Chapter 1: Introduction

Authority

The Fiscal Year (FY) 2016 Pacific Highlands Ranch Public Facilities Financing Plan (Financing Plan) implements the improvement requirements set forth in the Pacific Highlands Ranch Subarea Plan (Subarea Plan), which was originally approved by the City Council on July 28, 1998 by Resolution No. R-29052 and amended on September 21, 2004 by Resolution No. R-299671.

On November 3, 1998, the voters of the City of San Diego (City) passed Proposition M and subsequently approved a phase shift from the land designation of “Future Urbanizing” to “Planned Urbanizing”. However, a portion of Pacific Highlands Ranch did not seek to participate in the phase shift. This portion of the community, named Del Mar Highlands Estates (DMHE), has a final map (FM 13818) that was approved in 1999.

Proposition C (Ordinance No. O-19979) was approved by the voters on November 2, 2010. Proposition C removed the SR-56/I-5 Connector project as a development timing restriction in the Pacific Highlands Ranch Transportation Phasing Plan and the City Council subsequently approved a Transportation and Facility Phasing Plan in order to ensure facilities are constructed before or concurrent with new development.

Current and Future Financing Plan Updates

On April 10, 2012, by Resolution R-307364, the City Council adopted the FY 2013 Pacific Highlands Ranch Public Facilities Financing Plan. This report constitutes an update of the previous financing plan for Pacific Highlands Ranch (community). Future updates are anticipated to occur periodically.

Scope of Financing Plan

The Financing Plan is intended to implement the General Plan and the Pacific Highlands Ranch Subarea Plan by identifying the major public facilities that will be needed to serve the community over the next 10 years, during which full community development is expected. The Financing Plan also sets fees pursuant to Ordinance O-15318 and California Government Code 66000 et seq. (Mitigation Fee Act) to help mitigate the costs of the needed facilities.

Chapter 2: Methodology

Procedure

City Ordinance No. O-15318 was adopted by the City Council on August 25, 1980 to establish the procedure for implementing a Facilities Benefit Assessment. The Pacific Highlands Ranch Facilities Benefit Assessment (FBA) provides funding for public facilities projects that serve a designated area, also known as the area of benefit. The dollar amount of the FBA is based upon the collective cost of each public facility needed to serve development in the community, and is equitably distributed over the area of benefit in the community. The same methodology is used to calculate the Pacific Highlands Ranch Development Impact Fee (DIF) that is applicable to new development within the community that is not otherwise required to pay the FBA. The City has determined that there is a reasonable relationship between the amount of the FBA/DIF and the public facilities burdens posed by new development.

Methodology of the FBA/DIF

The methodology for determining the amount of the FBA/DIF is as follows:

- 1.) An FBA Assessment Roll (Appendix B) is prepared for the community where each remaining, unimproved parcel or approved map unit in the area of benefit is apportioned its share of the total cost of public facilities needed to serve new development according to the size and anticipated use of the property;
- 2.) Liens are placed on the undeveloped or under-developed portions of the assessed parcels and final map properties within the area of benefit. The liens are filed without a specific amount since the owner or developer is responsible to pay only the assessment that applies to the type and amount of development that actually occurs;
- 3.) At the time of construction permit issuance, the owner of the parcel being developed must pay a fee that is determined by the type and size of the development permitted according to the FBA/DIF schedule that is in effect at the time the construction permit is obtained. Owners/developers are not permitted to pay liens in advance of development; and
- 4.) Fees are collected, placed into a separate City fund, and used within the area of benefit solely for those capital improvements and administrative costs identified in this Financing Plan.

Expenditures

The following are three types of expenditures that may be applied against the FBA/DIF fund:

- 1.) Direct payments for facility costs, including administration of the FBA/DIF fund;
- 2.) Credits to developers for facilities provided in accordance with Section 61.2213 of the FBA Ordinance; and
- 3.) Cash reimbursement to developers for providing facilities exceeding the cost of their FBA/DIF obligation pursuant to an approved reimbursement agreement.

Therefore, whether a developer or the City provides a facility, direct payments, credits, or cash reimbursements are all treated as an expense to the FBA/DIF fund.

Chapter 3: Area of Benefit and Projected Land Uses

Area of Benefit

The City Council initiates proceedings for the designation of an area of benefit by adopting a Resolution of Intention. The undeveloped land areas that are within the community boundary of Pacific Highlands Ranch are known as the area of benefit. An FBA is applied to the residential, non-residential, and various other land use combinations of undeveloped property. Figure 1 shows the community boundary and the facilities index map.

