

RE: Support for Community Choice Energy (CCE)

Dear Mayor Faulconer and Council,

I am resident of the City of San Diego and I support Community Choice Energy for a 100% clean energy future.

Community Choice gives us local control over our energy, helps stabilize or reduce our rates, and provides us with the freedom to choose the source of our electricity. With Community Choice Energy, we have the ability to enjoy consumer choice and ensure our region achieves 100 percent clean energy.

I am particularly interested in the opportunity for a local community choice program to buy increasing amounts of power from local sources, supporting local jobs and local economic development.

I believe our region should join California's nine counties and over 70 cities in the movement for clean energy, clean jobs, and consumer choice through Community Choice Energy.

Thank you for your dedication to protecting our quality of life.

Sincerely,

J. GARCIA
