

# How-To Make Snowflake Ornaments

by Siobhan DeBlasio

## Supplies:

- Metal Snowflake Frames from Amazon.com
- Beads
- Needle nose pliers
- Regular pliers
- Ribbon

## Directions:

1st take your metal snowflake frame and create a pattern with your beads.

2nd make sure you have enough beads to complete the pattern for all legs of the frame.

3rd after you have placed the beads onto the leg, use your needle nose pliers to bend the end of the leg into a "U" shape.

4th use your regular pliers to pinch the "U" together and secure the beads onto the leg of the frame

5th once you have done this to all six legs of the frame, take your ribbon and place it through one of the holes at the end of a leg and tie it together.

6th Last but not least, hang your beautiful beaded ornament wherever you like best and enjoy your creation!