The location and extent of the area of benefit is determined by referencing the County Assessor parcel maps, current tentative subdivision maps, and from information supplied by affected property owners. This information, along with land use designations and FBA payment history, provides the data for the Inventory of Land Uses table (Table 1).

Two Tiers of Benefit

A portion of the community, known as Del Mar Highlands Estates (DMHE), did not seek to change its land designation from “Future Urbanizing” to “Planned Urbanizing”. A separate area of benefit and FBA category has been established for DMHE and is included in this Financing Plan. All property within Pacific Highlands Ranch with the exception of DMHE is included in Area of Benefit No. 1. Del Mar Highlands Estates makes up Area of Benefit No. 2.

The DMHE development does not gain its primary vehicular access from the transportation projects financed by this FBA, with the following exceptions:

- 1.) El Camino Real Widening (Sea Country Ln. to San Dieguito Rd.), Project No. T-12.2
- 2.) El Camino Real Widening (San Dieguito Road to Via de la Valle), Project No. T-12.3
- 3.) Via de la Valle (Four Lanes), Project No. T-13

The developer of that portion of the project known as DMHE, pursuant to conditions #31 and #32 of VTM 94-0576, has an obligation to contribute funds toward the cost to construct these offsite facilities located to the northwest of Pacific Highlands Ranch (Subarea II). The improvement requirements are estimated to cost more than \$1,790,000 and are reflected in the Financing Plan project sheets. This obligation equates to approximately \$10,400 per dwelling unit. Since the projects were not scheduled for construction at the time the DMHE was being developed, Pardee Homes issued Letters of Credit on July 22, 1999, which are on file with the City totaling \$1,790,407.

Because DMHE is paying for its access improvements separately, it will not be obligated to pay the FBA for certain remaining transportation projects included in this Financing Plan, through which it does not obtain access. Those projects include, but are not limited to the following:

- 1.) Del Mar Heights Road, Project No. T-3
- 2.) Carmel Valley Road, Project No. T-4.1, T-4.2, T-4.3, and T-4.4
- 3.) Village Loop Road, Project No. T-6.1 and T-6.2
- 4.) Traffic Signals, Project No. T-7
- 5.) Black Mountain Road, Project No. T-11.1 and T-11.2

With the exception of the above transportation projects, property owners developing residential units in DMHE will be contributing their fair share to the cost of all other FBA-funded projects included in this Financing Plan. The fair share portion for development in DMHE is consistent with all other residential dwelling units in the community. Property owners in DMHE are not subject to the Transportation and Facility Phasing Plan since they did not participate in the phase shift.

Projected Land Uses

Residential

The anticipated residential development for Pacific Highlands Ranch is estimated at 5,182 dwelling units, as depicted in Table 1.

Non-residential

The anticipated non-residential development for Pacific Highlands Ranch is projected to be 14 acres for the village, 15 acres for the employment center, and 48.92 acres for institutional uses, as depicted in Table 1. The anticipated acres for the village and employment center were reduced in this Financing Plan due to actual and projected land uses.

Chapter 4: Assessments

Assessment Methodology – EDU Ratios

An Equivalent Dwelling Unit (EDU) ratio has been established for the purpose of appropriately allocating the cost of public facilities between the different land use classifications. EDU ratios have been calculated for each category of facility to be funded by the FBA/DIF because the relationship between land use and the degree of benefit from different public facilities can vary substantially depending on land use. The single dwelling unit (SDU) is the foundation for all other EDU ratios. Other land use classifications are assigned an EDU ratio per dwelling unit or acre, proportionate to the respective impacts.

Table 2 provides the EDU ratios used to prepare the Pacific Highlands Ranch FBA/DIF.

Assessment Roll Description

For each undeveloped map portion or parcel in the Area of Benefit, the Assessment Roll includes:

- 1.) Parcel number
- 2.) Number of dwelling units or non-residential acres to be developed (according to the highest and “best use” scenario)
- 3.) Anticipated assessment amount for each parcel in current year dollars.
- 4.) Name of the owner (according to the County Assessor’s records)

Identification numbers in the Assessment Roll may be non-sequential as a result of some parcels having been removed following development and after assessments are paid, as ownership changes, or as parcels are subdivided. Information on ownership is listed according to the County Assessor's records at the time the Assessment Roll is prepared, as shown on the last equalized Assessment Roll, or as otherwise known to the City Clerk; or by any other means which the City Council finds reasonably calculated to apprise affected landowners (Municipal Code Section 61.2205). The current Assessment Roll is shown in Appendix B.

