Introduction

Purpose

The Mira Mesa Public Facilities Financing Plan (Financing Plan) implements the City of San Diego General Plan and the Mira Mesa Community Plan by identifying the public facilities that will be needed to serve the community at full community development. The Financing Plan also includes projects that are otherwise required to serve the needs of development in the community.

The Financing Plan is prepared to ensure that all owners of undeveloped or underdeveloped property will pay their fair share of the funding required to finance the community's remaining public facilities that are needed to serve the community.

Authority

This Fiscal Year 2016 update to the Mira Mesa Public Facilities Financing Plan updates and sets the Development Impact Fees for Mira Mesa pursuant to Municipal Code Section 142.0640 and California Government Code 66000 et seq. (Mitigation Fee Act).

On April 6, 2016, Chapter 6, Article 1 of the San Diego Municipal Code was amended by repealing Division 22 related to Facilities Benefit Assessments and Development Impact Fees. This amendment eliminates the legal distinction between Facilities Benefit Assessments (FBA) and Development Impact Fees (DIF) by eliminating the noticing and recording requirements specific to FBA. Municipal Code Section 142.0640 was also amended on April 6, 2016 to identify all fees collected in Facilities Benefit Assessment communities and Development Impact Fee communities as Development Impact Fees. However, as portions of Mira Mesa are in the Coastal Overlay Zone, and subject to California Coastal Commission jurisdiction, these changes will not take effect in Mira Mesa until the Coastal Commission certifies these provisions as a local coastal program amendment. For this reason, this financing plan update will follow the former Municipal Code procedures and its resolutions will still use the terms Facilities Benefit Assessments and FBA in order to meet code requirements in place until the Coastal Commission certification occurs.

Update to Financing Plan

On September 25, 2013, by Resolution R-308424, the City Council adopted the Fiscal Year 2014 Mira Mesa Public Facilities Financing Plan. This report is an update of the Financing Plan for Mira Mesa. Future updates are anticipated to occur periodically.

Scope of Report

This Financing Plan update identifies the major public facilities that will be needed to serve the community over the next 25 years, during which full development of the community is anticipated, and sets the Development Impact Fees for Mira Mesa pursuant to Municipal Code Section 142.0640 and California Government Code 66000 et seq. (Mitigation Fee Act).

Development Impact Fees

Fee Procedure

The Mira Mesa Development Impact Fees (DIF) provide funding for public facilities projects needed to serve anticipated development in the community. The dollar amount of the DIF is based upon the collective cost of each public facility needed to serve development in the community, and is equitably distributed over the remaining undeveloped property in the Mira Mesa community.

A Property Owner's List is prepared for Mira Mesa where each remaining, unimproved parcel, and approved map unit in the community is apportioned its share of the total cost of remaining public facilities needed to serve new development based on the size and anticipated use of the property. Refer to the Property Owner's List on Appendix page A-5 for more information.

At the time of construction or building permit issuance, the owner of the parcel being developed must pay a development impact fee based on the fee schedule that is in effect at the time the permit is obtained, as determined by the type and size of the development. Owners/developers are not permitted to pay fees in advance of development. The DIF is paid directly to the Development Services Department at the time of construction or building permit issuance.

Development Impact Fees are collected, placed into a separate interest bearing fund, and used within the community solely for those capital improvements and administrative costs identified in the Mira Mesa Public Facilities Financing Plan.

Timing and Cost of Facilities

The public facilities projects anticipated to be financed by the Mira Mesa DIF funds are shown in Table 8, beginning on page 21. Included in the table are:

- Project title
- Fiscal year in which construction of the project is expected
- Estimated project costs
- Funding sources

Project categories include transportation improvements, neighborhood parks and recreation, fire, and libraries. Descriptions of the anticipated projects, which are listed in Table 8, can be found on the project sheets beginning on page 31. The DIF also cover the administrative costs associated with the development, implementation, and operation of the Development Impact Fee Program.

Expenditures

The following are three types of expenditures for which Development Impact Fees may be used:

- 1) **Direct payments** for facility costs, including administration of the Development Impact Fee Program;
- 2) **Cash reimbursement** to developers for providing facilities exceeding the cost of their Development Impact Fee obligation pursuant to an approved reimbursement agreement.
- 3) **Credits** to developers for the cost of constructing facilities pursuant to an approved reimbursement agreement.

Therefore, whether a developer or the City provides a facility, direct payments, credits, and cash reimbursements are all treated as expenses to the Development Impact Fee fund.

Land Use Categories

There are seven land use categories in Mira Mesa; Single Family, Multi-Family, Commercial, I-2 Industrial, I-4 Industrial, I-5 Industrial, and I-6 Industrial. The anticipated remaining residential development for Mira Mesa is estimated at 2,452 dwelling units. The anticipated remaining non-residential development for Mira Mesa is estimated to be 375.31 acres. For more detail on the year-by-year development estimates, see Table 7 on page 14.

