San Diego Civic Center
San Diego, California

Attention of Mr. Fred Simpson

Gentlemen:

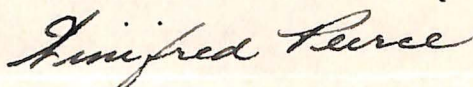

The Hillcrest Women's Club wishes to make known that it is in favor of an ordinance being written as a result of the Beach Safety Survey now being conducted in our city.

This Club feels that hazardous places along our ocean front should be made known to the public, that our beaches should be protected the year-round to safe guard the lives of our local swimmers as well as our visitors, and that small boating be prohibited in dangerous areas and in dangerous weather.

The Club feels that measures covering these points are of utmost importance.

Very truly yours,

HILLCREST WOMEN'S CLUB

Corresponding Secretary
