

THE CITY OF SAN DIEGO

Report to the Historical Resources Board

DATE ISSUED: April 11, 2019 REPORT NO. HRB-19-016
HEARING DATE: April 25, 2019
SUBJECT: **ITEM #5 – Mut kula xuy/ Mut lah hoy ya Site #10**
RESOURCE INFO: [California Historical Resources Inventory Database \(CHRID\) link](#)
APPLICANT: Tulip 1031, LLC; represented by Brian F. Smith and Associates
LOCATION: Address Restricted, La Jolla Community, Council District 1
DESCRIPTION: Consider the designation of the site above as a historical resource.

STAFF RECOMMENDATION

Designate the Mut kula xuy/ Mut lah hoy ya Site #10 as a historical resource under HRB Criterion A. The designation applies to the site only and excludes the residence and all other above-ground structures currently located on the premises. This recommendation is based on the following finding:

The resource is a special element of the City's archeological and cultural development. Specifically, the resource is associated with the Mut kula xuy/ Mut lah hoy ya site known to be of cultural significance to the Kumeyaay tribes of San Diego.

BACKGROUND

This item is being brought before the Historical Resources Board in conjunction with a proposed building modification or demolition of a structure of 45 years or more, consistent with San Diego Municipal Code Section 143.0212. The site is located in an area with known archaeological and cultural significance, within the urbanized community of La Jolla. The existing on-site residence was constructed in 1951 and was previously reviewed by Historical Resources staff through a Single Discipline Preliminary Review under PTS #570128. During that review, it was determined that the above-ground structure was not eligible for historic designation under any adopted HRB Criteria.

The historic name of the resource, the Mut kula xuy/Mut lah hoy ya Site #10, has been identified consistent with the Board's adopted naming policy and reflects the Kumeyaay name for the area.

ANALYSIS

A cultural resources study was prepared by Brian F. Smith & Associates, which concludes that the property lies within an area of La Jolla with known significant cultural sensitivity associated with the Mut kula xuy/Mut lah hoy ya site and that the resource is significant under HRB Criterion A. Staff concurs that the property is a significant historical resource under HRB Criterion A. This determination is consistent with the *Guidelines for the Application of Historical Resources Board Designation Criteria*, as follows.

CRITERION A - Exemplifies or reflects special elements of the City's, a community's or a neighborhood's historical, archaeological, cultural, social, economic, political, aesthetic, engineering, landscaping or architectural development.

The subject property is located within the mapped boundaries of a regionally significant archaeological site known as the Spindrift Site, (CA-SDI-39/17,372, SDMM-W-1). This site encompasses a large habitation area known to its Kumeyaay inhabitants as *Mut kula xuy/Mut lah hoy ya* (place of many caves). The area is composed of several large midden areas, temporary camps, pottery and lithic scatters, various shell scatters, and burials found throughout multiple, consecutive layers representative of different cultural phases found in the San Diego region. The 20-acre knoll, historically known as the Richards Tract and the La Jolla Vista Tract, was originally investigated and recorded by Malcolm Rogers during the late 1920s, and by James Moriarty in the 1960s, and has been associated with occupations by groups from the La Jolla Complex and the Late Prehistoric Kumeyaay.

The HRB's first designation of a portion of the Mut kula xuy/Mut lah hoy ya site was in 1999 (HRB #390). Other portions of the site (HRB #638, #813, #818, #885, #891, #976, #1175, and #1315) were designated between 2003 and 2018. Previously, the HRB considered whether to develop a policy of pre-designating the entire Spindrift site so that property owners would be informed before they embark on projects with the potential to adversely impact the significant site. Administrative issues associated with this approach resulted in a continuation of parcels being considered on a case-by-case basis as projects are processed through the Development Services Department.

The archaeological assessment program for the project site included a field investigation and subsurface excavations to evaluate resource significance. The initial subsurface excavations included 8 shovel tests (STPs) to explore the potential for subsurface cultural deposits. The investigations were conducted using standard archaeological protocol and were carried out between May of 2018 and August of 2018. Given the sensitive nature of the site, a Native American monitor from Red Tail Monitoring & Research, Inc. was present for all archaeological investigations.

The property was closely inspected for artifacts during the cultural resources survey. Cultural materials, including marine shell, identified on the surface indicate the presence of elements of the prehistoric village complex referred to as the Spindrift Archaeological District. The limited subsurface investigation of the property involved the excavation of eight STPs, which defined the limits of the subsurface cultural deposits of the property. Some locations within the property had no evidence of cultural deposits, due to the initial grading of the neighborhood. Excavations indicated that intact cultural deposits are located only on the west side of the property, while only trace evidence of the archaeological site were noted on the southern and northern portions of the property.