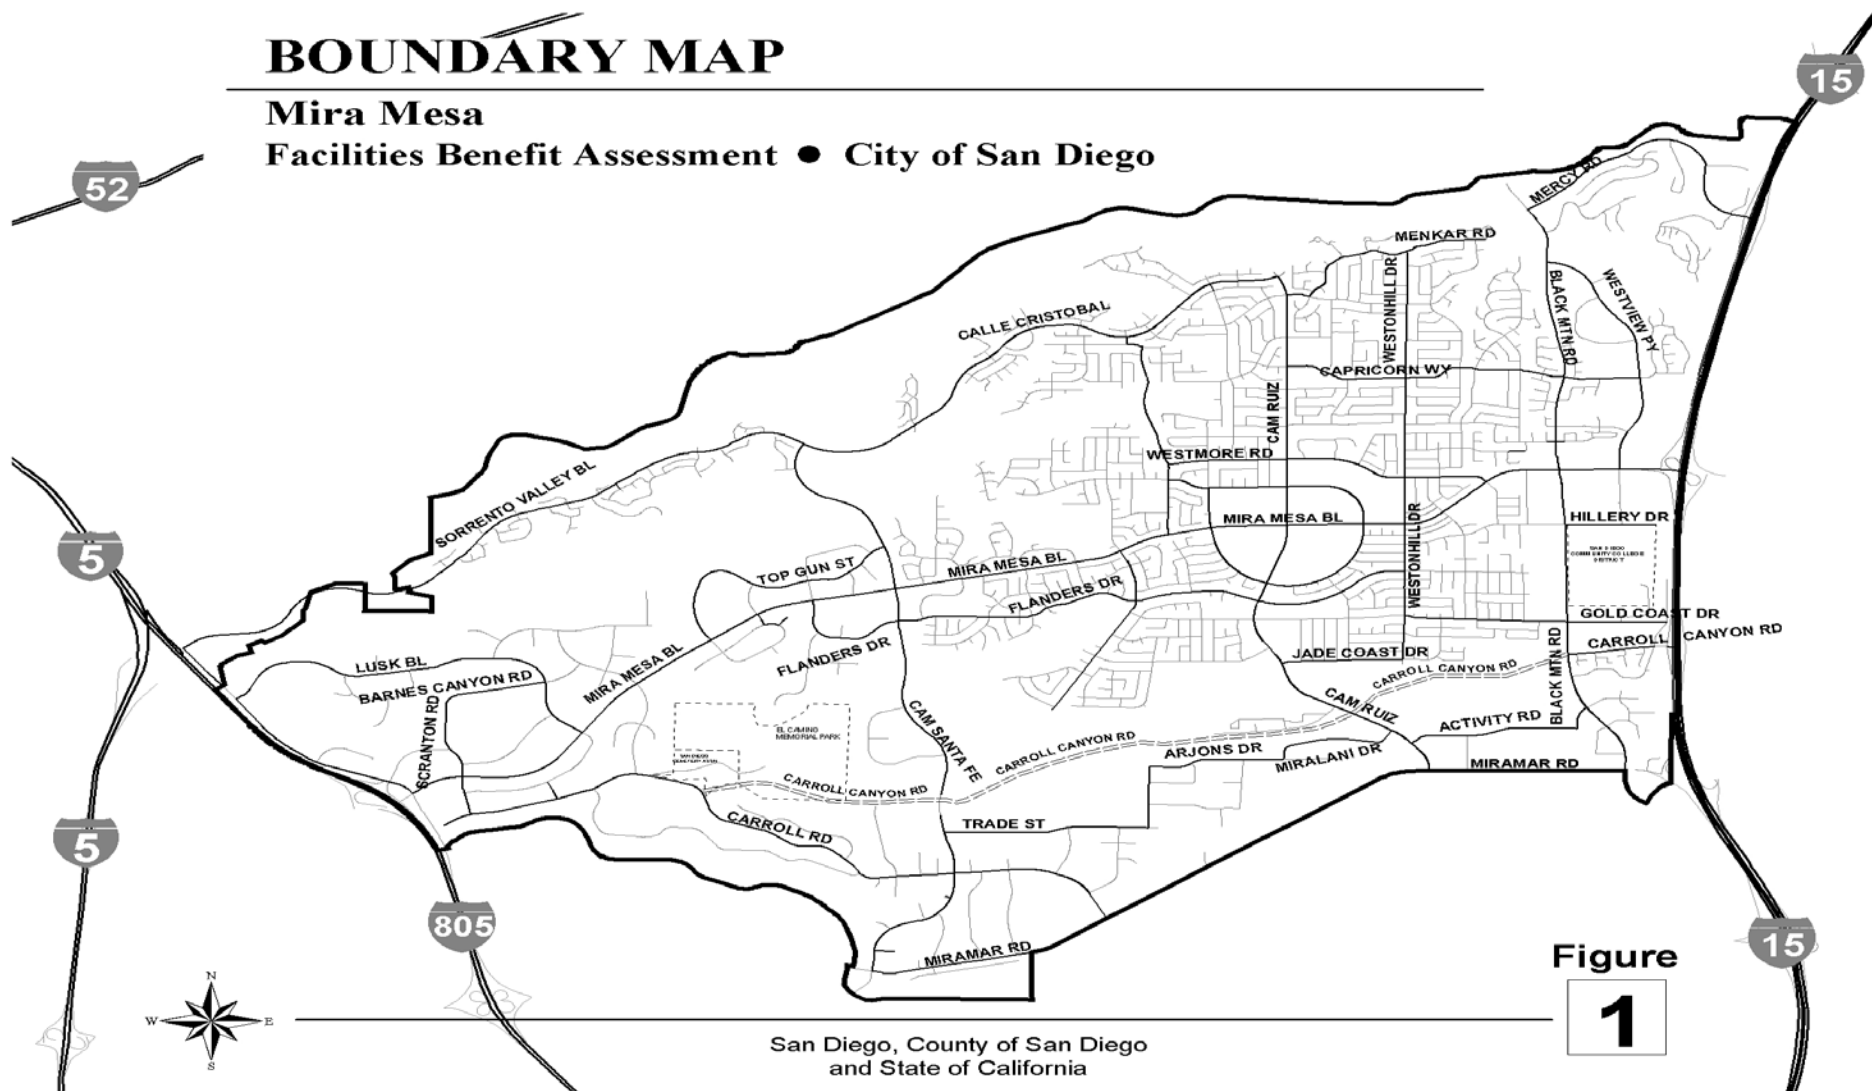

Development Impact Fees are paid on a per unit basis for residential development, and on a per acre basis for non-residential development. In the event that a landowner desires to proceed with development of a portion of a property based on a phased development program, the landowner may obtain construction or building permits for the development of a partial phase after paying the applicable portion of the DIF.

