Chapter 1: Introduction

Authority

In 1987, City of San Diego (City) staff developed and recommended Development Impact Fees (DIF) for 28 urbanized communities within the City. City Council adopted the recommended fees to mitigate the impact of new development on public facilities by Resolution No. R-269019 (adopted August 4, 1987) and R-269274 (adopted September 14, 1987).

The General Plan for the City was updated on March 10, 2008 by Resolution No. R-303473; and new guidelines included the division of the City into two planning designations: Proposition A Lands and Urbanized Lands. Urbanized areas include the developing communities, the central portion of San Diego as well as the remaining older section of the City. The San Ysidro Community Planning Area is an Urbanized area.

Previous, Current and Future Public Facilities IFS Updates

The Fiscal Year (FY) 2017 San Ysidro Impact Fee Study (IFS) supersedes the FY 2008 San Ysidro Public Facilities Financing Plan approved on November 8, 2007 by Resolution No. R-303133. This IFS reflects changes in the rate and amount of planned development; changes in interest and inflation rates; and changes in DIF contributions to capital improvement program projects. The City Council may amend this IFS in the future to add, delete, substitute or modify a particular anticipated project to take into consideration unforeseen circumstances.

Purpose and Scope

This IFS is being updated in conjunction with the San Ysidro Community Plan update, which will serve as a comprehensive policy guide for the physical development of the community. The San Ysidro planning area is bounded by the Otay Mesa-Nestor community and State Highway 905 to the north, by the Tijuana River Valley to the west, by the Otay Mesa community to the east, and by the international border with Mexico to the south, as show in Figure 1. This IFS identifies public facilities that are anticipated from 2016 to full community development, and serves to establish a financing strategy for the provision of those facilities.

Development Forecast and Analysis

According to the San Diego Association of Governments (SANDAG) October 2013 estimates, San Ysidro has a population of approximately 28,336 people, and 7,410 housing units. The Community Plan anticipates full community development with an estimated 9,820 dwelling units, a population of 38,559 people, and 22,583,080 square feet of non-residential development. The technical analysis and mobility recommendations for the San Ysidro Community Plan Update estimate that San Ysidro will generate a total of 441,174 average daily trips (ADTs) at full community development.

Periodic Revision

To ensure that this IFS remains up-to-date and accurate, it should be periodically revised

to include, but not necessarily limited to, amendments to the Community Plan. Per the General Plan Action Plan, public facilities IFSSs may be amended “concurrently with amendments to the General Plan and community plans which result in the need for additional facilities” (Land Use and Community Plan Element Action Item No. 9).

DRAFT

Chapter 2: Existing Public Facilities and Future Needs

Transportation

The San Ysidro Community is served by a transportation network, which consists of automobile and public transportation systems, a bicycle system, and a pedestrian circulation system. Additional transportation improvements are necessary to meet both existing needs and the needs of future development. Transportation improvements in San Ysidro are dictated by traffic volume, level-of-service and street system requirements. New development cannot be required to pay more than its fair share for transportation system facilities, therefore DIF will have to be augmented by other funding sources to fully fund the necessary transportation facilities.

Park and Recreation

San Ysidro is currently served by San Ysidro Community Park, San Ysidro Athletic Area/Larsen Field, Colonel Irving Salomon/San Ysidro Activity Center Mini Park, Vista Terrace Neighborhood Park, Howard Lane Neighborhood Park, and Coral Gate Neighborhood Park.

Library

Library services for the San Ysidro community are provided by the San Ysidro Branch Library located at 101 West San Ysidro Boulevard, which was originally built in 1924. The existing facility has no meeting room, computer lab, no on-site parking, and no separation of the children's area and quiet study areas, therefore, a 15,000 square-foot replacement located at 123 East Seaward Avenue is planned to serve the community at full community build out.

Fire-Rescue

Fire-Rescue services are provided by Station No. 29. The original Fire Station was built in 1958 as Station 27, and became Fire Station 29 in 1959. In 2005, a new station opened across the street at 198 West San Ysidro Boulevard. Today, Fire Station 29 serves 6.21 square miles and will serve the community at full community build out. Additional Fire-Rescue services are provided by Fire Station No. 6 located at Twining Avenue and Palm Avenue in the Otay-Mesa Nestor community.

