M E M O R A N D U M

DATE: July 31, 2023

TO: Honorable Council President Elo-Rivera and Members of the City Council

FROM: Alia Khouri, Deputy Chief Operating Officer

SUBJECT: Sole Source Agreement for Quince Drive Slope Emergency

---

Pursuant to San Diego Municipal Code (SDMC) §22.3108 (a) (1), "Exceptions to Advertisement and Competitive Award of Public Works Contracts," I am hereby notifying you of the sole source selection and forthcoming emergency contract for construction and infrastructure repair of the subject project.

Heavy winter stormwater events from December 2022 through January 2023 caused uncontrolled stormwater runoff to erode slopes and infiltrate cracks on Quince Drive within Balboa Park. Investigations performed by City's Development Services Department geology staff determined that significant pavement voids have formed underneath portions of the roadway and eroded adjacent slopes which have led to the closure of Quince Drive.

To determine the extent of the roadway and slope repairs on Quince Drive, a licensed geotechnical engineer will need to perform a site assessment and determine the best course to repair the road. The geotechnical site assessment, roadway and slope repairs are beyond the capabilities of City staff; therefore, it is requested a sole source contract be approved

The selected contractor is **Cass Arrieta Construction**, and the estimated cost of the project is **\$2,500,000** plus City costs and contingency for unforeseen conditions. The final award amount will be presented to Council upon ratification request of the emergency contract. Capital Improvement Project (CIP) change orders valued at \$500,000 or more or Operations & Maintenance (O&M) change orders valued at \$200,000 or more for construction will be presented to Council for approval, per SDMC §22.3018.

Included with this memorandum is the Declaration of Emergency from the City Engineer, certifying that the subject project meets the criteria of an emergency as defined in SDMC §22.3108 (Enclosure 1).

The Director of Purchasing & Contracting has reviewed the Declaration of Emergency, supporting documentation, and the Request for Sole Source Certification (Enclosure 2) and certifies the request to sole source is in accordance with SDMC §22.3016(a).

MEMORANDUM

DATE: May 24, 2023

TO: Claudia C. Abarca, Director, Purchasing & Contracting Department

FROM: Rania Amen, Director & City Engineer, Engineering & Capital Projects Department

SUBJECT: Sole Source Agreement for the Quince Drive Slope Emergency

---

This memorandum is to certify the declaration of an emergency in order to replace e segment of the Quince Drive roadway and repair the adjacent slope within Balboa Park.

Estimated Amount: \$2,500,000 (Not-to Exceed)

Contractor: Cass Arrieta

Estimated Completion: June 30, 2024

Recommended Action: Approve Sole Source Request

Pursuant to SDMC §22.3108 (a), "Exceptions to Advertisement and Competitive Award of Engineering & Capital Projects Contracts", this is to certify that a sole source agreement with the contractor named above is necessary and that strict compliance with a competitive process would be unavailing or would not produce an advantage, and soliciting bids or proposals would be undesirable, impractical or impossible for the following reasons:

JUSTIFICATION:

As a result of the heavy runoff from the winter storms in late December 2022 and January 2023, the slope adjacent to Quince Drive in Balboa Park partially failed. Uncontrolled stormwater runoff entered cracks in the pavement and washed subgrade material from beneath the pavement and down the adjacent slope. The runoff caused erosion of the slope which possibly undermined Quince Drive. Subsequent field visits by geologists from the Development Services Department determined that sufficient material had been eroded away to create significant voids beneath the pavement to the point that the roadway needed to be closed to all vehicular traffic.

This segment of Quince Drive is a direct extension to the state route offramp for northbound State Route 163 (Cabrillo Freeway), linking the freeway to Balboa Drive and Sixth Avenue. This important link connects the freeway system to Uptown, Bankers Hill, and Hillcrest. The

current closure of Quince Drive presents potential traffic impacts to the northbound State Route 163 as the road.

To re-open the roadway, an investigation by a licensed geotechnical engineer is required to assess the soil below the roadway and determine erosion limits. The undermined segment of roadway will need to be replaced, and slope repaired and restored. The geotechnical assessment and necessary roadway and slope repairs are beyond the capabilities of City staff; therefore, it is requested a sole source contract be approved.