Development Impact Fee Methodology

EDU Ratios

An Equivalent Dwelling Unit (EDU) ratio has been established for the purpose of appropriately allocating the cost of public facilities between the different land use classifications. EDU ratios have been calculated for each category of facility to be funded by Development Impact Fees because the relationship between land use and the degree of benefit from different public facilities can vary substantially depending on land use. The single-family dwelling unit (SFDU) is the foundation for all other EDU ratios. Other land use classifications are assigned an EDU ratio per dwelling unit or acre, proportionate to the respective impacts. Table 2 provides the EDU ratios used to prepare the Mira Mesa Development Impact Fee.

Table 2 EDU Ratios

Determination of Development Impact Fees

Development Impact Fees are calculated and levied against each undeveloped or underdeveloped parcel based upon the type and size of development which is expected to occur. The Development Impact Fees for Mira Mesa were determined by using the following information and assumptions:

- Anticipated development scheduled through community buildout.
- EDU ratios for each land use designation
- Schedule of facility expenditures (in FY 2016 dollars) to be financed with monies from the DIF fund
- Assumed annual interest rate of 2% for Fiscal Years 2016 through build out (applied to the cash balance)
- Annual inflation rate of 3% for Fiscal Years 2017 through build out (to determine the future costs of facilities that will be constructed in years beyond FY 2016)
- At the beginning of each fiscal year (July 1), the Development Impact Fee schedule is automatically increased by the inflation factor.

Periodic Review

The Mitigation Fee Act provides for a periodic review of fees. The review may include, but not be limited to, the following:

- Rate and amount of anticipated development
- Actual or estimated cost of public facilities projects
- Needed public facilities projects
- Inflation rates
- Interest rates
- Comparative analysis of City approved discretionary permits.

Development Impact Fee Schedule

The Mira Mesa Development Impact Fee Schedule in Table 3 on page 9, shows the DIF for each category of land use during each year of community development. The FY 2016 Financing Plan update proposes an 11% increase in the current fee structure due to increased cost estimates for the public facility projects remaining in the Financing Plan. An inflation factor of 3% per year will be applied to the impact fee starting in FY 2017. The inflation factor is used to provide automatic annual increases in the DIF and takes effect at the beginning of each fiscal year (July 1). The automatic increase provision is effective only until such time as the next adjustment is authorized by the City Council. Thereafter, the subsequent Council-approved annual adjustment will apply.

Fee Deferral Program

On October 21, 2014, the San Diego City Council approved Ordinance O-20419, which allows for the deferral of the payment of Development Impact Fees for up to two years after construction permits are issued for a project. To defer the payment of DIF, the applicant must enter into a Fee Deferral Agreement with the City, which is subsequently recorded against the property. The applicant must pay an administrative fee to process a Fee Deferral Agreement. The DIF can be deferred for a maximum of two years, or until request for final inspection, whichever occurs first. The final inspection may not be scheduled until the applicable DIF are paid.

Development Impact Fees, including all applicable annual inflationary rate increases due shall be as set forth in the fee schedule in effect when the Fee Deferral Agreement is executed by the City, or the fees approved by the City Council for a subsequent update of the Financing Plan, whichever fee is lower.

Cash Flow Analysis

The Mira Mesa Cash Flow, Table 6, page 11, presents an analysis of the Mira Mesa Development Impact Fees. For each fiscal year during the development of the community, the cash flow shows the difference between anticipated DIF revenues (including earned interest) and the expected capital improvement expenditures. Interest earnings for cash on hand are compounded and based on an estimated 2% annual return for FY 2016 through full community development.

The results verify that under the assumed conditions for inflation factors, interest rates, land use development rates and facility costs, sufficient funds are expected for all listed facility requirements without incurring a negative cash flow at any time throughout the build out of the community.

Periodic updates of the cash flow analyses, using actual event status (project status, revenues collected, actual construction costs incurred, etc.), are anticipated throughout community development. In this way, potential negative cash flow conditions can be anticipated, and expenditure adjustments can be scheduled to fit funding expectations. Facility needs are related to the

community growth rate. Scheduling of facility development is contingent on actual development in the community. Therefore, any slowdown in development will result in shifting of the projected schedule for providing needed facilities. When changes in the development rate occur, facility schedules will be modified accordingly and a new cash flow analysis will be prepared.

The City of San Diego considers historic data while predicting the effect of inflation on construction projects. The Los Angeles/San Diego **Construction Cost Index (CCI)** and the **Consumer Price Index (CPI)** for San Diego are the two indices used by the City while conducting a cash flow analysis. The historical information associated with the Los Angeles/San Diego Construction Cost Index and the Consumer Price Index for San Diego is shown in Tables 4 and 5 below. The indices are referenced as a demonstration of historical construction cost changes over time and an indicator of potential future cost changes which are factored into the costs of future facilities.

Property Owner's List

For each undeveloped map portion or parcel in the community, the Property Owner's List includes:

- Parcel number
- Name of the owner (according to the County Assessor's records)
- Number of dwelling units or non-residential acres to be developed (according to the highest and "best use" scenario)

Identification numbers on the Property Owner's List may be non-sequential as a result of some parcels having been omitted after the Development Impact Fee is paid, as ownership changes, or as parcels subdivide. Ownership information is shown according to the County Assessor's records at the time the list is prepared. The current Property Owner's List is shown on Appendix page A-5 of this Financing Plan.

