

THE CITY OF SAN DIEGO

Report to the Hearing Officer

DATE ISSUED: March 26, 2019 REPORT NO. HO-19-037

HEARING DATE: April 3, 2019

SUBJECT: MPF 10110 SORRENTO VALLEY, Process Three Decision

PROJECT NUMBER: [585348](#)

OWNER/APPLICANT: Helf Sorrento, LLC., Owner and Sean St. Peter, Applicant

SUMMARY

Issue: Should the Hearing Officer approve a Marijuana Production Facility located at 10110 Sorrento Valley Road in the IL-3-1 Zone of the Torrey Pines Community Plan area?

Staff Recommendation: Approve or Deny Conditional Use Permit No. 2196094.

Community Planning Group Recommendation: On October 11, 2018, the Torrey Pines Community Planning Board voted 12-0-0 to recommend approval of the project with no conditions (Attachment 7).

Environmental Review: This project was determined to be categorically exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Section 15301, Existing Facilities (Attachment 6). An appeal of the CEQA determination was previously made and scheduled for City Council on January 14, 2019. Prior to the City Council hearing, the appellant submitted a written request to withdraw the appeal and pursuant to San Diego Municipal Code Section 112.0520(d), no appeal hearing was conducted. However, the project site is located partially within the Coastal Overlay Zone. Ordinance [O-20863](#), amending the appeal process and appeal withdrawal regulations, is not in effect within the Coastal Overlay Zone. Therefore, the City Council considered the CEQA appeal and denied the appeal on March 12, 2019. The scope of the subject hearing only includes the project, and not the environmental determination.

BACKGROUND

The project is a request for a Conditional Use Permit pursuant to [San Diego Municipal Code \(SDMC\) Section 126.0303](#) to operate a Marijuana Production Facility (MPF) within an existing one-story, 40,271-square-foot building located at 10110 Sorrento Valley Road (Attachment 1). The 12.04-acre project site is in the IL-3-1 Zone within the Torrey Pines Community Plan area. The project site is also located in the Coastal Overlay Zone (Appealable and Non-Appealable), MCAS Miramar Airport

Land Use Compatibility Overlay Zone (Airport Influence Area - Review Area 1, Accident Potential Zone 2, Noise 60-65 CNEL), Federal Aviation Administration (FAA) Part 77 Noticing Area, Parking Impact Overlay Zone (Campus and Coastal), Special Flood Hazard Area (100-year Floodplain and 100-year Floodway), Transit Priority Area, and designated as Prime Industrial Land in the Economic Prosperity Element of the General Plan. The building constructed in 1979 is one of three buildings located on the site and was previously occupied by Attenuon, LLC (a biopharmaceutical company), Scripps Healthcare, and Optimer Pharmaceuticals, Inc. The southern portion of the project site is separated by railroad tracks (Attachment 3).

The project site is designated Prime Industrial Land in the Prosperity Element, and Industrial Employment by the Land Use and Community Planning Element, of the General Plan. The General Plan identifies a citywide shortage of land suitable for manufacturing activities and a need to protect manufacturing land from non-manufacturing uses. The project site is designated Industrial within the Torrey Pines Community Plan (Attachment 2). The Industrial designation is intended for manufacturing, research and development, laboratories, offices, industrial services, incubator industry and business uses, and support commercial and retail uses. The IL Zones are intended to permit a range of uses, including nonindustrial uses in some instances. Specifically, the IL-3-1 Zone allows a mix of light industrial, office, and commercial uses. Properties to the north, east, and west are also zoned IL-3-1. Properties to the south are zoned IP-1-1 (Industrial Park), which allows research and development and limited manufacturing uses. All surrounding properties are designated Industrial by the Torrey Pines Community Plan and developed with mix of industrial, commercial, and office uses. The proposed MPF, classified as an industrial use, is consistent with the underlying zone and land use designation.

The project site contains Environmentally Sensitive Lands (ESL) in the form of Special Flood Hazard Area (100 Year Floodplain and 100 Year Floodway) and is located within the Coastal Overlay Zone. No addition or modification to the existing development, other than interior tenant improvements, is proposed. The project has been determined to be exempt from the permit requirements of the ESL regulations pursuant to [SDMC Sections 143.0110\(b\)\(4\) and \(c\)\(1\)](#). The proposed MPF use does not trigger additional parking and is therefore not considered an intensification of use. Therefore, a Coastal Development Permit is not required pursuant to [SDMC Section 126.0704\(a\)](#). Additionally, the proposed MPF is exempt from the Airport Land Use Compatibility Overlay Zone regulations pursuant to [SDMC Section 132.1505\(c\)\(1\) and \(2\)](#) as: 1) the project is limited to interior modifications and will not increase the density, floor area ratio or height of the existing structure, and 2) the proposed change in non-residential occupancy would not require an increase in the number of parking spaces pursuant to Chapter 14, Article 2, and Division 5.