**AGREEMENT VALUE & DURATION:**

Unless a modification to the agreement and this sole-source request is issued, the total fee for these services shall not exceed the amount noted above. The term of the agreement will be in effect from date of the agreement execution and shall not exceed the contract completion date noted above.

DATE: March 3, 2023

TO: Rania Amen, Director and City Engineer, Engineering and Capital Projects Department

FROM: Andy Field, Director, Parks and Recreation Department

SUBJECT: Request for Emergency Declaration for Quince Drive Slope Failure in West Mesa of Balboa Park

---

As a result of winter season rains in late December 2022 and January 2023, the slope along the western edge of State Route 163 (Cabrillo Freeway) partially failed because of heavy runoff. This slope carries the Quince Drive offramp from northbound State Route 163 into the West Mesa of Balboa Park, linking the freeway to Balboa Drive and Sixth Avenue. This important link connects the freeway system to Uptown, Bankers Hill, and Hillcrest. Since the runoff impacted the slope adjacent to and possibly beneath the Quince Drive Offramp, this memorandum requests expedited Public Works contracting to investigate the slope erosion and roadway undermining and make the necessary urgent repairs sufficient to reopen Quince Drive and the freeway offramp.

**Quince Drive Offramp**

State Route 163 (Cabrillo Freeway) traverses Balboa Park between Interstate 5 and the Upas Street pedestrian overcrossing through Cabrillo Canyon. Two exits depart the freeway along this stretch, the first linking to Quince Drive traveling northwest, and the second linking to Richmond Street traveling northeast. The Quince Drive offramp carries 2,150 Average Daily Trips (ADT) as of 2016. This is a principal route leading into Balboa Park West Mesa, Bankers Hill, Hillcrest, and Uptown. Links from Interstate 5 to State Route 163 allow drivers to access the Quince Drive offramp for trips from the South Bay, Chula Vista, and National City to the locations served by Quince Drive. Since the offramp and the connection to Sixth Avenue are fully located within Balboa Park, Quince Drive is not in the public rights of way and is instead classified as a park road. Parks and Recreation Department is responsible for the maintenance and upkeep of Quince Drive.

**Storm Damage**

Winter storms brought substantial rain to San Diego beginning in the last week of December 2022 and have continued into March 2023. These rains have impacted Quince Drive by carrying large amounts of storm water downhill toward the freeway. Uncontrolled stormwater runoff entered cracks in the pavement and eroded the subgrade below the roadbed and washed an unknown amount of subgrade material from beneath the pavement and down the adjacent slope.

Subsequent field visits by geologists from the Development Services Department determined that sufficient material had been eroded away to create significant voids beneath the pavement to the point that the roadway needed to be closed to all vehicular traffic

(Attachment 1). The rains possibly created voids below the offramp and sloughed off mud and debris below the offramp. In addition, the current closure of Quince Drive presents potential traffic impacts to the northbound State Route 163 as the road is a direct extension to the state route offramp.

**Request**

Based on preliminary observations, the necessary in-depth geotechnical investigation and potential repairs are beyond the capabilities of the Parks and Recreation Department; therefore we request that an emergency project be initiated to determine the cause and perform the remedy to address the storm damage to the Quince Drive offramp. This would include an investigation and report by a licensed geotechnical engineer to assess the extent of the voids and erosion limits within the roadway and obtain a contractor to provide necessary repairs so that the offramp and roadway can be reopened. Because the failed section traverses a slope, and the slope adjacent the paved roadway has eroded, interim repairs to reopen the road are not considered feasible without geotechnical engineering recommendations beyond what City staff can provide.

Thank you for your consideration of this request. If you have any questions or require additional information, please contact Michelle Abella-Shon, Program Manager at (619) 964-7670 or me at (619) 235-1110.

## DRAFT Quince Street Offramp Memo

As requested by the City of San Diego Parks and Recreation Department, Engineering Geologists with Development Services conducted a site visit on January 6, 2023 to evaluate the existing road and slope conditions at the Quince Street offramp. See Figure 1.