Development Forecast and Analysis

The development schedule for Mira Mesa is based upon a review of the Community Plan, existing tentative and final maps, and the best estimates of the property owners, developers, and City staff. Certain economic factors could adversely affect these development projections. Higher interest rates, higher land and housing prices, an economic recession, and issues involving transportation thresholds could slow or halt the development rate of Mira Mesa. Conversely, a period of robust business expansion could significantly increase the rate of development. Indications are that the remaining development of Mira Mesa will take place over a 25-year period.

The projected schedule of development for Mira Mesa is presented in Table 7, on page 14. In this table, the number of units developed within a year refers to those applications having building permits issued (paid) during the July-to-June fiscal year. Therefore, the number of units developed in 2015 refers to those for which permits were issued, with fees paid, between July 1, 2014 and June 30, 2015.

Residential

The anticipated remaining residential development for Mira Mesa is estimated at 2,452 dwelling units, with total residential development estimated at 8,704 dwelling units at buildout.

Non-residential

The anticipated remaining non-residential development for Mira Mesa is estimated to be 375.31 acres of non-residential use, with total non-residential development estimated at 1,149.32 acres at buildout.

Capital Improvement Program

Future Public Facility Needs

In order to better serve the Mira Mesa community, public facilities are needed in a number of project categories. Those categories include:

- Transportation
- Parks and Recreation
- Fire
- Library

Project locations are depicted in Figures 2 and 3 on pages 29 and 30, and summarized in Table 8 on page 21. The anticipated project descriptions can be found in the Capital Improvement Program (CIP) sheets beginning on page 31.

Since needed facilities are directly related to the community growth rate, construction schedules of facilities are contingent upon the actual development within the community. Therefore, any slowdown in the rate of community development may affect the schedule for providing needed public facilities. In addition, the City may amend this Financing Plan to add, delete,

substitute, or modify a particular project to take into consideration unforeseen circumstances.

Project Costs

This update includes an analysis by each of the asset-owning City departments, of the project costs for each public facility project. The costs estimates shown in this update have been revised and consider the following:

- LEED “Silver Level” standards
- Impact of inflation
- Competitive bids on similar projects
- Modifications, if any, to the overall scope of the project.

Changes to Capital Improvement Project List

One new project has been added to this Financing Plan update.

F-78 Future Fire Station - \$2,784,921

Financing Strategy

The City of San Diego General Plan Policy PF-A-3 (Public Facilities, Services & Safety Element) calls for the City to maintain an effective Facilities Financing program to ensure that impacts of new development are mitigated through appropriate fees identified in the Public Facilities Financing Plans; to ensure new development pays its proportional fair share of public facilities costs; to ensure Development Impact Fees are updated frequently and evaluated periodically to ensure Financing Plans are representative of current project costs and facility needs; and to include in the Financing Plans a variety of facilities to effectively and efficiently meet the needs of diverse communities. Development impacts include impacts to public facilities and services including the water supply and distribution system, sanitary sewer system, drainage facilities, fire protection, streets, parks, and open space. Developers may provide a majority of the needed public facilities as a part of the subdivision/development process. Public facility projects that benefit a population larger than the local/adjacent development may be financed by using the following methods:

Development Impact Fees

Development Impact Fees are a method whereby the impact of new development upon the infrastructure needs of the community is determined, and a fee is developed and imposed on development to mitigate the impact of new development while following the procedures specified in San Diego Municipal Code Chapter 14, Article 2, Division 6 and the Mitigation Fee Act. Impact fees cannot be used for existing facility deficiencies resulting from previous development. Development Impact Fees are collected at the time of construction permit issuance. Funds collected are deposited in a special interest bearing fund and can only be used for identified facilities serving the community in which they were collected.

Assessment Districts

Special assessment district financing, such as the Municipal Improvement Acts of 1913/1915, may be used as a supplementary or alternative method of financing facilities such as streets, sidewalks, sewers, water lines, storm drains, and lighting facilities. Assessment districts may be beneficial in that they provide all of the funding needed for a particular public facility project in advance of the projected development activity. However, assessment districts also create a long-term encumbrance of the benefiting property and require that the funds be repaid over an extended period of time.

Community Facilities Districts (CFD)

State legislation, such as the Mello-Roos Act of 1982, has been enacted to provide a method of financing public facilities in new and developing areas. A Mello-Roos is also known as Community Facilities District (CFD). The formation of such Community Facilities Districts may be initiated by owner/developer petition. Mello-Roos districts also require approval by a two-thirds majority of the property owners in order to establish the district.

Further guidance on both Assessment Districts and Community Facilities Districts within the City can be found in the City of San Diego Debt Policy – Appendix A – Special District Formation and Financing Policy.

Developer Construction

New development either constructs required facilities as a condition of subdivision or development approval or provides funds for its fair share of the costs of such facilities, with construction being performed by the City. Typically, these funds are collected Development Impact Fees (DIF). As an alternative to the payment of DIF, it may be feasible for developers to construct one or more of the needed public facilities in a turnkey basis. Under this arrangement, developers typically are compensated, either by cash or credit against fees otherwise due, for the work performed pursuant to the terms of a Council approved reimbursement agreement (Council Policy 800-12).