Timing and Cost of Facilities

DIF provide a partial funding source for the projects listed in Table 1 which are subject to revision in conjunction with council adoption of the Annual Capital Improvement Program Budget. Depending on priorities and availability of resources, substantial changes to these projects are possible from year to year.

Chapter 3: Development Impact Fee Calculation

DIF are based on the extent or degree to which each type of development generates a demand for, or receives benefit from, the various public facilities. For example, all development generates vehicular traffic and demand for fire-rescue services, and thus, on an equitable basis, should share in the cost of transportation and fire projects. Residential development also generates demand for park and recreation and library facilities. Non-residential development may also create a need for parks or libraries, and may be charged fees for those facilities on an ad hoc basis, as appropriate.

DIF were determined for the various categories of needed public facilities based on additional public facilities needed at full community development. The DIF basis includes all eligible project needs except those identified as other or subdivider funded. The fees also include an 8 percent charge to cover City administrative costs.

Transportation Component

The residential portion of the impact fee reflects an average daily vehicle trip rate (ADT) of 7 as a basis for determining the DIF (less than 20 dwelling units: 8 trips/dwelling unit; more than 20 dwelling units: 6 trips/dwelling unit). A considerable range has been found for traffic generation in non-residential developments depending on the character and use of the property. Therefore, the DIF for non-residential development is determined by ADTs generated by the specific kind of proposed development. For this IFS, transportation estimates are based on the unit pricing list for transportation projects as described in Appendix A.

According to the Mobility Analysis for the San Ysidro Community Plan Update, the total number of trips at full community development is anticipated to be 441,174. An assessment of the DIF eligible transportation projects plus completed transportation projects required for full community development totals \$78,413,669. This cost, plus 8% administrative costs, divided by 441,174 ADTs results in a DIF of \$192 per ADT or \$1,344 per dwelling unit. The fee per dwelling unit is calculated by multiplying the per ADT cost by the average vehicle trip rate per dwelling unit (7 ADTs).

Park and Recreation Component

Park needs are based on population, which is derived from the number of dwelling units estimated at full community development. For this IFS, park estimates are based on the cost estimate breakdown for park and recreation projects as described in Appendix B.

The total DIF eligible park and recreation project costs plus the completed park and recreation projects costs is \$77,684,691. This divided by 9,820 dwelling units, including 8% administrative costs, results in an impact fee of \$8,544 per dwelling unit. Additional fees may be imposed on discretionary projects on a case-by-case basis in order to meet the standard of 2.8 acres of parkland per 1,000-population set forth in the General Plan.

Library Component

Library needs are based on population, which is derived from the number of dwelling units anticipated at full community development. Therefore, only residential development is charged a DIF for library facilities.

Allocating the total library costs to residential development results in a DIF of \$259 per dwelling unit. This was calculated by dividing the total DIF contribution (\$2,351,000) of the needed library project, plus 8% administrative costs, by the number of dwelling units anticipated at full community development 9,820.

Fire-Rescue Component

The fire-rescue component of the DIF relates to the cost of providing facilities to adequately provide fire-rescue services to both residential and non-residential development within the community. Residential impact fees are based on an average cost per dwelling unit. It is assumed that the average size of a dwelling unit is 1,000 square feet. Non-residential development fees are based on the average cost per 1,000 square-feet of gross building area.

Residential and non-residential development is anticipated to total 22,583,080 square feet at full community development, which results in a DIF of \$59 per dwelling unit and per thousand square feet of non-residential development. This was calculated by dividing the total fire-rescue costs needs of \$1,241,550, plus 8% administrative costs, by 22,583.08. The total fire-rescue costs include a 7% cost share for Fire Station #6 located in the Otay Mesa-Nestor community.

