

Union of Pan Asian Communities Community Violence Response Team

Our Community Violence Response Team responds to all acts of violence around San Diego County. Our team provides initial support to families and creates a lasting relationship to support them throughout their grief and healing. Assistance can include emergency shelter, home repairs and clean-ups, food assistance, funeral & burial expenses, school essentials for children, grief counseling, and therapy service.

Our Group of Certified Grief Recovery Specialists provide support for children, youth and families affected by the trauma of violence or loss. Individual counseling is available in-home or at our office. Additionally, we host a bi-monthly peer-based grief support group.