Figure 1. Google Map of Site Location (no scale)

City Geologists met with personell from the Streets Division and with Sarah Chavez from Engineering and Capital Projects Department. Based on discussions with City personell and observations noted while at the site, it appears that recent rains have caused or increased settlment on the exsiting road and continued creep on the fill slope located east of the offramp. Observations indicate that settlement of the loose fill material has caused Quince Street to drain towards the existing slope to the east. Consquently, surface water overflowed eastward from Quince Street over the existing slope face causing a surficial failure (see Figure 2).

## DRAFT Quince Street Offramp Memo

Figure 1. View of surficial failure (looking west upslope)

During site meeting City of San Diego personell had already closed Quince Street to the public and had been onsite conducting immediate repairs to the existing asphalt. It is undertsood from discussions with City staff that 'voids' were also observed below the asphalt.

### **Conclusions:**

The existing fill slope with an approximate inclination of 1.5:1 (horizontal to vertical) east of Quince Street appears to be overwet and has experienced a surficial failure (see Figure 2). In addition, with the distressed road currently pitched eastward towards the fill slope, surficial water from rains could saturate the fill slope and continue to contribute to additional slope instability in the area and settlement of the road.

## DRAFT Quince Street Offramp Memo

### **Recommendations:**

Consideration could be given to divert storm water flows away from the fill slope and filling the voids under the roadway until permanent repairs can be made. Note- sand bags were currently being installed at the time of our site visit.

A private geotechnical company should be hired to conduct a geotechnical investigation to evaluate slope stability and provide recommendations for re-building or stabilizing the existing overtseepened slope. The geotechnical company should also include an evaluation to repair the existing road in their scope of work.

Hello Everett -

The City has declared this an emergency project. We have secured a contractor and today we had a scoping meeting on site with all parties involved. The contractor and subs are currently preparing fee estimates and cost proposals for approval. I can keep you updated as mileposts are reached but the project is underway.

Hello Michelle,

Thanks for the update. In general, any sudden or unexpected event that poses a threat to the existing infrastructure on the State Highway System or that has failed, and that could result in the loss or impairment of life, property, or essential services qualifies as an emergency. Please refer to Public Contract Code 1102 for more info. Caltrans took the initiative to close the Quince Street exit ramp to protect the traveling public from the threat of failure that had

occurred just beyond the state right-of-way. The sooner the city can investigate and address the issue, the ramp can be reopened.

Our traffic operations staff reviewed volume data for the Quince Street exit ramp and the 2020 ADT was 2150. As you describe below, this is the approximate number of vehicles being diverted to other exit ramps including emergency responders.

Greetings Everett and Caltrans Team,

Per Andy, we wanted to reach out to you regarding Quince Drive off-ramp closure. We've initiated a project to our Public Works

Department (Engineering & Capital Projects) several weeks ago. In an effort to expedite the hiring process of the As-needed geotechnical engineering consultant, we're trying to declare this project as an emergency. So far, we have not met any of the criteria and therefore the regular CIP process is being followed. Issuance of a Task Order can take several months.

We contacted our emergency response departments (Police & Fire), to see if the ramp closure would cause a delay in their emergency response. Fire responded and told us that they are able to work around street closures by adjusting their response route.

Although the road is on parkland, our department is not equipped to address the issue occurring on the slope and underneath Quince Drive.

Does Caltrans have a State criteria that would help this project to qualify as an emergency status? For ex. 2,150 (ADTs) are having to re-route from the closure of Quince Drive. That could be a significant impact. Please let us know.

Thanks,

Hello Andy,

Thanks for providing this update. As you know this off-ramp serves the communities of Hillcrest, Bankers Hill and others, and more events and activities will soon start to materialize as the weather gets better. I encourage the city to expedite the investigation and repair efforts to allow Caltrans to reopen the ramp as soon as possible. If there's anything we can do to help please let me or Shawn Rizzutto know. Shawn is Caltrans D11 Division Chief of Maintenance, cc'd herewith. I am also cc'ing Caridad Sanchez, Division Chief of External Affairs for her awareness.

