Dumpster Placement Criteria

- A dumpster permit must first be obtained before placing a dumpster in the right-of-way. The permit fee is $104.01.

- A dumpster may not be placed in front of painted curb such as no parking zone (red curb) passenger loading zone (white curb), or disabled person parking zones (blue curb).

- A minimum of 10’ (feet) clearance from dumpster door to nearest obstruction. A minimum of 25’ (feet) clearance from dumpster door to alley or curb return. A minimum of 15’ from dumpster door to fire hydrant.

- A dumpster shall be placed entirely in front of the requesting business or residence and shall not be placed in front of the adjacent business or residence.

- “No Parking” signs shall be posted 72 hours in advance of dumpster placement.

- If a dumpster is being used within parking meters’ area, a fee of $6.00 per day per meter is required for parking meters’ bags/signs.

- Vehicles shall not park in the surplus area of a dumpster zone. Violators subject to parking citations.

- A “type 1” barricade with a flashing light is required to be placed at each end of the dumpster. See typical dumpster layout for reference.

- The minimum street width is required to place a dumpster in the street is:
  - i. 36’ (feet) if parking is allowed on both sides.
  - ii. 32’ (feet) if parking is allowed only on one side.
