TRENCH NOTES

1. Any work being performed within a trench shall be performed after the installation of the city's or an agency's electrical service and all applicable utilities.
2. Prior to excavation on the right-of-way, the contractor shall obtain a written agreement from the city of any right-of-way agreement to be maintained.
3. The contractor shall maintain a minimum of 1 foot (0.3 m) of clean fill between the trench and the existing utilities.
4. The contractor shall provide a work area of at least 2 feet (0.6 m) wide and 4 feet (1.2 m) deep to facilitate utility maintenance.
5. The contractor shall be responsible for all excavation work performed within the city's right-of-way.

TRUCK HAUL NOTES

1. All material and equipment shall be hauled on public streets within the city's limits and shall be loaded and unloaded at a site designated by the city.
2. The contractor shall provide all necessary equipment and manpower to facilitate trucking operations within the city's limits.
3. The contractor shall be responsible for all trucking operations performed within the city's right-of-way.

TRAFFIC CONTROL NOTES

1. The contractor shall provide a traffic control plan for all work being performed within the city's right-of-way.
2. The contractor shall maintain a minimum of 1 foot (0.3 m) of clean fill between the trench and the existing utilities.
3. The contractor shall provide a work area of at least 2 feet (0.6 m) wide and 4 feet (1.2 m) deep to facilitate utility maintenance.
4. The contractor shall be responsible for all excavation work performed within the city's right-of-way.

TRAFFIC CONTROL NOTES (LESS THAN 5000 ADT)

1. The contractor shall provide a traffic control plan for all work being performed within the city's right-of-way.
2. The contractor shall maintain a minimum of 1 foot (0.3 m) of clean fill between the trench and the existing utilities.
3. The contractor shall provide a work area of at least 2 feet (0.6 m) wide and 4 feet (1.2 m) deep to facilitate utility maintenance.
4. The contractor shall be responsible for all excavation work performed within the city's right-of-way.

TRAFFIC CONTROL NOTES (5000 ADT OR MORE)

1. The contractor shall provide a traffic control plan for all work being performed within the city's right-of-way.
2. The contractor shall maintain a minimum of 1 foot (0.3 m) of clean fill between the trench and the existing utilities.
3. The contractor shall provide a work area of at least 2 feet (0.6 m) wide and 4 feet (1.2 m) deep to facilitate utility maintenance.
4. The contractor shall be responsible for all excavation work performed within the city's right-of-way.

STREET LIGHT NOTES

1. All street light fixtures shall be installed on the right-of-way.
2. The contractor shall provide all necessary equipment and manpower to facilitate street light operations.
3. The contractor shall be responsible for all street light operations performed within the city's right-of-way.
