

## How to fold a mini comic book

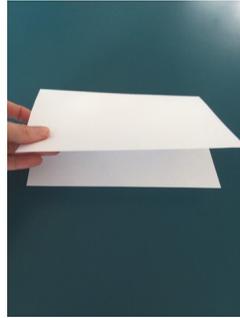

### Materials:

Paper (regular 8.5x11 paper makes a book about 2.5 x 4 inches)

Scissors

Colored Pencils/Markers/or other materials with which to write and draw your book

Step 1: Fold the paper in half lengthwise

Step 2: Fold it in half lengthwise again

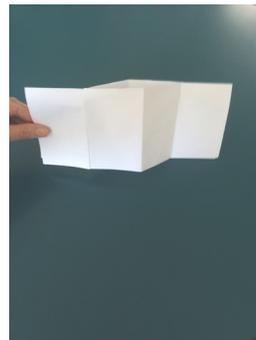

Step 3: One more lengthwise fold

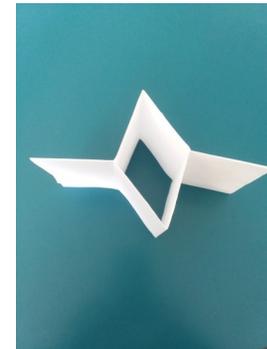

Step 4: Open up the last two folds and cut along the crease from the folded edge to the center.

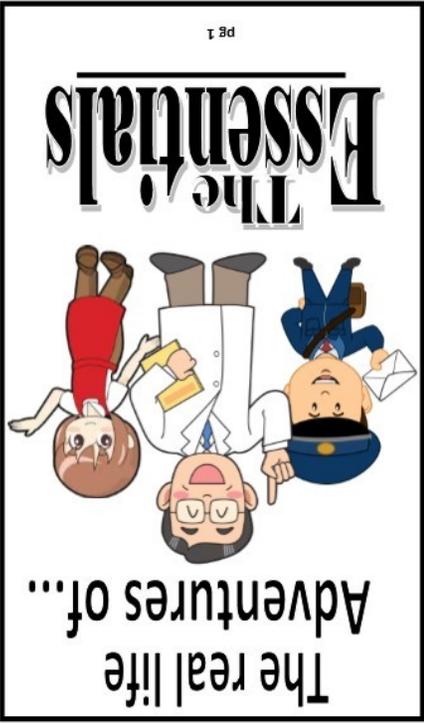

Step 5: Unfold and refold along the cut line.

Step 6: Holding each end, push them together so the cuts spread into a diamond, and then meet their opposite edge.

Step 7: Fold in half and your book is ready to be written.
