Research shows reading proficiency by fourth grade is the most important predictor of high school graduation and career success. Sadly, more than 80 percent of low-income children miss this milestone.

The San Diego Public Library is taking a lead in promoting childhood literacy by providing free tools and programs that help children reach the fourth grade ready to learn.

We kindly ask State of the District attendees to bring a new, unwrapped children's book that will be donated to District 6 libraries to promote a love of reading and help families build home libraries.