The recovery from subsurface excavations confirmed the presence of elements of SDI-39 within the APE, primarily concentrated between 10 and 90 centimeters deep on the west side of the lot, and included debitage, marine shell, and faunal bone. No human remains were identified during the investigations. The surface survey and subsurface investigation identified elements of SDI-39 within the boundaries of the subject property. Both disturbed and intact cultural deposits were discovered, both of which are common patterns within the Spindrift neighborhood due to the grading of lots between 1930 and 1950.

Significance Statement: In summary, the project area overlies a portion of a regionally significant prehistoric archaeological site, SDI-39. This previously recorded site has documented research potential, human remains, and has been determined to be significant by the City. The recent archaeological program conducted at the project site, indicates the cultural deposit contains both disturbed levels associated with previous grading of the lot and intact deposits that have been capped by the disturbed levels and the existing residence. Due to the significant nature of Site SDI-39, cultural deposits throughout this La Jolla neighborhood, coupled with the discovery of a range of habitation debris within the property, staff recommends designation as a Historical Resource under HRB Criterion A.

OTHER CONSIDERATIONS

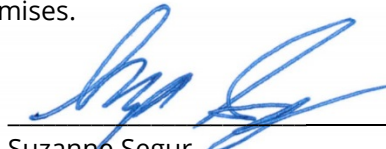

Designation brings with it the responsibility of maintaining the site in accordance with the Secretary of the Interior's Standards. The benefits of designation include flexibility in the application of other regulatory requirements; the use of the Historical Conditional Use Permit which allows flexibility of use; and other programs which vary depending on the specific site conditions and owner objectives. Because the historical resource does not include any above-ground buildings or structures, this property, should it be designated, would not at this time qualify for the Mills Act Program.

CONCLUSION

Based on the information submitted and staff's field check, it is recommended that the Mut kula xuy/ Mut lah hoy ya Site #10 be designated as a historical resource under HRB Criterion A. The designation applies to the site only and excludes the 1951 single story residence and all other above-ground structures currently located on the premises.

RESOLUTION NUMBER
ADOPTED ON 4/25/2019

WHEREAS, the Historical Resources Board of the City of San Diego held a noticed public hearing on 10/25/2018, to consider the historical designation of the **Mut kula xuy/ Mut lah hoy ya Site #10** (owned by Tulip 1031 LLC, *Not permitted to list*) located at **Not permitted to list**, APN: **000-000-00-00**, further described as Block XX Lot XX in the City of San Diego, County of San Diego, State of California; and

WHEREAS, in arriving at their decision, the Historical Resources Board considered the historical resources report prepared by the applicant, the staff report and recommendation, all other materials submitted prior to and at the public hearing, inspected the subject property and heard public testimony presented at the hearing; and

WHEREAS, the property would be added to the Register of Designated Historical Resources as **Site No. 0**, and

WHEREAS, designated historical resources located within the City of San Diego are regulated by the Municipal Code (Chapter 14, Article 3, Division 2) as such any exterior modifications (or interior if any interior is designated) to the designated historical resource and its parcel are subject to approval by the City, this includes but is not limited to modifications to any windows or doors, removal or replacement of any exterior surfaces (i.e. paint, stucco, wood siding, brick), any alterations to the roof or roofing material, alterations to any exterior ornamentation and any additions or significant changes to the landscape/ site, including digging, grading or trenching.

NOW, THEREFORE,

BE IT RESOLVED, the Historical Resources Board based its designation of the Mut kula xuy/ Mut lah hoy ya Site #10 on the following findings:

(1) The property is historically significant under CRITERION A as a special element of the City's archaeological and cultural development associated with the Mut kula xuy/Mut lah hoy ya site known to be of cultural significance to the Kumeyaay tribes of San Diego. This finding is further supported by the staff report, the historical research report, and written and oral evidence presented at the designation hearing.

BE IT FURTHER RESOLVED, in light of the foregoing, the Historical Resources Board of the City of San Diego hereby approves the historical designation of the above named property. The designation includes the parcel as Designated Historical Resource **Site No. .**

BE IT FURTHER RESOLVED, the designation shall exclude the single story 1951 residence and all other above-ground structures.

BE IT FURTHER RESOLVED, the Secretary to the Historical Resources Board shall cause this resolution to be recorded in the office of the San Diego County Recorder at no fee, for the benefit of the City of San Diego, and with no documentary tax due.