A Resolution of Designation, when adopted by the City Council, imposes the FBA in the form of a lien that is placed upon the undeveloped or under-developed portions of the County Assessor parcels and final map properties within the area of benefit. The assessments are based upon the type and size of forecasted land use of the highest and "best use" scenario.

The maps, plats, and summary of the Assessment Roll, all of which define the area of benefit, will be delivered to the County Recorder for official recording once the updated Financing Plan is approved by the City Council.

Determination of FBA/DIF

Assessments are calculated and levied against each undeveloped or under-developed parcel based upon the type and size of development, which is expected to occur within the area of benefit. The Pacific Highlands Ranch FBA/ DIF schedule is included in Table 8.

The amount of the FBA/DIF is determined by using the following information:

- 1.) Reasonably anticipated development schedule (in dwelling units and acres)
- 2.) Composite EDU ratios for each land use designation
- 3.) Schedule of facility expenditures (in FY 2016 dollars) appropriate to be financed with monies from the FBA/DIF fund
- 4.) Assumed annual interest rate of 2% for Fiscal Years 2016 through build out (applied to the fund balance)
- 5.) Annual inflation rate of 3% for Fiscal Years 2017 through build out (to determine the future costs of facilities that will be constructed in years beyond FY 2016)
- 6.) At the end of each fiscal year (June 30th), unpaid FBAs and DIFs are increased by the inflation factor.
- 7.) An individual developer will pay an FBA/DIF, based upon the number of units, or acres developed in a particular year.
- 8.) A fee is calculated to provide sufficient money to fund the projects, direct payments for facilities to be funded by the FBA/DIF fund.
- 9.) The FBA/DIF rates also consider the timing of credits and reimbursements to be paid to developers for FBA/DIF funded facilities.

Pursuant to the terms of an approved reimbursement agreement with the City, a developer may be issued credits against the FBA/DIF otherwise due for expenditures related to providing facilities in lieu of paying an FBA/DIF. An approved reimbursement agreement with the City may also provide for cash reimbursement to a developer from the FBA/DIF fund.

Fee Deferral Program

On October 21, 2014, the San Diego City Council approved Ordinance O-20419, which allows for the deferral of the payment of FBA/DIF for up to two years after building permits are issued for a project. To defer the payment of FBA/DIF, the applicant must enter into a fee deferral agreement with the City, which is subsequently recorded against the property. The applicant must pay an administrative fee to process a fee deferral agreement. The FBA/DIF can be deferred for a maximum of two years, or until request for final inspection, whichever occurs first. The final inspection may not be scheduled until the applicable FBA/DIF is paid.

FBA/DIF fees, including all inflationary rate increases due, shall be as set forth in the fee schedule in effect when the fee deferral agreement is executed by the City, or the fees approved by the City Council for a subsequent update of the Financing Plan, whichever fee is lower.

Automatic Annual Increases

FBA/DIF are evaluated approximately every two years and adjusted accordingly to reflect the current economic conditions. With this update, the FY 2016 FBA/DIF rate for single dwelling units was reduced by approximately 7% from the FY 2013 Financing Plan. This is the result of an increase in anticipated residential development. An inflation factor of 3% per year will be applied to the FBA/DIF starting in FY 2017. The inflation factor is used to provide automatic annual increases in the FBA/DIF rate and takes effect at the beginning of each fiscal year (July 1). The automatic increase provision is effective only until such time as the next adjustment is authorized by the City Council. Thereafter, the subsequent Council-approved annual adjustment will apply.

Chapter 5: Cash Flow Analysis

The Pacific Highlands Ranch Cash Flow on Table 5 presents an analysis of the FBA/DIF. For each fiscal year during the development of the community, the cash flow shows the difference between anticipated FBA/DIF revenues (including earned interest) and the expected capital improvement expenditures. Interest earnings for cash on hand are compounded and based on an estimated 2% annual return for FY 2016 through full community development.