DIF Fee Schedule

By combining all impact fee components, a DIF Fee Schedule is created. For residential development, the FY 2017 fee is \$10,206 per residential unit. For non-residential development, the FY 2017 fee is \$192 per ADT plus \$59 per 1,000 SF. The actual dollar amount for an individual building permit will be based on the DIF Fee Schedule and Trip Generation Manual in effect on the date of building permit issuance. The DIF Fee Schedule is located below and on the inside back cover of this Study. The San Ysidro Community DIF Fee Schedule:

FY 2017 Facility Type	Residential Development	Non-Residential Development	
	Per Dwelling Unit	Per Average Daily Trip	Per 1,000 Square Feet
Transportation Component	\$1,344	\$192	\$0
Park & Recreation Component:	\$8,544	\$0	\$0
Library Component:	\$259	\$0	\$0
Fire-Rescue Component:	\$59	\$0	\$59
Total:	\$10,206	\$192	\$59

Annual Increase to DIF Schedule

City Council Ordinance Number O-20100 (approved October 11, 2011), amended Municipal Code provisions relating to the collection of public facilities fees and assessments. Specifically, Chapter 14, Article 2, Division 6 allows for automatic annual increases to the DIF Schedule to occur every July 1st:

Unless otherwise specified in the applicable Resolution(s) establishing the Development Impact Fees, the amount of the Development Impact Fee shall be increased, starting on July 1, 2010, and on each July 1st thereafter, based on the one-year change (from March to March) in the Construction Cost Index for Los Angeles as published monthly in the Engineering New-Record. Increases to Development Impact Fees consistent with the Construction Cost Index in Los Angeles shall be automatic and shall not require further action of the City Council.

TRANSPORTATION PROJECTS

CITY OF SAN DIEGO FACILITIES FINANCING SECTION

TITLE: SAN YSIDRO TRAFFIC SIGNALS - VARIOUS LOCATIONS

DEPARTMENT: Transportation & Storm Water

PROJECT: T-1

Council District: 8

CIP NO.:

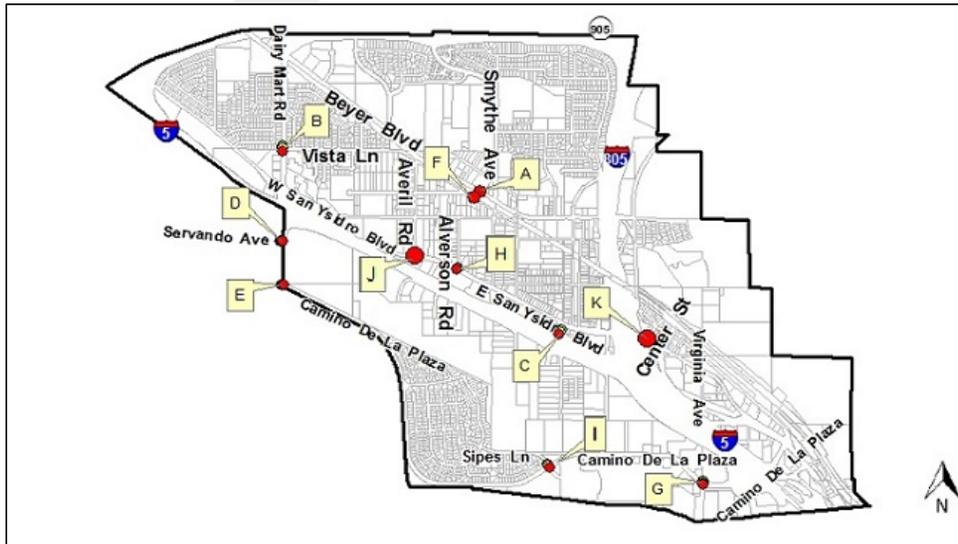

Community Plan: San Ysidro

DESCRIPTION: This project will provide for the installation of new traffic signals community wide which include but are not limited to the following locations:

- A) Smythe Crossing and Beyer Boulevard (\$275,000)
- B) Dairy Mart Road and Vista Lane (\$275,000)
- C) Via De San Ysidro and I-5 northbound freeway ramps (Completed. Not funded by DIF)
- D) Dairy Mart Road and Servando Avenue (\$275,000)
- E) Dairy Mart Road and Camino De La Plaza (\$275,000)
- F) Smythe Crossing and Vista Avenue (\$275,000)
- G) Camino De La Plaza and Virginia Avenue (Under construction. Not funded by DIF)
- H) West San Ysidro Boulevard and Alverson Road (\$275,000)
- I) Camino De La Plaza and Sipes Lane (*Developer Condition / Not in the DIF basis / \$275,000)
- J) West San Ysidro Boulevard and Averil Road (Funding assumed as part of T-25)
- K) East San Ysidro Boulevard and Center Street (\$275,000)

JUSTIFICATION: This project is consistent with the San Ysidro Community Plan and General Plan guidelines and is needed to serve the community at full buildout.