MPFs are restricted to forty City-wide, within light and heavy industrial zones. As of the published date of this report, 30 CUP applications for MPFs have been approved. Nine additional CUP applications for MPFs have been approved by the Hearing Officer; however, the decisions of the Hearing Officer on these applications have been appealed to the Planning Commission. The appeals to Planning Commission are currently in process.

MPFs require compliance with [SDMC Section 141.1004](#), which require a 1,000-foot separation, measured between property lines, from resource and population-based City parks, churches, child care centers, playgrounds, City libraries, minor-oriented facilities, residential care facilities, and schools. MPFs also require a minimum distance of 100 feet from a residential zone. Security

requirements include interior and exterior lighting, security cameras, alarms and a security guard. The security guard must be licensed by the State of California and be present on the premises during business hours. MPFs must also comply with SDMC Chapter 4, Article 2, Division 15 which provides guidelines for lawful operation.

DISCUSSION

Project Description:

The project proposes to operate a MPF within an existing 40,271 square-foot, one story building located at 10110 Sorrento Valley Road. The project proposes tenant improvements to accommodate operations, including demolition and installation of wall partitions, lighting, security cameras and system, and finishes throughout and associated mechanical, electrical, and plumbing improvements. No exterior building alterations would occur. Operations include storage, packaging, labeling and distribution of cannabis products to State of California licensed outlets. Proposed exterior site improvements include the reconstruction of three existing driveways, adjacent to site on Sorrento Valley Road, with current City Standard 25-foot wide driveways, and restriping of certain parking stalls.

The proposed MPF is subject to specific operational and security requirements as set forth in SDMC Section 141.1004. Furthermore, the proposed improvements would require the Owner/Permittee to obtain a change of use/occupancy building permit consistent with all California Codes and Regulations in effect at the time of building permit, satisfactory to the Building Official (Attachment 5, Condition No. 12). The facility is also subject to State of California statutes and regulations.

Conclusion:

City staff has reviewed the proposed project and all issues identified through the review process have been resolved in conformance with adopted City Council policies and regulations of the Land Development Code. The project complies with all development regulations of the IL-3-1 Zone and no deviations are requested. City staff has provided draft findings (Attachment 4) to support the proposed development and draft conditions of approval (Attachment 5). Staff is recommending the Hearing Officer approve the Project as presented. However, in the event that the Hearing Officer has already approved one of the four CUP applications for a MPF scheduled for a Hearing Officer decision on April 3, 2019, City staff then recommends that the Hearing Officer deny this application as no more than 40 MPFs are allowed City-wide pursuant to SDMC Section 141.1004.

BE IT RESOLVED by the Hearing Officer of the City of San Diego that it adopts the following findings with respect to Conditional Use Permit No. 2196094:

A. CONDITIONAL USE PERMIT [SDMC Section 126.0305]

1. Findings for all Conditional Use Permits:

a. The proposed development will not adversely affect the applicable land use plan.

The proposed project is a request for a Conditional Use Permit to operate a Marijuana Production Facility (MPF) within an existing 40,271 square-foot, one story building located at 10110 Sorrento Valley Road. The 12.04-acre project site is in the IL-3-1 Zone within the Torrey Pines Community Plan area. The project site is also located in the Coastal Overlay Zone (Appealable and Non-Appealable), MCAS Miramar Airport Land Use Compatibility Overlay Zone (Airport Influence Area - Review Area 1, Accident Potential Zone 2, Noise 60-65 CNEL), Federal Aviation Administration (FAA) Part 77 Noticing Area, Parking Impact Overlay Zone (Campus and Coastal), Special Flood Hazard Area (100-year Floodplain and 100-year Floodway), Transit Priority Area, and designated as Prime Industrial Land in the Economic Prosperity Element of the General Plan.

The project site is designated Prime Industrial Land in the Prosperity Element, and Industrial Employment by the Land Use and Community Planning Element, of the General Plan. The General Plan identifies a citywide shortage of land suitable for manufacturing activities and a need to protect manufacturing land from non-manufacturing uses. The project site is designated Industrial per the Torrey Pines Community Plan. The Industrial designation is intended for manufacturing, research and development, laboratories, offices, industrial services, incubator industry and business uses, and support commercial and retail uses.

The proposed MPF, classified as an industrial use, is a compatible use for this location with a Conditional Use Permit and is consistent with the community plan, and therefore will not adversely affect the applicable land use plan.

b. The proposed development will not be detrimental to the public health, safety, and welfare.

The MPF is proposed within an existing 40,271 square-foot, one story building. The project proposes tenant improvements to accommodate operations, including demolition and installation of wall partitions, lighting, security cameras and system, and finishes throughout and associated mechanical, electrical, and plumbing improvements.

The proposed improvements would require the Owner/Permittee to obtain a change of use/occupancy building permit consistent with all California Codes and Regulations in effect at the time of building permit, satisfactory to the Building Official. Proposed exterior site improvements include the reconstruction of three existing driveways, adjacent to site on Sorrento Valley Road, with current City Standard 25-foot wide driveways, and restriping of certain parking stalls.

