prop B passed by a large majority because the public knows they can't reform themselves. We won't go backwards! The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Measure B made it clear. The Commission on Police Practices needs to be independent, transparent, and community-led. Thank you. |
| Margaret B McCann  | Commission on Police Practices              | 5/20/2021 2   | The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. | Amy Schools        | Commission on Police Practices              | 5/20/2021 2   | The CPP is meant to be independent and led by community members, NOT the police. The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Anything otherwise goes against what was voted on in Measure B. Vote no on allowing police to attend closed door sessions. Prop B passed by a large majority because the public knows police cannot reform themselves. If the police have something to say, they can put it in public comments like the rest of us.       |

The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Measure B made it clear. The Commission on Police Practices needs to be independent, transparent, and community-led. Thank you.   |
| Larry Stowell      | Commission on Police Practices              | 5/20/2021 2   | The voters made their will clear with Measure B: there must be absolutely independent oversight of police practices. The Interim Commission must vote NO on allowing any police officers or their staff or any LEA-affiliated "observers" to be present or participate in close session meetings. This is the only way to ensure that discussions and decisions in closed sessions are free from any influence by the police and that the public can be sure that the process is transparent and accountable to them.                            |
| Mat Wahlstrom      | Commission on Police Practices              | 5/20/2021 4.2 | Greetings. My name is Wedad Schlotte; Assembly District 78 Democratic Delegate. We all voted yes on Measure B because police oversight entities need to be independent from the police. The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Measure B made it clear. The Commission on Police Practices must be independent, transparent, and community-led. We can't go backward. Thank you.  |

| Nicole Peiris       | Commission on Police Practices | 5/20/2021 | 2 | <p>I do not support police members and staff being present at closed door meetings for the commission on police practices. This measure passed by the voters allowed for an independent commission and allowing police members or police staff present during these meetings will not allow for an independent review on police. I ask you to vote NO and do not allow police presence during these closed door meetings. Thank you.</p> <p>We won't go backwards! The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Measure B made it clear. The Commission on Police Practices needs to be independent, transparent, and community-led. Thank you.</p> <p>We won't go backwards! | Wendy Gelernter     | Commission on Police Practices | 5/20/2021 | 2 | <p>The entire point of Measure B was an INDEPENDENT review of police practices- a measure that the public voted on and won. Allowing police officers into these sessions completely negates the entire point of an INDEPENDENT commission (as I'm sure they are aware). This is a slap in the face to voters, and more pandering to the police force that has recently pointed a gun at a nine year old and assaulted an unarmed homeless man. And what were the repercussions of those acts? Let me guess - the police investigated themselves and decided they did nothing wrong. Incidents like these and the complete inability of police to hold themselves accountable is exactly why the independent commission was created, and why it needs to remain independent.</p>  |
| Matthew O'Connor    | Commission on Police Practices | 5/20/2021 | 2 | <p>The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Measure B made it clear. The Commission on Police Practices needs to be independent, transparent, and community-led. Allowing the influence of police officers to join is a danger to the objectiveness of the meeting. Thank you for voting NO!</p> <p>We won't go backwards! The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. The Commission on Polices Practices must be independent, transparent and community led.</p>  |

| Utaw Cuseo-White    | Commission on Police Practices | 5/20/2021 | 2 | Thanks for your time and the opportunity to comment.<br>Please do not allow police officers or their staff to join closed door meetings, etc. Measure B passed because San Diegans want police to be held accountable & history has shown that cannot happen when police are involved. Please protect & follow the people's mandate!  |
| Cassandra Fullerton | Commission on Police Practices | 5/20/2021 | 2 | San Diego voters have chosen to create and independent review board on police practices for the sake of accountability and community trust. Allowing the police to attend closed meetings completely undermines that trust, and is not what we have voted for. The police should not be allowed to attend these meetings, as it directly conflicts with the purpose of these meetings, and goes against the very clear decision of the voters. Please vote no on allowing the police to attend these meetings. Doing otherwise is to dismiss the will of our city.  |
| Christian Chavez    | Commission on Police Practices | 5/20/2021 | 1 | I voted on Measure B to hold SDPD officers accountable. Allowing them in on closed sessions is the complete opposite of what we voted for. Do not go backwards! The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Measure B made it clear. The Commission on Police Practices needs to be independent, transparent, and community-led. Thank you  |
| Stephanie Cirillo   | Commission on Police Practices | 5/20/2021 | 2 | We demand full transparency! The Interim Commission on Police Practices must vote NO on allowing police and/or their staff to attend closed session meetings. This is about OUR community. Measure B has also made this evident. The Commission on Police Practices must be independent, transparent to the fullest, & community-led. Do not let your city down. Hello, we won't go backwards. The interim commission on police practices must vote no on allowing police or staff to attend closed session meetings! Measure B made it clear. The Commission On Police Practices needs to be independent, transparent and community led, thanks. |
| Marleen Hiedo       | Commission on Police Practices | 5/20/2021 |   | California has failed time and time again to provide police oversight. There are commissions across the state which have been bought out or otherwise infiltrated by partisan groups, and made useless. Do not add this commission to that list of useless oversight. The police cannot be allowed anywhere near this commission or the halls where it is held- we all know what happens when police oversee themselves. Will the commission oversee the police or will the police oversee the commission? San Diego is watching.   |
| W. Fontenot         | Commission on Police Practices | 5/20/2021 | 2 | Allowing the police near this commission would mean actively choosing violence, riots, and blood on our streets.  |

