DATE: April 7, 2022

TO: Honorable Council President Elo-Rivera and Members of the City Council

FROM: Matthew Vespi, Chief Financial Officer

SUBJECT: Revised – Award of a Sole Source Agreement for Emergency Repairs to the Metro Biosolids Center Electrical Equipment

Pursuant to San Diego Municipal Code (SDMC) §22.3108 (a) (1), “Exceptions to Advertisement and Competitive Award of Public Works Contracts,” I am hereby notifying you of a change to the sole source emergency contract for construction and infrastructure repair of the subject project.

The initial plan was to replace the power distribution leg 76 USSA-B that was out of service, then test the parallel power distribution leg 76 USSA-A to see if it warranted replacement as well. However, Wastewater Treatment & Disposal (WWTD) Division has recently notified Engineering and Capital Projects (E&CP) Department staff that additional substations at the Metropolitan Biosolids Center (MBC) have failed. Since three of the substations have failed so far, it is reasonable to believe that the parallel power distribution leg 76 USSA-A is in the same poor condition and will also need to be replaced.

The revised estimated cost is $2,000,000 plus City costs and contingency for unforeseen conditions.

Included with this memorandum is the Declaration of Emergency from the City Engineer, certifying that the subject project meets the criteria of an emergency as defined in SDMC §22.3108 (Enclosure 1).

The Director of Purchasing & Contracting has reviewed the Declaration of Emergency, supporting documentation, and the Request for Sole Source Certification (Enclosure 2) and certifies the request to sole source is in accordance with SDMC §22.3016(a).

If there are technical questions regarding this project, please contact James Nagelvoort, City Engineer at (619) 533-5100 or JNagelvoort@sandiego.gov. For contractual questions, please contact Claudia C. Abarca, Director, at (619) 236-5921 or CAbarca@sandiego.gov.

Project Name: Metro Biosolids Center (MBC) Emergency Electrical Repair

IO No.: 30006137

Project Location-Specific: The project is located at 5240 Convoy Street, within the Military Facilities Area (Council District 6).

Project Location-City/County: San Diego/San Diego

Description of nature and purpose of the Project: Testing of electrical equipment (76 USSA-B transformer, bus ducting, switches and switchboard) at the MBC wastewater treatment facility has been conducted in response to a short in the bus ducting adjacent to the transformer, which resulted in its loss of service. Evaluation of test results indicate the need for replacement of the 76 USSA-B equipment. Loss of the USSA-B power distribution leg would result in an eventual buildup of untreated waste being discharged into the Pacific Ocean, contaminating the marine environment and violating Federal and State regulations. Therefore, emergency repairs are necessary to maintain service essential to the public health, safety, or welfare.

CONTRACTOR CERTIFICATION

COVID-19 VACCINATION ORDINANCE
CERTIFICATION OF COMPLIANCE

I hereby certify that I am familiar with the requirements of San Diego Ordinance No. O-21398 implementing the City's Mandatory COVID-19 Vaccination Policy.

TERMS OF COMPLIANCE

The City's Mandatory COVID-19 Vaccination Policy, outlined in San Diego Ordinance O-21398 (Nov. 29, 2021), requires ALL City contractors, who interact in close contact with City employees while providing contracted services indoors in City facilities or while performing bargaining unit work while indoors, to be fully vaccinated against COVID-19, effective January 3, 2022, as a condition for provision or continued provision of contracted services.

1. “City contractor” means a person who has contracted with the City of San Diego to provide public works, goods, services, franchise, or consultant services for or on behalf of the City, and includes a subcontractor, vendor, franchisee, consultant, or any of their respective officers, directors, shareholders, partners, managers, employees, or other individuals associated with the contractor, subcontractor, consultant, or vendor. “Person” means any natural person, firm, joint venture, joint stock company, partnership, association, club, company, corporation business trust or organization.

2. “Fully vaccinated” means a person has received, at least 14 days prior, either the second dose in a two-dose COVID-19 vaccine series or a single-dose COVID-19 vaccine, or otherwise meets the criteria for full vaccination against COVID-19 as stated in applicable public health guidance, orders, or law. Acceptable COVID-19 vaccines must be approved by the U.S. Food and Drug Administration (FDA) or authorized for emergency use by the FDA or the World Health Organization.

3. “Close contact” means a City contractor is within 6 feet of a City employee for a cumulative total of 15 minutes or more over a 24-hour period (for example, three individual 5-minute exposures for a total of 15 minutes).

4. City contractors who interact in close contact with City employees must fully comply with the City's Mandatory COVID-19 Vaccination Policy, which may include a reporting program that tracks employee vaccination status.

5. City contractors with employees or subcontractors who interact in close contact with City employees must certify that those members of their workforce, and subcontractors regardless of tier, who work indoors at a City facility, are fully vaccinated and that the City contractor has a program to track employee compliance.

6. City contractors that have an Occupational Safety and Health Administration compliant testing program for members of their workforce, as a reasonable accommodation, may be considered for compliance.
