

DEPARTMENT OF PUBLIC HEALTH
CITY OF SAN DIEGO
739 FOURTH STREET

ALEX M. LESEM, M.D.
HEALTH OFFICER AND SUPERINTENDENT
GEO. H. SIEVERLING
ASSISTANT SUPERINTENDENT

SAN DIEGO, CALIFORNIA

April 10, 1930.

To the Hon. the Mayor and the Common Council,
San Diego, California.

Gentlemen:

I beg herewith, to return to you, Document No. 256117, and wish to state further that the North San Diego Chamber of Commerce has not thoroughly investigated the situation or they would not ask the City to pour oil on the pools mentioned.

We have consistently stocked all the pools in that vicinity with the Gambusia minnow. Oil in the pools would kill the fish and we request that further action be left in the hands of the Health Department.

Very truly yours,

Ed Beall
Chief Sanitary Inspector

EB/M