SCHEDULE: Design and construction will be scheduled once funding has been identified.

TITLE: BORDER TO BAYSHORE BIKE WAY

DEPARTMENT: SANDAG

PROJECT: T-2
Council District: 8
Community Plan: San Ysidro

DESCRIPTION: This project will provide for a linear, walkable, bikeable link that will be constructed along East Beyer Boulevard, Beyer Boulevard, East Hall Avenue and East Park Avenue mainly within the MTS right of way. This facility will connect the northwest end of the community to the border area and the San Ysidro Intermodal Transportation Center. A substantial portion of the Border to Bayshore Bike Facility will be outside of the San Ysidro community.

JUSTIFICATION: This project is consistent with the San Ysidro Community Plan and General Plan guidelines and is needed to serve the community at full buildout.

SCHEDULE: Design and construction will be scheduled once funding has been identified.

TITLE: I-5 BRIDGE DECK PHASE I (TRAFFIC ENGINEERING STUDY)

DEPARTMENT: Transportation & Storm Water

PROJECT: T-29

Council District: 8

CIP NO.:

Community Plan: San Ysidro

DESCRIPTION: This project will provide for a traffic engineering study to construct a bridge deck with roadway connector over I-5 between Willow Pedestrian Bridge and Via De San Ysidro. The bridge deck will relieve extreme traffic congestion on East and West San Ysidro Boulevard. Phase I will be a traffic engineering study to examine all possible creative, multi-modal mobility solutions, including parking.

JUSTIFICATION: This project is consistent with the San Ysidro Community Plan and General Plan guidelines and is needed to serve the community at full buildout.

SCHEDULE: Design and construction will be scheduled once funding has been identified.

Funding:	Source	Expen/Encum	Cont/Appr	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021	FY 2022

LIBRARY PROJECTS

**CITY OF SAN DIEGO
FACILITIES FINANCING SECTION**

TITLE: SAN YSIDRO BRANCH LIBRARY

DEPARTMENT: Library

PROJECT: L-1

CIP NO.: S00802

Council District: 8

Community Plan: San Ysidro

DESCRIPTION: This project provides for a new 15,000 square foot facility to serve the San Ysidro community. The Real Estate Assets Department started the process of land acquisition for the new proposed project site located at 123 East Seaward Avenue. The land is currently in the appraisal process.

JUSTIFICATION: The existing library built in 1924, and remodeled in 1983 is only 4,089 square feet. The branch has work spaces for staff that are very constrained. Updating the existing telecommunications infrastructure is not feasible in the current facility due to its age and inadequate size. It contains no meeting rooms or computer lab, no on-site parking, and no separation of the children's area and quiet study areas.

SCHEDULE: The preliminary study began in fiscal year 2010. Design phase began in fiscal year 2016 and is anticipated to be completed in fiscal year 2017. Construction is scheduled to begin in fiscal year 2017 and is anticipated to be completed in fiscal year 2019.

FIRE-RESCUE PROJECTS

CITY OF SAN DIEGO FACILITIES FINANCING SECTION

TITLE: FIRE STATION 6

DEPARTMENT: Fire-Rescue

PROJECT: F-1
Council District: 8
Community Plan: San Ysidro

CIP NO.:

DESCRIPTION: This project will provide for an approximate 9,000 square foot 2-bay station upgrade to enhance service to the San Ysidro community; replacing the existing no. 6 fire station located at the intersection of Palm Avenue and Twining Street in the Otay Mesa-Nestor community. The new station will accommodate one engine, a paramedic ambulance, and 6 personnel.