Reimbursement Financing for Water and Sewer Facilities

This method of financing is outlined in Council Policy 400-07. It is commonly used when the first developer/sub-divider in an area is required to construct the necessary water and sewer facilities for an entire developing area. These agreements are approved by the City Council. Reimbursement to the first developer/sub-divider can occur over a period of time as long as 20 years or until all of the subsequently developed lands have participated in the reimbursement, whichever occurs first.

State/Federal Funding

Certain public facilities may be determined to benefit a regional area that is larger than the community planning area. Such projects may be appropriately funded by either the state, federal government, or by a combination of the two.

Regional Transportation Congestion Improvement Program Fees (RTCIP)

Where appropriate, Facilities Financing assesses the Regional Transportation Congestion Improvement Program Fees (RTCIP) as originally authorized by the City Council by Resolution R-303554, adopted on April 14, 2008. This fee is applicable to new residential development. On-site Affordable (low income) units may be exempt from the RTCIP fee. These fees were established to ensure that new development directly invests in the region's transportation system to offset the negative impact of growth on congestion and mobility. This fee will be in addition to Development Impact Fees.

Cost Reimbursement District (CRD)

Occasionally, a developer/sub-divider is required to construct public improvements that are more than that which is required to support its individual property/development. A Cost Reimbursement District (CRD) provides a mechanism by which the developer/sub-divider may be reimbursed by benefiting development which proceeds within 20 years of formation of the CRD. Reimbursement is secured by a lien on the benefiting properties with the lien due and payable only upon recordation of a final map or issuance of a building permit, whichever occurs first.

Development Agreement

This method permits a developer to enter into an agreement with the City of San Diego where certain rights of development are extended to the developer in exchange for certain extraordinary benefits given to the City.

General Assumptions and Conditions

In connection with the application of the above methods of financing, the following general assumptions and conditions will be applied:

1. Except for those projects that are identified as Development Impact Fee funded, developers will be required to provide facilities that are normally provided within the subdivision process as a condition of tentative subdivision map approval. These projects include but are not limited to traffic signals, local roads, and the dedication or preservation of open space located within the proposed development(s). A Mello-Roos 1913/1915 Act, or other type of reimbursement district, however, may fund such projects if the project(s) and applicant(s) qualify for this type of project financing.
2. Commercial and industrial land will be charged a Development Impact Fee for infrastructure including transportation, fire, and utility facilities. However, developers of non-residential land will not be charged for park and recreation or library facilities since those facilities primarily serve the residential component of the Mira Mesa community. In the future, if a basis is developed for charging non-residential development for the cost of park and recreation and library facilities, appropriate fair share may be evaluated at that time.
3. Periodic reviews may be performed to evaluate performance of the program and to consider the continuing commitments related to the completion of needed facilities. Project costs and charges would be evaluated for all portions of the program.
4. The owner, developer, or permittee, shall pay the applicable Development Impact Fee as a condition of obtaining a construction or building permit in accordance with the San Diego Municipal Code.
5. A developer, or group of developers, may propose to build or improve a Development Impact Fee (DIF) funded facility that is identified in the Capital Improvements Program. Upon City Council approval, the developer(s) may enter into an agreement to provide the facility in lieu of, or as credit against the payment of DIF, provided that adequate funds are available in the DIF fund. The amount and timing of the credit being sought by the developer(s) must coincide with the expenditure of funds depicted on the CIP sheet for the respective project. Should the approved, final cost of the facility exceed the amount of credit being sought by the developer(s), the developer(s) may be reimbursed from the DIF fund for the difference, subject to the terms of an approved reimbursement agreement and the availability of funds. If two developers are eligible for cash reimbursement during the same fiscal year, then the first reimbursement agreement to be approved by the City Council shall

take precedence over subsequent reimbursement agreements approved by the City Council.

6. As Development Impact Fees are collected, they will be placed in a City fund that provides interest earnings for the benefit of Mira Mesa.
7. The Development Schedule, shown in Table 7 on page 14, is an estimated schedule and is based on the latest information available at the time this Financing Plan was adopted. Future approvals and/or modifications of precise plans and/or discretionary permit applications may either increase or decrease the extent of development proposed within Mira Mesa.
8. Most public facilities identified in the Financing Plan are either “population based” or “transportation based”. The estimated year(s) in which funds are budgeted for a given project is not a binding commitment that the project will actually be constructed in that year. With each periodic update, actual permit activity and corresponding population projections, coupled with additional traffic study information obtained since the last update, will be evaluated to determine the most appropriate year in which to budget the need for each remaining project. As such, the budgeted year for a given project is subject to change with each update to the Financing Plan. In addition, the City may amend this Financing Plan to add, delete, substitute, or modify a particular project to take into consideration unforeseen circumstances.
9. Only those roadways that have been designed as a four-lane facility or larger have been considered in this Financing Plan for funding with Development Impact Fees (DIF). All other roadways located within Mira Mesa will be the direct responsibility of developer/sub-dividers and are therefore not reflected in the DIF calculations.
10. A large majority of the cost necessary to construct SR-56 will be provided from funds other than Development Impact Fees, e.g. TRANSNET, state or federal (ISTEA) highway funds, and/or toll road funds, etc. In 2006, the voters of San Diego County approved the extension of the TRANSNET 1/2 cent sales tax and identified the widening of SR-56 as one of the projects to be funded by TRANSNET. Consequently, the funding of this project has now been identified in the Regional Transportation Program (RTP) managed by SANDAG.
11. For projects that require land acquisition in this Financing Plan, property value estimates assume that the property is graded, in finished pad condition, and “ready to accept” for the project for which it is intended (i.e. the value of raw land plus the cost of improvements/environmental mitigation.). The actual price paid for land within Mira Mesa will be based upon either a price established through direct negotiations between the affected owner(s) and relevant public agency or by fair market value, as determined by an appraisal that will be prepared in accordance with standard City policy.