The results verify that under the assumed conditions for inflation factors, interest rates, land use development rates and facility costs, sufficient funds are expected for all listed facility requirements without incurring a negative cash flow at any time throughout the build out of the community. This cash flow does not rely on developer construction of facilities, although it is expected that some facilities will be designed and constructed by developers pursuant to approved reimbursement agreements

Periodic updates of the cash flow analyses, using actual event status (project status, revenues collected, actual construction costs incurred, etc.), are anticipated throughout community development. In this way, potential negative cash flow conditions can be anticipated, and expenditure adjustments can be scheduled to fit funding expectations. Scheduling of facility development is contingent on actual development in the community. Therefore, any slowdown in development will result in shifting of the projected schedule for providing needed facilities.

The City considers historic data while predicting the effect of inflation on construction projects. The Construction Cost Index in Los Angeles (CCI) and the Consumer Price Index for San Diego (CPI) are the two indices used by the City while conducting a cash flow analysis. The historical information associated with the CCI and the CPI is shown in Tables 3 and 4. The indices are referenced as a demonstration of historical construction cost changes over time and an indicator of potential future cost changes which are factored into the costs of future facilities.

The public facilities anticipated to be financed by the FBA/DIF funds are shown in Table 7.

Chapter 6: Financing Plan

Purpose

The Financing Plan is prepared to ensure that all owners of undeveloped and underdeveloped property will pay their fair share of the funding required to finance the community's public facilities needed to serve that development. The Financing Plan applies to all property owners seeking to develop property, even if the subject property has an approved tentative or final map detailing its development.

Transportation and Facility Phasing Plan

The Transportation and Facility Phasing Plan (Phasing Plan), as shown in Appendix B, provides a complete list of the required transportation and facilities projects and the associated thresholds for each. The Phasing Plan limits the issuance of building permits in the community until the listed improvements have been assured. The limitations imposed by the Transportation and Phasing Plan are established in the form of threshold conditions, which must be met before development in Pacific Highlands Ranch is allowed to continue.

Development Forecast and Analysis

The development projection for Pacific Highlands Ranch is based upon the best estimates of the existing property owners, their land use consultants, and City staff. Certain economic factors could adversely affect these development projections. Conversely, a period of robust business expansion could significantly increase the rate of development. Based on the Subarea Plan and pending entitlements, the remaining development of Pacific Highlands Ranch is expected to occur over a ten-year period. The current development schedule assumes that the required transportation improvements will be provided in accordance with the Phasing Plan included in this Financing Plan.

The projected schedule of development for Pacific Highlands Ranch is presented in Table 6. In this table, the number of units developed within a year refers to those applications having building permits issued (paid) during the July-to-June fiscal year. Therefore, the number of units projected in 2016 refers to those for which permits were issued, with fees paid, between July 1, 2015 and June 30, 2016. Development in the community is projected to reach 5,182 dwelling units by the end of Fiscal Year 2025.

The anticipated remaining non-residential development for Pacific Highlands Ranch is estimated to be 6 acres for the village and 15 acres for the employment center. A list of the types and amount of planned non-residential development can be found in Table 1.

Annual Review

The FBA Ordinance in the Municipal Code (Section 61.2212) and the Mitigation Fee Act provide for an annual review of fees. The annual review may include, but not be limited to, the following:

- 1.) Rate and amount of planned development
- 2.) Actual or estimated cost of public facilities projects
- 3.) Needed public facilities projects
- 4.) Inflation rates
- 5.) Interest rates
- 6.) City approved discretionary permits.

Updated Project Costs

This update includes an analysis, by various City departments, of the project costs for each public facility project. The cost estimates shown in this update have been revised and consider the following:

- 1.) LEED “Silver Level” standards
- 2.) Impact of inflation
- 3.) Competitive bids on similar projects
- 4.) Modifications, if any, to the overall scope of the project.

Financing Strategy

The General Plan calls for impacts of new development to be mitigated through appropriate fees identified in Public Facilities Financing Plans. These include impacts to public facilities and services, including the water supply and distribution system, sanitary sewer system, drainage facilities, fire protection, schools, streets, parks, and open space. Developers will provide a majority of the needed public facilities for Pacific Highlands Ranch as a part of the subdivision process.