| Michael Brackney  | Commission on Police Practices | 5/20/2021 2 | <p>Please vote NO on allowing police officers or their staff to attend closed session meetings, or better yet, declare any vote on this issue to be out of order since any such vote would challenge and violate the plain intent of the voters expressed in Measure B, which says clearly that the Commission on Police Practices is to be independent, i.e., completely independent, of the police.</p> <p>Allowing police officers into closed sessions is anathema to this entire process and what the citizens of San Diego voted on! We will not go backwards and allow police officers or their staff to attend closed session meetings. Measure B made it clear and thus the Commission on Police Practices needs to be independent, transparent, and community-led. The interim Commission on Police Practices must vote NO. Thank you.</p>  |
| Paul Martin       | Commission on Police Practices | 5/20/2021 2 | <p>We CAN'T go backwards! The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Measure B made it clear. The CPP needs to be independent, transparent, and community-led. We have seen just recently in Los Angeles how law enforcement agencies have engaged in the coordinated harassment of those who hold them accountable for keeping the public safe. ( <a href="https://www.theguardian.com/us-news/2021/may/04/los-angeles-sheriffs-harass-families-of-victims-report">https://www.theguardian.com/us-news/2021/may/04/los-angeles-sheriffs-harass-families-of-victims-report</a> ) Allowing police and their staff in closed-door commission meetings will lead to similar instances here in San Diego and will make it less safe to report police misconduct, which has a result of silencing victims. Thank you.</p> |

The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings.

Measure B made it clear: The Commission on Police Practices needs to be independent, transparent, and community-led. Allowing police officers or their staff goes against the very intent and spirit of the Measure.

And since I know someone will try to make the point, no, police officers are not normal citizens like everyone else. They have a conflict of interest when it comes to holding police accountable to the community, and they are our civil servants vested with the power to kill with near impunity, which makes it all the more important to be able to hold them accountable without the presence of threat or intimidation.

They can learn the results of these meetings along with the rest of us. They don't need to be in the room and they shouldn't be.

Natalie Ferraiolo                      Commission on Police Practices                      5/20/2021 2

The interim Commission of Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. The critical component of Measure B is to have an INDEPENDENT body to remove all possibility of unintended bias and remove the conflict of interests that exist in the current, soon to be former, Community Review Board. It is your duty to honor the will of the voters and the language of Measure B is clear - independent, transparent, and community-led. The video evidence of SDPD officers violent responses to peaceful protesters over this last year have furthered our distrust with law enforcement. To repair the fear and distrust we have with SDPD requires starting fresh in the most ethical we can. Placing police officers/staff in an independent commission for police practices makes it independent no longer. It is unnecessary for police officers or staff to participate in closed session meetings. Please vote NO. Thank you.

STOP doing everything in your power to appease the POLICE UNIONS and start showing your demonstration to an ACTUAL INDEPENDENT citizen's review board to hold police accountable. Why do you think the defendant, isn't allowed to hang out in the jury room when they deliberate on his or her fate? Same reason police under investigation and the agency that protects and coddles police, should be excluded from closed door sessions. Police agencies have demonstrated they cannot or will not impose discipline on the officers who are most deserving. Can the citizen's review board do anything without police watching over them? If not, there is zero independence and just more of the same. You should not be focused on appeasing POLICE UNIONS but on convincing the COMMUNITY you care about restoring their trust in police with an accountability system that is INDEPENDENT. Or maybe next time we'll need to start with insuring CITY COUNCIL is INDEPENDENT by prohibiting those who accept POLICE UNION money from making decisions about a Commission on Police Practices. If you can't do what's best for the community because you're beholden to POLICE UNIONS you shouldn't be in office.

