Get It Done San Diego is the official app for reporting non-emergency problems to the City of San Diego. You can report problems like potholes or graffiti and connect directly to the City's work tracking system.

Walking down the street and see a problem? Take a photo and upload it from home or while still nearby. **Get It Done** will automatically update the problem report with information about where the photo was taken.

Please download the app and participate in making your San Diego neighborhood a better place!