The City has a variety of potential funding sources for financing public facilities, which will be provided in part by developers as part of the subdivision process. Potential methods for financing public facilities are included in the Glossary of the Adopted Budget (Volume I: Budget Overview and Schedules), which is available online at:

<http://www.sandiego.gov/fm/annual/index.shtml>

Chapter 7: General Assumptions and Conditions

In connection with the application of the above methods of financing, the following general assumptions and conditions will be applied:

- 1.) Except for those projects that are identified as FBA/DIF funded, developers will be required to provide facilities that are normally provided within the subdivision process as a condition of tentative subdivision map approval. These projects include but are not limited to traffic signals, local roads, and the dedication or preservation of open space located within the proposed development(s).
- 2.) Commercial and industrial land will be charged FBA/DIF for infrastructure, including transportation, fire, and utility facilities. However, developers of commercial and industrial land will not be assessed for park and recreation or library facilities since those facilities primarily serve the residential component of Pacific Highlands Ranch. In the future, if a basis is developed for charging non-residential development for the cost of park and recreation and library facilities, appropriate fair share may be evaluated at that time.
- 3.) The developer shall pay the FBA/DIF as a condition of obtaining building permits in accordance with the Municipal Code.
- 4.) A developer may propose to build or improve an FBA funded facility that is identified in the Capital Improvements Program. Upon City Council approval, the developer(s) may enter into an agreement to provide the facility in lieu of, or as credit against the payment of FBA fees, provided that adequate funds are available in the FBA fund. The amount and timing of the credit being sought by the developer(s) must coincide with the expenditure of funds depicted on the project sheet for the respective project. If two developers are eligible for cash reimbursement during the same fiscal year, then the first reimbursement agreement to be approved by the City Council shall take precedence over subsequent reimbursement agreements approved by the City Council.
- 5.) As FBA/DIF are collected, they will be placed in a City fund that provides interest earnings for the benefit of Pacific Highlands Ranch.
- 6.) The Development Schedule, as shown in Table 6, is an estimated schedule and is based on the latest information available at the time this Financing Plan was adopted. Future approvals and/or modifications of precise plans and/or discretionary permit applications may either increase or decrease the extent of development proposed within the community.
- 7.) Most public facilities identified in the Financing Plan are either “population based” or “transportation based”. The estimated year(s) in which funds are budgeted for a given project is not a binding commitment that the project will actually be constructed in that year. With each periodic update, actual permit activity and corresponding population projections, coupled with additional traffic study information obtained since the last update, will be evaluated to determine the most appropriate year in which to budget the need for each remaining project.

FY 2016 Pacific Highlands Ranch Public Facilities Financing Plan

- 8.) Only those roadways that have been designed as a four-lane facility or larger or key circulation element roads have been considered in this Financing Plan for funding with FBA/DIF funds. All other roadways located within Pacific Highlands Ranch will be the direct responsibility of the developer/subdivider and are therefore not reflected in the FBA/DIF calculations.
- 9.) For projects that require land acquisition in this Financing Plan, property value estimates assume that the property is graded, in finished pad condition, and “ready to accept” for the project for which it is intended (i.e. the value of raw land plus the cost of improvements/environmental mitigation.). The actual price paid for land within Pacific Highlands Ranch will be based upon either a price established through direct negotiations between the affected owner(s) and relevant public agency or by fair market value, as determined by an appraisal that will be prepared in accordance with standard City policy.
- 10.) All costs for open space acquisition will be provided from funds other than the FBA/DIF, i.e. subdivision requirement, off-site mitigation for a particular project, etc.
- 11.) All right-of-way for the major roads within the community are to be acquired via the subdivision process at no cost to the FBA/DIF.
- 12.) FBA/DIF are paid by all categories of private development, including affordable housing projects.

PROJECT: T-1.2B
COUNCIL DISTRICT: 1
COMMUNITY PLAN: PHR

DESCRIPTION:

CONVERSION OF THE FOUR-LANE FREEWAY TO A SIX-LANE FACILITY. HIGH OCCUPANCY VEHICLE LANES COULD BE ACCOMMODATED WITHIN THE CENTER MEDIAN ONCE REGIONAL FUNDING IS IDENTIFIED. THIS PROJECT WILL BE COMPLETED IN MULTIPLE PHASES AS FUNDING BECOMES AVAILABLE.

JUSTIFICATION:

THIS PROJECT IS CONSISTENT WITH THE BLACK MOUNTAIN RANCH (BMR), DEL MAR MESA (DMM), PACIFIC HIGHLANDS RANCH (PHR), AND TORREY HIGHLANDS (TH) SUBAREA PLANS, IS IN CONFORMANCE WITH THE CITY'S GENERAL PLAN, AND IS NEEDED TO SERVE THE COMMUNITY.