This gang, who terrorizes our communities with impunity and then wastes inordinate amount of taxpayer money on fake overtime while they round up shopping carts from my neighbors, is incapable of holding their fellow gang members accountable. The voters know this and voted overwhelmingly for a independent review with subpoena powers. Independent means independent. The inability of police to reduce the crime rate despite the hundreds of millions allotted to them shows that they are not doing their jobs. We are sick and tired of these violent lunatics who do not keep us safe and drain on funds that could be put towards resources that actually do. Time to start being reviewed and fired by their employers, the citizens of San Diego.</p> <p>Measure B made it clear what voters want. The Commission on Police Practices needs to be independent from Police, transparent, and community-led. To establish transparency and build trust with the San Diego community, the Commission on Police Practices must be independent from the police, meaning that this interim Commission must vote NO on allowing police officers or their staff to attend closed session meetings. Thank you.</p> |

The independence of the Commission would be undermined by the inclusion of police officers or their staff at closed session meetings. To ensure the community feels comfortable with the Commission's role in investigating police misconduct, the Commission on Police Practices must be an autonomous body, as was intended and overwhelmingly supported by San Diegans with Measure B. We need robust community oversight on the actions of police officers, and to do that this interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. I urge you to vote NO on allowing police and their staff to attend closed session meetings. That is not what the voters approved!

I'm a retiree who has lived in San Diego 36 years, and I'm tired of waiting for real oversight of police practices. We need independent investigations! Not police in the closed sessions!

We won't go backwards! The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings. Measure B made it clear. The Commission on Police Practices needs to be independent, transparent, and community-led. Thank you.

Independent means independent. Oversight means to oversee. The board should not depend on the presence of a police officer in their deliberations and the police should be present as defendants to explain their bad behavior, not as peers to cross examine witnesses.

The citizens voted for an independent oversight board. The police have no right to ask for, and you have no right to grant, a seat for them in the room where the victims they have brutalized are attempting to give testimony. It is prima facie coercion and intimidation and this constantly displayed sense of entitlement to oppressive, bullying behavior is the precise reason the voters of this city demanded an independent oversight board.

Independent also means free from after-the-fact meddling in the will of the voters by city council people.

In the spirit of Measure B, please vote NO on allowing police officers or their staff to attend closed session meetings. Measure B was explicitly clear that the Commission on Police Practices needs to be independent, transparent, and community-led. Thank you very much.

| Elizabeth Montagne | Commission on Police Practices | 5/20/2021 | 2 | <p>Hello, my name is Julie Hendricks, D7. I urge the Commission to vote a resounding NO on allowing police or their staff to attend closed session meetings. As recent data has shown, published by the San Diego Union Tribune and the Voice of San Diego, the SDPD engages in racist practices, pulling over and using violence 2-3 times more against Black and Brown people. We have recently seen video of the police repeatedly punching a Black houseless neighbor in the face, and aiming a loaded weapon at an 8 year-old. These may indeed be "isolated" incidents, but what happens when there is no video? Further the NAACP San Diego chapter recently learned that the SDPD currently has no documents that discuss the existence of, or plans to identify and root out extremist and white supremacist views. Yet we know that these exist among officers. We deserve more as a community and the people of San Diego voted for a transparent, INDEPENDENT commission to protect our citizens. Please don't go backwards, please vote with your community and not with the POA. As someone who regularly attended the Community Review Board on Police meetings, I voted yes on Measure B because it became very clear that police oversight bodies need to be independent from the police. The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings and support the intent of the community. Friends,</p> <p>We live in a democracy. The people voted for Measure B and bodycam legislation specifically designed both to protect the public and to improve perception, trust, and therefore safety of officers. We cannot undercut democracy by quietly pushing through measures to undercut the will of the people.</p> <p>The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings.</p> |

We won't go backwards! The interim Commission on Police Practices must vote NO on allowing police officers or their staff to attend closed session meetings.

Measure B made it clear. The Commission on Police Practices needs to be independent, transparent, and community-led. To include police in this process is to subvert justice and the will of San Diegans.

The peoples vote on Measure B was clear. We need police oversight independent of police. How can we call it independent when police would be allowed to attend closed sessions. This is not a move forward. These sessions must be completely transparent and community led. Allowing police to attend closed sessions will do nothing more but create great distrust between SDPD and the community that pays them to "serve"
