Appendix II.B Municipal Infrastructure Inventory

Infrastructure Type	Inventory Format¹
MS4 – overall ²	GIS Map (Appendix III) Publicly available SanGIS file: “Drain_Conveyance” ³ (only MS4 infrastructure identified as the City’s maintenance responsibility)
MS4 Structures ²	Publicly available SanGIS file: “Drain_Structure” ³
Sewer	Publicly available SanGIS file: “Sewer_Main_SD”
Roads	All public streets within the City of San Diego, except streets maintained by Caltrans, included in the following publicly available SanGIS file: “Roads_All”

¹ SanGIS files can be accessed via www.sangis.org. These files are in ArcGIS shapefile format.

² The City does not maintain separate inventories or files of flood management facilities, flood control devices and structures.

³ These GIS layers also include MS4 infrastructure that other agencies or private parties own or are responsible for maintaining. Only MS4 infrastructure that the City owns or has accepted responsibility for maintaining is considered part of the City’s MS4.