12. All costs for open space acquisition will be provided from funds other than Development Impact Fees, i.e. subdivision requirement, off-site mitigation for a particular project, etc.
13. All right-of-way for the major roads within the community are to be acquired via the subdivision process at no cost to the Development Impact Fees fund.
14. Development Impact Fees are paid by all categories of private development, including affordable housing projects.
15. This Financing Plan identifies a number of anticipated public facility projects as being funded by Development Impact Fees (DIF). However, it is understood that, during the development of Mira Mesa, alternative funding sources may be proposed in lieu of DIF funding, such as developer funds or Mello-Roos Community Facilities District financing.

COUNCIL DISTRICT: 6
COMMUNITY PLAN: MIRA MESA

DESCRIPTION:

INSTALLATION OF AN OFF-STREET TRANSIT CENTER AT HILLERY DRIVE AND I-15. CONCRETE PADS, PASSENGER WAITING AREAS, BUS BAYS, AND SHELTERS WILL BE CONSTRUCTED. THE METROPOLITAN TRANSIT DEVELOPMENT BOARD (MTDB) WILL DESIGN AND CONSTRUCT THE FACILITY.

JUSTIFICATION:

THE TRANSIT CENTER WILL FACILITATE TRANSFER ACTIVITY BETWEEN EXISTING AND PLANNED ROUTES AND ESTABLISH A CENTRAL FOCAL POINT FOR TRANSIT IN THE COMMUNITY. IT WILL TIE INTO THE FUTURE I-15 CORRIDOR HIGH-SPEED EXPRESS BUS SYSTEM. THE FACILITY ALSO SUPPORTS AN EXISTING TRANSIT-ORIENTED DEVELOPMENT AT MIRAMAR COLLEGE. IT IS CONSISTENT WITH THE MIRA MESA COMMUNITY PLAN.

SCHEDULE:

CONSTRUCTION BEGAN IN FY 2013 AND WAS COMPLETED IN OCTOBER 2014. THE FBA CONTRIBUTION WAS TRANSFERRED TO SANDAG PER A CONTRIBUTION AGREEMENT BETWEEN THE CITY AND SANDAG APPROVED JULY 1, 2014 BY RESOLUTION NO. 309095.

TITLE: LAND ACQUISITION AND DEVELOPMENT FOR MINI PARKS AND NEIGHBORHOOD PARKS

DEPARTMENT: PARK & RECREATION
CIP/WBS #: N/A

PROJECT: P-100
COUNCIL DISTRICT: 6
COMMUNITY PLAN: MIRA MESA

DESCRIPTION:

THIS PROJECT PROVIDES FOR THE ACQUISITION AND DEVELOPMENT OF APPROXIMATELY 39 ACRES WITHIN THE COMMUNITY PLANNING AREA IN ORDER TO REDUCE THE COMMUNITY'S PARK ACREAGE DEFICIT. PARKS TO BE DEVELOPED MAY INCLUDE ANY COMBINATION OF MINI-PARKS, NEIGHBORHOOD PARKS, JOINT USE FACILITIES, OR FUTURE PARK EQUIVALENCIES. AMENITIES MAY INCLUDE MULTI-PURPOSE SPORTS FIELDS, CHILDREN'S PLAY AREAS, COMFORT STATIONS, PICNIC AREAS, AND MULTI-PURPOSE COURTS. FUTURE IMPROVEMENTS MAY INCLUDE HICKMAN ELEMENTARY JOINT USE AND SANDBURG ELEMENTARY JOINT USE.

JUSTIFICATION:

THIS PROJECT IS IN CONFORMANCE WITH THE MIRA MESA COMMUNITY PLAN, AND IS CONSISTENT WITH THE CITY'S 2008 GENERAL PLAN GUIDELINES FOR POPULATION-BASED PARK AND RECREATION FACILITIES. GENERAL PLAN GUIDELINES CALL FOR 2.8 ACRES OF PARK FACILITIES PER 1,000 RESIDENTS. BASED ON CURRENT PROJECTED POPULATION, AN ADDITIONAL 39 ACRES OF PARKS IS NEEDED TO SERVE THE COMMUNITY.

SCHEDULE:

LAND ACQUISITION, DESIGN, AND CONSTRUCTION WILL BE SCHEDULED AS SITES ARE IDENTIFIED AND FUNDING BECOMES AVAILABLE.

NOTES:

PUSUANT TO SECTION 66001(g) OF THE MITIGATION FEE ACT, THE FBA FUNDING FOR THESE PARK IMPROVEMENTS WILL BE LIMITED TO A PERCENTAGE OF THE ESTIMATED COST OF THE IMPROVEMENTS EQUAL TO THE PERCENTAGE OF REMAINING RESIDENTIAL DEVELOPMENT IN THE COMMUNITY. THE REMAINDER OF THE COSTS WILL REMAIN UNIDENTIFIED UNTIL OTHER FUNDING IS IDENTIFIED AND AVAILABLE. THE BUDGET FOR THIS PROJECT SHOWN IN THE FY 2014 FINANCING PLAN WAS ALLOCATED TO PROJECTS P-100A, P-100B, AND P-100C, WHICH HAVE BEEN ADDED TO THIS FINANCING PLAN UPDATE. THE PARK ACREAGE DEFICIT WAS RE-CALCULATED WITH THIS UPDATE DUE TO POPULATION CHANGES AND REVISIONS TO THE PARK INVENTORY.

