Subject: Topics for FY 24 Audit Work Plan

To: San Diego Residents and Taxpayers

From: Andy Hanau, City Auditor

---

The Office of the City Auditor performs independent and objective performance audits that seek to improve the efficiency, effectiveness, and equity of City government. Each year, we perform a comprehensive risk assessment to identify City programs and functions that would most benefit from a performance audit. We are currently conducting our risk assessment for Fiscal Year 2024, and **we want to hear from you about which City programs and functions would benefit from an independent audit.** Your ideas will help us ensure that we are focusing our audit resources on the most important topics to our residents and taxpayers.

To submit an idea for an audit, please [visit our website](#) and use the 'Suggest Ideas for an Audit' tool, or email us directly at [cityauditor@sandiego.gov](mailto:cityauditor@sandiego.gov). Please submit your ideas by **June 2<sup>nd</sup>, 2023** so they can be considered in our risk assessment for FY 24.

For examples of the types of audits we perform and the positive benefits they have for our residents and taxpayers, please see our latest [Accomplishments Report](#). For more information on our risk assessment process and how we select audit topics, please see our [FY 23 Citywide Risk Assessment and Audit Work Plan](#).

Thank you for your interest in our work and your commitment to the San Diego community.

Sincerely,

Andy Hanau  
City Auditor