FUNDING:

THE ABOVE ALLOCATION OF COST REPRESENTS EACH SUBAREA'S FAIR SHARE OF THE ORIGINAL SCOPE OF THE PROJECT. THESE ALLOCATIONS MAY BE REDUCED AS OTHER SOURCES ARE IDENTIFIED. IF OUTSIDE FUNDING IS OBTAINED, THEN BLACK MOUNTAIN RANCH AND PACIFIC HIGHLANDS RANCH WILL BE REIMBURSED ON A PRIORITY BASIS UNTIL ADVANCES ARE REDUCED TO A PROPORTIONATE SHARE AS CALCULATED BY A TRAFFIC LINK ANALYSIS. THE DEVELOPER CONTRIBUTION REPRESENTS THE BMR DIRECT CASH CONTRIBUTION.

DUE TO THE REGIONAL SERVING NATURE OF THIS FREEWAY, IT IS ANTICIPATED THAT FEDERAL, STATE, OR OTHER OUTSIDE FUNDING FOR THIS PROJECT WILL BE OBTAINED. IN THE ABSENCE OF THESE OTHER FUNDING SOURCES, DEVELOPMENT WITHIN THE INDIVIDUAL COMMUNITIES OF THE NORTH CITY AREA MAY BE REQUIRED TO ADVANCE A PARTIAL COST OF THIS PROJECT. HOWEVER, THESE SUBAREA SHARES ARE CAPPED AT THE CURRENT LEVELS.

PROJECT: T-1.5
COUNCIL DISTRICT: 1
COMMUNITY PLAN: PHR

DESCRIPTION:

THIS PROJECT PROVIDES FOR THE NORTHERLY CONNECTORS OF THE I-5 AND SR-56 FREEWAYS AND PREPARATION OF A PROJECT REPORT AND ENVIRONMENTAL DOCUMENT (PR/ED). ALTERNATIVES UNDER CONSIDERATION INCLUDE DIRECT FREEWAY TO FREEWAY FROM WESTBOUND SR-56 TO NORTHBOUND I-5 AND SOUTHBOUND I-5 TO EASTBOUND SR-56; AN AUXILIARY LANE ALTERNATIVE WHICH PROPOSES PROVIDING OPERATIONAL IMPROVEMENTS ON I-5 BETWEEN DEL MAR HEIGHTS RD AND CARMEL VALLEY RD BETWEEN I-5 AND SR-56, AND ON SR-56 WEST OF CARMEL COUNTRY RD; OR DIRECT FREEWAY CONNECTORS FROM WESTBOUND SR-56 TO NORTHBOUND I-5 AND THE AUXILIARY LANE IMPROVEMENTS ON SOUTHBOUND I-5, EASTBOUND ON CARMEL VALLEY RD, AND EASTBOUND SR-56.

JUSTIFICATION:

STATE ROUTE 56 OPENED TO TRAFFIC IN JULY 2004 AND PROVIDES AN EAST/WEST CONNECTION BETWEEN INTERSTATES 5 AND 15. THIS INTRODUCES A SIGNIFICANT VOLUME OF TRAFFIC TO THE INTERSTATE 5 CORRIDOR IN CARMEL VALLEY, SOME OF WHICH WILL NEED TO GO TO OR FROM THE NORTH. THIS PROJECT WILL PROVIDE THE IMPROVEMENTS NECESSARY TO MAKE THESE MOVES MOST EFFICIENTLY AND AVOID THE HEAVY USE OF LOCAL STREETS.

THIS PROJECT IS CONSISTENT WITH THE SUBAREA PLANS, IS IN CONFORMANCE WITH THE CITY'S GENERAL PLAN, AND IS NEEDED TO SERVE THE COMMUNITY.

FUNDING:

DUE TO THE REGIONAL SERVING NATURE OF THIS PROJECT, FUNDING FOR THIS PROJECT HAS COME FROM FEDERAL FUNDS APPROVED BY CONGRESS. IT IS ANTICIPATED THAT ADDITIONAL FEDERAL, STATE, OR OTHER OUTSIDE FUNDING WILL ALSO BE USED FOR THIS PROJECT. DEVELOPER (PARDEE) WILL ADVANCE OR OTHERWISE ASSURE THIS COMMUNITY'S SHARE OF FUNDING FOR THIS PROJECT AND BE REIMBURSED FROM THE PACIFIC HIGHLANDS RANCH FACILITIES BENEFIT ASSESSMENT UNDER THE TERMS OF A REIMBURSEMENT AGREEMENT. THE DEVELOPER CONTRIBUTION REPRESENTS THE BMR DIRECT CASH CONTRIBUTION.