Mira Mesa Community Fund

The Mira Mesa Community Fund was established with the proceeds from the Westview Development agreement, and a settlement agreement with Shapell Industries. Under the Westview Development Agreement, Pardee Construction Co. was obligated to contribute \$1,000,000 (plus interest) to be used for construction of public improvements in Mira Mesa. Pardee made two payments in 1995 and 1998, totaling \$1,401,412. Shapell Industries, per the terms of its agreement, paid \$1,887 per dwelling unit for its Mesa Del Sol development. The total amount received was \$600,000. A total of \$2,001,412 was deposited into this fund and was to be used for public improvements in Mira Mesa as identified by the community.

On April 14, 2016, the City Council approved Resolution R-310353 approving the closure of the Teen Center and transferring the remaining funds to the Mira Mesa Community Fund 400182.

Mira Mesa Teen Center Fund

On December 2, 1997, under Resolution R-289498, Council established the Mira Mesa Teen Center Fund by transferring \$500,000 from the Mira Mesa Community Fund. The interest generated by this fund may be used, if necessary, to cover operational shortfalls for the San Diego Regional Teen Center located in Mira Mesa. An accounting of that fund is also included below.

On April 14, 2016, the City Council approved Resolution R-310353 approving the closure of the Teen Center and transferring the remaining funds to the Mira Mesa Community Fund 400182.

RESOLUTION NUMBER R- 310613

DATE OF FINAL PASSAGE JUL 19 2016

ITEM # 2500

7/19/16

A RESOLUTION OF THE COUNCIL OF THE CITY OF
SAN DIEGO DECLARING ITS INTENTION TO DESIGNATE
AN AREA OF BENEFIT IN MIRA MESA TO FINANCE THE
COST OF PUBLIC FACILITIES PROJECTS AND SETTING
THE TIME AND PLACE FOR HOLDING A PUBLIC HEARING
THEREON.

WHEREAS, the Council of the City of San Diego (City Council) desires to initiate proceedings for the designation of a facilities benefit assessment area of benefit in Mira Mesa pursuant to San Diego Municipal Code Chapter 6, Article 1, Division 22, which area of benefit will specially benefit from the acquisition, improvement, and construction of certain public improvements more particularly identified and described in the Mira Mesa Public Facilities Financing Plan and Facilities Benefit Assessment, Fiscal Year 2016 (Financing Plan), a copy of which is on file in the Office of the City Clerk as Document No. RR- 310559; and

WHEREAS, on June 21, 2016, the Council, by Resolution No. R-310560, previously declared its intention to designate the area of benefit in Mira Mesa and set the time and place for holding a public hearing thereon for July 19, 2016, but there was insufficient time between the date of final passage of that resolution and the July 19, 2016 hearing date to afford adequate notice thereof to the affected property owners and the Council now desires to adopt a new resolution to declare its intention to designate the area of benefit and set a new time for holding the public hearing thereon; and

WHEREAS, the specific public facilities projects, the cost of which is proposed to be charged to the properties located within the area of benefit, are identified in the Financing Plan; and

WHEREAS, a Capital Improvement Program with respect to the public facilities projects is included in the Financing Plan; and

WHEREAS, the proposed boundaries of the facilities benefit assessment area of benefit are shown in the Financing Plan; and

WHEREAS, the method pursuant to which the cost of the public facilities projects are to be apportioned among the parcels within the facilities benefit assessment area of benefit and the estimated amount of the facilities benefit assessments which will be charged to each such parcel is contained in the Financing Plan; and

WHEREAS, as described in the Financing Plan, the City Council has determined that it is necessary to provide for 3% annual automatic increases for Fiscal Year 2016 and each year thereafter in the amount of facilities benefit assessments for landowners who have not paid their facilities benefit assessments without the necessity for further proceedings pursuant to San Diego Municipal Code section 61.2212 in order to reflect increases in the cost of money during the period between the imposition of the facilities benefit assessment, the payment of facilities benefit assessments, and completion of the public facilities projects; and

WHEREAS, the amount of contribution or advance which the City or other public entity will make toward the total cost of the public facilities projects is set forth in the Financing Plan;
NOW, THEREFORE,

BE IT RESOLVED, by the Council of the City of San Diego, that the Council rescinds Resolution No. R-310560.

BE IT FURTHER RESOLVED, as follows:

1. That the foregoing recitals are true and correct and incorporated fully herein by this reference.

2. Pursuant to San Diego Municipal Code Chapter 6, Article 1, Division 22, the Council declares its intention to designate an area of benefit within Mira Mesa to finance the cost of the public facilities projects identified in the Financing Plan, which is incorporated into this Resolution by reference.

3. The City Council shall hold a public hearing to consider the designation of the area of benefit as proposed in this Resolution at 10:00 a.m., or as soon thereafter as the matter may be heard, on August 2, 2016 at the Council Chambers, 12th Floor, City Administration Building, 202 C Street, San Diego, California.

4. The City Clerk is authorized and directed to give notice of the public hearing described in paragraph 3 of this Resolution by publishing this Resolution in the San Diego Daily Transcript and by mailing copies of this Resolution to each owner of property located within the proposed area of benefit at the addresses shown on the last equalized property tax assessment roll, or as otherwise known to the City Clerk pursuant to San Diego Municipal Code section 61.2205.

RESOLUTION NUMBER R- 310665

DATE OF FINAL PASSAGE AUG 10 2016

A RESOLUTION OF THE COUNCIL OF THE CITY OF SAN
DIEGO APPROVING THE DEVELOPMENT IMPACT FEE
SCHEDULE FOR PROPERTIES WITHIN MIRA MESA.