JUSTIFICATION: The existing station is located in a converted house and is insufficient to meet modern fire service needs. Project may be reviewed by City Engineers, and may be modified to take into consideration unforeseen circumstances which could include, for example, physical/logistical barriers, or identification of environmental impacts once the particular projects have been formulated to a sufficient level of detail to enable meaningful environmental review, if necessary. This project is consistent with the goals of the San Ysidro Community Plan and the City's General Plan.

SCHEDULE: Land acquisition, design and construction will be scheduled once funding is identified.

COST:	Engine 6 Percentage of Response Calls within San Ysidro	7% Project Cost =	\$641,550
	Engine 6 Percentage of Response Calls outside San Ysidro	93% Project Cost =	\$8,523,450
		Total Project Cost =	\$9,165,000

**COMPLETED
FIRE-RESCUE PROJECTS**

CITY OF SAN DIEGO FACILITIES FINANCING SECTION

TITLE: FIRE STATION NO. 29: COMPLETED (CIP 33-103.0)

DEPARTMENT: Fire-Rescue

PROJECT: F-2 (Formerly F-1)

Council District: 8

CIP NO.: 33-103.0

Community Plan: San Ysidro

DESCRIPTION: Fire Station 29 is located at 198 West San Ysidro Boulevard at Cottonwood Road. The new station replaced the older facility at 179 West San Ysidro Boulevard.

JUSTIFICATION: This project is consistent with the San Ysidro Community Plan and General Plan guidelines and is needed to serve the community at full buildout.

SCHEDULE: This project is completed.

Funding:	Source	Expen/Encum	Cont/Appr	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021	FY 2022

SAN YSIDRO COMMUNITY PLANNING GROUP PRIORITIZATION LIST

The San Ysidro Community Planning Group should review their priority list regularly and transmit changes in the ranking results to the City of San Diego. Additionally, the City of San Diego may request updated priorities whenever deemed necessary to take advantage of available funding sources.

APPENDIX A
FY 2017 San Ysidro Impact Fee Study
Unit Pricing List for Transportation Projects

EARTHWORK:

UNIT PRICE GUIDELINES *

Excavation	\$75	per cubic yard
Fill	\$40	per cubic yard
Imported Backfill	\$15	a ton
Clearing & Grubbing	\$.35-.85	square foot
	(min. 5% of construction subtotal)	

SURFACE IMPROVEMENTS:

Remove Curb & Gutter	\$10	per linear foot
Remove Sidewalk	\$3	per square foot
Remove Pavement	\$3	per square foot
Grind /Overlay	\$3.50	per square foot
AC Leveling Course	\$120	per ton
4" AC	\$94	a ton
13.5" Cement Treated Base (CTB)	\$34	per cubic yard
Curb & Gutter Type G	\$30	per linear foot
Curb Ramps	\$5,000	each
Sidewalk	\$6	per square foot
Driveways	\$10	per square foot
Median Curb Type B-2	\$30	per linear foot
Median Curb Type B-3	\$25	per linear foot

DRAINAGE:

Storm Drain Pipe (18")	\$125	per linear foot
Storm Drain Inlet (Type B)	\$7,000	each

TRAFFIC:

New Traffic Signal	\$275,00	0 each
Traffic Signal Modification	\$150,00	0 each
New Street Light	\$8,000	each
Relocate Street Light	\$2,000	each

LANDSCAPING:

Landscaping	\$22	per square foot
-------------	------	-----------------

MISCELLANEOUS:

Retaining Wall	\$35	per square foot
Guard Rail	\$45	per linear foot
Concrete Median Barrier	\$50	per linear foot
Great Crash Cushion	\$35,000 - \$40,000 each	

**The Unit Price Guideline is based on information compiled from bid item data from recent capital improvement program projects. The unit prices are subject to change based on fluctuations in the economy and costs of construction materials.*

APPENDIX B
FY 2017 San Ysidro Impact Fee Study
Cost Estimate for Park and Recreation Projects

LAND ACQUISITION:	\$600,000 per acre
--------------------------	--------------------