THE ACTUAL TIMING FOR COMMUNITY CONTRIBUTIONS MAY DIFFER AS PUBLIC FACILITY FINANCING PLANS ARE UPDATED SEPARATELY.

NOTES:

SOME FUNDING FROM PACIFIC HIGHLANDS RANCH AS WELL AS OTHERS MAY BE PROVIDED AS A "LOCAL MATCH" AS AN INDUCEMENT TO OBTAIN THESE OUTSIDE FUNDS. THESE FUNDS MAY PERMIT PORTIONS OF PHASE II TO BE CONSTRUCTED IN ADVANCE OF RECEIPT OF FUNDS FROM OTHER SOURCES.

SCHEDULE:

PREPARATION OF THE PROJECT REPORT AND ENVIRONMENTAL DOCUMENT BEGAN IN FISCAL YEAR 2004 AND WAS COMPLETED IN FISCAL YEAR 2014. DESIGN AND CONSTRUCTION WILL BE SCHEDULED FOLLOWING COMPLETION OF THE REPORT AND SELECTION OF ALTERNATIVE.

Appendix A: Transportation and Facility Phasing Plan

Introduction to the Pacific Highlands Ranch Transportation and Public Facility Phasing Plan

Proposition C (Ordinance Number O-19979) was approved by the voters on November 2, 2010. Proposition C removed a development timing restriction, subject to approval of a revised, clearer, integrated and stronger Transportation and Public Facility Financing Plan. Proposition C mandates that the issuance of building permits for new development shall be contingent on meeting facilities thresholds set in the General Plan.¹ The adopted Pacific Highlands Ranch Subarea Plan (community plan) identifies threshold ranges for certain facilities and is a part of the Land Use Element of the General Plan. Additional improvements and mitigation measures are identified in the Master EIR and Development Agreement and shall be provided per those documents. Section 4.5 of the Development Agreement limits mitigation to that identified in the Master EIR, unless further required environmental review identifies additional mitigation measures. Facility thresholds may apply differently to residential and non-residential development, as the requirements differ between these land uses. If thresholds are not met, building permits subject to those thresholds cannot be issued. The purpose is to assure that the new development and the public facilities funded by this plan are provided concurrently per required thresholds.

Public facilities and transportation facilities solely funded by and located within Pacific Highlands Ranch must be fully developed, opened and operational at required thresholds. Facilities located outside of Pacific Highlands Ranch may be deemed assured per applicable criteria. For facilities that are triggered near or at the end of the community's build-out, sufficient building permits should be contingent on facilities being completed to assure the protection required by Proposition C of linking development and building permit issuance. The cash flow for this plan must be adequate to provide all the facilities at all of the required thresholds.

Several public facilities located within Pacific Highlands Ranch receive funding from communities other than Pacific Highlands Ranch (community park, library, recreation center). FBA fees collected in Pacific Highlands Ranch cannot fund the building of these facilities solely and fully. These shared facilities may be completed in phases (acquiring the site, designing the facility and building sequential portions of facility) with funding from Pacific Highlands Ranch and as funding becomes available from other communities that require and benefit from the facilities. Phasing considers available cash flow, consistency with intent of Proposition C and a spatial and temporal relationship to adjacent development phasing. For public facilities (community pool) and transportation facilities located outside of Pacific Highlands Ranch that have mixed funding sources, or are subject to approval by a lead agency other than the City (Caltrans projects), the obligation for issuing building permits is to assure the funding by the thresholds only, or as required by the Master EIR and Development Agreement.

The Pacific Highlands Ranch Community Park is a priority for the communities of Pacific Highlands Ranch, Del Mar Mesa and Carmel Valley. While no funding is provided by Carmel Valley, athletic facilities in that community are heavily used, including by residents of Pacific

¹ This is only a brief summary of Proposition C. Refer to Ordinance Number O-19979 for details.

FY 2016 Pacific Highlands Ranch Public Facilities Financing Plan

Highlands Ranch, pending completion of its future community park. Additionally, the community park is a vital amenity for the mixed-use village center in Pacific Highlands Ranch, which will be the focal point of the community. The community's desire is for the community park to be advanced and also serve as the interim second neighborhood park, with McGonigle Canyon Neighborhood Park to be the third and final park completed in Pacific Highlands Ranch.