MPFs are restricted to forty City-wide, within light and heavy industrial zones. MPF's require compliance with San Diego Municipal Code (SDMC) section 141.1004, which require a 1,000-foot separation, measured between property lines, from resource and population-based City parks, churches, child care centers, playgrounds, City libraries, minor-oriented facilities, residential care facilities, and schools. MPFs also have a minimum distance requirement of 100 feet from a residential zone. The proposed MPF complies with the separation requirements as set forth in SDMC section 141.1004 (a).

The proposed MPF is subject to specific operational requirements as set forth in SDMC section 141.1004, including security requirements, such as lighting, security cameras, alarms and a security guard. The security guard must be licensed by the State of California and be present on the premises during business hours. MPFs must also comply with SDMC Chapter 4, Article 2, Division 15 which provides guidelines for lawful operation.

The proposed project will be required to comply with the development conditions as described in the Conditional Use Permit No. 2196094. The Conditional Use Permit No. 2196094 will be valid for five years and may be revoked if the Owner/Permittee violates the terms, conditions, lawful requirements, or provisions of the Permit.

The proposed development will not be detrimental to the public's health, safety and welfare in that the discretionary permit controlling the use of this site contains specific regulatory conditions of approval, as referenced in the Conditional Use Permit No. 2196094. The referenced regulations and conditions have been determined as necessary to avoid adverse impact upon the health, safety and general welfare of persons patronizing, residing or working within the surrounding area. Therefore, the proposed MPF will not be detrimental to the public health, safety and welfare.

c. The proposed development will comply with the regulations of the Land Development Code including any allowable deviations pursuant to the Land Development Code.

The proposed project is a request for a Conditional Use Permit to operate a MPF within an existing one-story, 40,271 square-foot building constructed in 1979. The 12.04-acre project site is in the IL-3-1 Zone within the Torrey Pines Community Plan area. The project proposes tenant improvements to accommodate operations, including demolition and installation of wall partitions, lighting, security cameras and system, and finishes throughout and associated mechanical, electrical, and plumbing improvements. Operations include storage, packaging, labeling and distribution of cannabis products to State of California licensed outlets. Proposed exterior site improvements include the

reconstruction of three existing driveways, adjacent to site on Sorrento Valley Road, with current City Standard 25-foot wide driveways, and restriping of certain parking stalls.

MPFs are allowed in the IL-3-1 Zone with a Conditional Use Permit. The proposed use requires compliance with SDMC section 141.1004 and Chapter 4, Article 2, Division 15. SDMC section 141.1004 requires a 1,000-foot separation, measured between property lines, from resource and population-based City parks, churches, child care centers, playgrounds, City libraries, minor-oriented facilities, residential care facilities, and schools. There is also a minimum distance requirement of 100 feet from a residential zone. Security requirements, expressed as conditions in the Permit, include interior and exterior lighting, security cameras, alarms and a security guard. The security guard must be licensed by the State of California and be present on the premises during business hours.

The proposed MPF is consistent with all land development regulations relevant for the site and the use and no deviations are requested or required. Therefore, the proposed MPF will comply with the regulations of the Land Development Code.

d. The proposed use is appropriate at the proposed location.

The MPF is proposed within an existing one-story, 40,271 square-foot building located at 10110 Sorrento Valley Road. The 12.04-acre project site is in the IL-3-1 Zone within the Torrey Pines Community Plan. The project site is designated Prime Industrial Land in the Prosperity Element, and Industrial Employment by the Land Use and Community Planning Element, of the General Plan. The General Plan identifies a citywide shortage of land suitable for manufacturing activities and a need to protect manufacturing land from non-manufacturing uses. The project site is designated Industrial per the Torrey Pines Community Plan. The Industrial designation is intended for manufacturing, research and development, laboratories, offices, industrial services, incubator industry and business uses, and support commercial and retail uses

The IL Zones are intended to permit a range of uses, including non-industrial uses in some instances. The purpose and intent of the IL-3-1 Zone is to accommodate a range of industrial and manufacturing activities in designated areas to promote balanced land use and provide flexibility in the design of new and redeveloped industrial projects, while assuring high quality development and protecting land for industrial uses and limiting nonindustrial uses. The development standards of this zone are intended to encourage sound industrial development by providing an attractive environment free from adverse impacts associated with some heavy industrial uses. Specifically, the IL-3-1 Zone allows a mix of light industrial, office, and commercial uses.

The proposed MPF, classified as an industrial use, is a compatible use for this location with a Conditional Use Permit and is consistent with all land development regulations relevant for the site and the use and no deviations are requested or required. The proposed project is consistent with the Industrial designation of the Torrey Pines Community Plan. Therefore, the proposed MPF is an appropriate use at the proposed location.

The above findings are supported by the minutes, maps and exhibits, all of which are incorporated herein by this reference.

BE IT FURTHER RESOLVED that, based on the findings hereinbefore adopted by the Hearing Officer, Conditional Use Permit No. 2196094 is hereby GRANTED by the Hearing Officer to the referenced Owner/Permittee, in the form, exhibits, terms and conditions as set forth in Permit No. 2196094, a copy of which is attached hereto and made a part hereof.