WHEREAS, the purpose of Development Impact Fees (DIFs) is to ensure that each new development project pays its proportionate share of the funding needed for public facilities necessary to serve new development; and

WHEREAS, the Council of the City of San Diego has reviewed and considered the methodology set forth in the Mira Mesa Public Facilities Financing Plan and Facilities Benefit Assessment, Fiscal Year 2016, (Financing Plan), a copy of which on file in the Office of the City Clerk as Document No. RR- 310559 ; NOW, THEREFORE,

BE IT RESOLVED, by the Council of the City of San Diego, as follows:

1. That the assessment fee schedule contained in the Financing Plan is the appropriate and applicable DIF schedule for all development within the Mira Mesa area that has either never been assessed under the Financing Plan or has not otherwise agreed to the payment of Facilities Benefit Assessment fees as prescribed by the City Council.
2. Effective sixty days from the date of final passage of this resolution, that all DIFs due under the Financing Plan shall be those fees in effect at the time building permits or construction permits are issued, in accordance with San Diego Municipal Code section 142.0640.
3. That the DIFs due shall not increase in accordance with San Diego Municipal Code section 142.0640, but shall automatically increase annually in accordance with the Financing Plan until a new DIF is adopted.

4. That the Financing Plan is incorporated by reference into this Resolution as support and justification for satisfaction of findings required pursuant to the Mitigation Fee Act, as set forth in California Government Code section 66025, for imposition of development impact fees. Specifically, it is determined and found that this documentation:

a. Identifies the purpose of the DIF, which is to ensure that each development project pays its proportionate share of funding needed for the public facilities projects necessary to serve new development;

b. Identifies the use to which the DIF is to be put, which includes but is not limited to, the funding of public facilities projects to serve the community at full community development as identified in the Mira Mesa Community Plan and General Plan. A list of the public facilities projects is shown in the Financing Plan;

c. Demonstrates how there is a reasonable relationship between the DIFs' use and the type of development project on which the DIF is imposed, which includes the following: The DIF will be used to provide for a proportionate fair share contribution for community infrastructure projects needed to serve both residential and non-residential development based on the increased intensity of the development permitted in accordance with the DIF schedule in effect at the time a building permit is issued. Credit will be given for any existing development;

d. Demonstrates how there is a reasonable relationship between the need for the public facility and the type of development project on which the DIF is imposed, which includes the following:

(i) Transportation Projects: Both residential development and non-residential development utilize the community's transportation system, which requires various street and bridge projects, traffic signal interconnect systems, and medians.

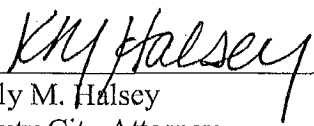

(ii) Park and Recreation Projects: Residential development utilizes the community's parks, and improvements are necessary based on the projected population at full community development and General Plan standards.

(iii) Library Projects: Residential development utilizes the community libraries, and improvements are necessary based on the projected population at full community development and General Plan standards.

(iv) Fire/Rescue Projects: Residential and non-residential development will be served by community fire/rescue facilities, and additional facilities are necessary based on the projected population at full community development, General Plan standards, and established emergency response times.

5. That the Chief Financial Officer is directed to establish an interest bearing fund for the Mira Mesa Development Impact Fee.

THEREOF AND ESTABLISHING THE AMOUNT OF THE
FACILITIES BENEFIT ASSESSMENT AGAINST EACH
PARCEL WITHIN THE AREA OF BENEFIT.

WHEREAS, pursuant to San Diego Municipal Code Chapter 6, Article 1, Division 22, on
JUL 19 2016, the Council of the City of San Diego adopted Resolution No.

R - 310613 (Resolution of Intention) declaring its intention to designate an area of
benefit within Mira Mesa to finance the cost of the public facilities projects identified in the Mira
Mesa Public Facilities Financing Plan and Facilities Benefit Assessment, Fiscal Year 2016
(Financing Plan), a copy of which on file in the Office of the City Clerk as Document No.

RR- 310559; and

WHEREAS, on JUN 21 2016, the Council adopted Resolution No. R- 310559
approving the Financing Plan; and

WHEREAS, by Resolution No. R- 310613, the Council fixed at 10:00 a.m., or as
soon thereafter as the matter may be heard, on AUG 02 2016, at the City Council
Chambers, 12th Floor, City Administration Building, 202 C Street, San Diego, California, the
time and place for a public hearing to consider the designation of the area of benefit, including
the public facilities projects to be financed, the extent of the facilities benefit assessment area of
benefit, and the proposed facilities benefit assessments to be levied upon parcels within the
designated area of benefit; and

WHEREAS, the City Clerk has given notices regarding the Resolution of Intention and of the time and place and purpose of the hearing, as required by San Diego Municipal Code section 61.2205; and

WHEREAS, at the time and place stated in the notices, a hearing was duly held by the Council, and during the course of the hearing, the Financing Plan was duly presented and considered, and all written protests and objections received, if any, were duly presented, read, heard, and considered, and all persons appearing at the hearing and desiring to be heard were given that opportunity, and a full, fair, and completed hearing was had; and

WHEREAS, in following the rules and procedures of San Diego Municipal Code Chapter 6, Article 1, Division 22, the City also complies San Diego Municipal Code Chapter 14, Article 2, Division 6 and relevant state law; and

WHEREAS, the specific public facilities projects, the cost of which is proposed to be charged to the properties located within the area of benefit, are identified in the Financing Plan; and

WHEREAS, a capital improvement program with respect to the public facilities projects is included in the Financing Plan; and

WHEREAS, the proposed boundaries of the facilities benefit assessment area of benefit are shown in the Financing Plan; and