FACILITIES DESIGN AND CONSTRUCTION: ^{(1, 2, 3):}

Aquatics Complex (Swimming Pool Development) ⁽⁴⁾	\$6,777,000 per complex
Basketball Court	\$221,000 each
Children's Play Area – ADA Upgrade	\$782,000 lump sum
Children's Play Area – New	\$869,000 each
Comfort Station – ADA Upgrade	\$646,000 each
Comfort Station – New	\$869,000 each
Park Site Development ⁽⁵⁾	\$782,000 per acre
Parking Lot Expansion	\$712,000 per 1/2 acre
Path of Travel – ADA Upgrade ⁽⁶⁾	\$1,003,000 lump sum
Picnic Shelter	\$307,000 each
Recreation Center – Expansion	\$710 per square foot
Recreation Center – New (17,000 s.f. building)	\$600 per square foot
Security Lighting	\$555,000 lump sum
Sports Field Lighting	\$646,000 per sports field

(1) Improvement costs are provided as a general summary estimate. Costs will vary according to specific site requirements, and size and quantity of facilities needed, and should be determined on a case by case basis. Individual project costs will vary based on the specific improvements included in the project, economy of scale, quantity of improvements, etc.

(2) Cost estimates include construction administration and contingencies, project administration, design and inspection.

(3) Costs should be adjusted annually to reflect the Engineering News Record Construction Cost Index for Los Angeles (CCI) rate change (from March-to-March). The above costs incorporate the 2011 (2.72%), 2012 (2.48%), 2013 (0.00%), 2014 (4.35%), and 2015 (2.46%) CCI rate changes.

(4) Aquatics Complex includes a standard 25-yard x 25-meter swimming pool; a pool house building with locker rooms, restrooms, and administrative offices; and other recreational or therapeutic aquatic facilities.

(5) Park Site Development includes: Grading and drainage; irrigation; turf and landscaping; walkways; fencing; security lighting; drinking fountains; benches; tables; trash receptacles; and identification signage.

(6) Path of travel upgrades are required when existing paths are inaccessible, and when existing inaccessible facilities are located along the paths of other facilities that are being improved. This includes the path of travel from the site entry point at the public right-of-way that is closest to public transportation stops and designated accessible parking areas. Facilities that may require upgrades include parking areas, sidewalks and curb ramps, sanitary facilities, drinking fountains, benches and tables, public telephones, signage, etc.

*IMPORTANT INFORMATION ABOUT THIS FORECAST:

This forecast was accepted by the SANDAG Board of Directors in October 2013 for distribution and use in planning and other studies. This forecast represents one possibility for future growth in the San Diego region. It is intended to represent a likely prediction of future growth, but it is not intended to be a prescription for growth. The Series 13 Regional Growth Forecast represents a combination of economic and demographic projections, existing land use plans and policies, as well as potential land use plan changes that may occur in the region between 2030 and 2050. In general, growth between 2012 and 2030 is based on adopted land use plans and policies, and growth between 2030 and 2050 includes alternatives that may, in some cases, reach beyond existing adopted plans.

GROWTH TRENDS IN JOBS

Notes:

1 - Figures may not add to total due to independent rounding.

2 - This is not a forecast of agricultural land, because the 2050 Regional Growth Forecast does not account for land that may become agricultural in the future. Also, some types of development that occur on agricultural land, such as low density single family residential, may allow for the continuation of existing agricultural use.

3 - Civilian jobs per developed employment acre (industrial, retail, office, schools, and half of mixed use acres).

4 - Total housing units per developed

**FY 2017
San Ysidro Impact Fee Study
Development Impact Fee Schedule
Effective Date TBD**

FY 2017	Residential Development	Non-Residential Development	
Facility Type	Per Dwelling Unit	Per Average Daily Trip	Per 1,000 Square Feet
Transportation Component:	\$1,344	\$192	\$0
Park & Recreation Component:	\$8,544	\$0	\$0
Library Component:	\$259	\$0	\$0
Fire-Rescue Component:	\$59	\$0	\$59
Total:	\$10,206	\$192	\$59

**The DIF Schedule will increase every July 1, based on the one-year change (from March to March) in the Construction Cost Index for Los Angeles as published monthly in the Engineering News-Record.*