The cash flow in the Public Facilities Financing Plan programs facilities at certain fiscal years based on a forecast for development absorption. All of the facilities included in the cash flow are required as part of implementing the Pacific Highlands Ranch Sub-area Plan. Cash flow programming may differ from General Plan thresholds. This Plan represents the best available forecast of development absorption available at the time of its preparation. It also represents the priorities of the community for phasing its facilities, consistent with the adopted Pacific Highlands Ranch Sub-area Plan, other required facilities mitigation and Proposition C. This Plan is expected to require calibrations over the approximately 20-year remaining build-out of the community. It should be reviewed annually.

Footnotes to Transportation and Facility Phasing Plan:

- ¹ Before development is authorized in each phase, the transportation improvements listed in the right column must meet one of the following conditions to the satisfaction of the City Engineer:
 - a) Improvement must be completed and open to traffic.
 - b) Improvement must be under contract.
 - c) Improvement must be bonded.
 - d) Improvement must be scheduled for construction in the City CIP for the year in which building permits are requested.
 - e) Improvements must be programmed for construction in the STIP for the year in which building permits are requested.
 - f) Fair share payment for improvement is made per mitigation required in accordance with the Master Environmental Impact Report for Pacific Highlands Ranch.

- ² It should be noted that this plan is intended to serve as a guideline for the sequential development of street and facility improvements. Because the geographic order of development is not certain, it will be necessary to regularly review and revise this phasing plan in order to reflect the current land development proposals and actual trip generation rates and trip distribution. Any technical studies associated with updating /revising the transportation component of the phasing plan cannot be funded by the FBA.

- ³ The 650 equivalent dwelling units include a maximum of 50 EDUs for the administrative facilities of the private high school.

- ⁴ The Transportation and Facility Phasing Plan assumes that State Route 56 will be implemented as shown in this Public Facilities Financing Plan.

- ⁵ Right-of-way is assured to the satisfaction of the City Engineer by either of the following:
 - a) Acquisition
 - b) Successfully entering into a purchase agreement, or by
 - c) Initiating the condemnation process.

- ⁶ This Neighborhood Park (P-1) requirement is to be satisfied by being completed and open to the public before residential permits beyond 1,900 (Phase Two) DUs may be issued.

- ⁷ The Transportation Phasing Plan contained in the Traffic Study Report, cited in the footnote 4 above, inadvertently refers to Carmel Valley Road between SR-56 and the intersection of Del Mar Heights Road as Camino Santa Fe. It has subsequently been determined that the northerly limits of Camino Santa Fe will terminate at SR-56. Also, Camino Santa Fe has been re-designated as Little McGonigle Ranch Road south of SR-56.

- ⁸ The amount of development approved for each phase of the Transportation and Facility Phasing Plan is not cumulative. To determine the cumulative total, one must add the amounts shown in each phase of the plan. Cumulative totals are referenced separately.

FY 2016 Pacific Highlands Ranch Public Facilities Financing Plan

- ⁹ The swimming pool is deemed assured by the fair share contribution from Pacific Highlands Ranch and is programmed in the PFFP cash flow.
- ¹⁰ This Neighborhood Park (P-2) requirement is to be satisfied at 4,900 cumulative DUs in Phase Four “B”. Permits beyond 4,900 DUs shall not be issued until the facility is constructed and open. Refer also to the introductory narrative regarding this park and the community park.
- ¹¹ The non-transportation component of the phasing plan was developed by the Proposition C Implementation Working Group in conjunction with City staff in order to implement the Proposition C Ballot Measure, passed in November 2010 (O-19979). The plan is intended to serve to implement Proposition C to provide for the orderly development and timely availability of community-serving infrastructure. Since the pace and order of land development and resultant housing units is not certain, it will be necessary to regularly review and revise the non-transportation component of the phasing plan in order to reflect population growth as it occurs over time.
- ¹² At the start of Phase 4 for development which is served by existing streets, improvements to Camino Del Sur (south of SR-56) will not be required to be assured, in order to obtain building permits.
- ¹³ Threshold status is up to date as of July 2015.
- ¹⁴ Phase Four “A” applies to transportation projects and runs concurrent with Four “B”, which includes the public facilities.

Automatic Annual Increases: FBA/DIF are evaluated approximately every two years and adjusted accordingly to reflect the current economic conditions. The inflation factor is used to provide automatic annual increases in the FBA/DIF rate and takes effect at the beginning of each fiscal year (July 1). The automatic increase provision is effective only until such time as the next adjustment is authorized by the City Council. Thereafter, the subsequent Council-approved annual adjustment will apply.
