You're paying enough for healthcare.
Don't pay taxes on it, too.

The medical, dental and vision care expenses that aren't covered by insurance—what you pay out of your own pocket—don't have to take such a big bite out of your budget. Use a *WageWorks*® **Flexible Spending Account (FSA) with Grace Period** to cover these expenses and save using pre-tax dollars.

How does it feel to save hundreds of dollars every year?

It's up to you. Simply decide how much to contribute to your Healthcare FSA and funds are withdrawn from your paycheck *before taxes*. So you're not paying taxes on your full income. And that feels pretty good.

If you've ever used an app, you can do this.

Checking your balances, changing your contribution and otherwise managing your account is as simple as your smartphone. Just download the *EZ Receipts*® mobile app by WageWorks to access your account from anywhere.

If you want to save, here's how you start.

- Estimate your annual healthcare expenses and make your contributions accordingly
- Utilize a grace period through September 15th after your plan year ends to spend down money left in your account