Good morning. Juan Guerreiro asked me to contact you regarding the ongoing closure of Quince Drive accessed from SR 163. My understanding is that the road cannot open until the geotechnical engineer is hired. There is a

chance there is damage below the roadway surface, which is why the road cannot reopen. The hiring process is currently underway. We have not requested an emergency declaration but are still gathering information from public safety departments to determine if there are any response time impacts. Please let me know if you would like to discuss further.

Records shall show name, telephone number including area code, and business address of each Subcontractor, Supplier, and joint venture partner, and the total amount actually paid to each firm. Project relevant records, regardless of tier, may be periodically reviewed by the City.
2. You shall retain all records, books, papers, and documents pertinent to the Contract for a period of not less than 5 years after Notice of Completion and allow access to said records by the City's authorized representatives.
3. You shall submit the following reports using the City's web-based contract compliance (Prism® portal):
  - a. **Monthly Payment.** You shall submit Monthly Payment Reporting by the 10<sup>th</sup> day of the subsequent month. Incomplete and/or delinquent reporting may cause payment delays, non-payment of invoices, or both.
4. The records maintained under item 1, described above, shall be consolidated into a Final Summary Report, certified as correct by an authorized representative of the Contractor. The Final Summary Report shall include all subcontracting activities and be sent to the EOCP Program Manager prior to Acceptance. Failure to comply may result in assessment of liquidated damages or withholding of retention. The City will review and verify 100% of subcontract participation reported in the Final Summary Report prior to approval and release of final retention to you. In the event your Subcontractors are owed money for completed Work, the City may authorize payment to subcontractor via a joint check from the withheld retention.

## **EQUAL OPPORTUNITY CONTRACTING PROGRAM (EOCP)**

### **SECTION B - SLBE-ELBE SUBCONTRACTING REQUIREMENTS**

**THESE SPECIAL PROVISIONS SUPPLEMENT THE POLICIES AND REQUIREMENTS ESTABLISHED BY THE CITY OF SAN DIEGO EQUAL OPPORTUNITY CONTRACTING PROGRAM SPECIFIED IN THE CITY'S GENERAL EOCP REQUIREMENTS.**

#### **A. GENERAL.**

1. It is the City's policy to encourage greater availability, capacity development, and contract participation by SLBE and ELBE firms in City contracts. This policy is, in part, intended to further the City's compelling interest to stimulate economic development through the support and empowerment of the local community, ensure that it is neither an active nor passive participant in marketplace discrimination, and promote equal opportunity for all segments of the contracting community.
2. The City is committed to maximizing subcontracting opportunities for all qualified and available firms.
3. This policy applies to City-funded construction contracts. Bidders shall be fully informed of this policy as set forth in these specifications. Mandatory or voluntary subcontracting percentages, Bid Discounts, and restricted competitions are specified in the Contract Documents.
4. You shall make subcontracting opportunities available to a broad base of qualified Subcontractors and shall achieve the minimum SLBE-ELBE Subcontractor participation identified for your project.
5. Failure to subcontract the specified minimum (mandatory) percentages of the Bid to qualified available SLBE-ELBE Subcontractors will cause a Bid to be rejected as non-responsive unless the Bidder has demonstrated compliance with the affirmative steps as specified in the City's document titled "Small Local Business (SLBE) Program, INSTRUCTIONS FOR BIDDERS COMPLETING THE GOOD FAITH EFFORT SUBMITTAL" and has submitted documentation showing that all required positive efforts were made prior to the Bid submittal due date. The required Good Faith Effort (GFE) documentation shall be submitted to the Contract Specialist. The instructions for completing the good faith effort submittal can be found on the City's website:  
<https://www.sandiego.gov/sites/default/files/legacy/eoc/pdf/slbegfeinst.pdf>
6. The current list of certified SLBE-ELBE firms and information for completing the GFE submittal can be found on the City's EOC Department website:  
<http://www.sandiego.gov/eoc/programs/slbe.shtml>
7. These requirements may be waived, at the City's sole discretion, on projects deemed inappropriate for subcontracting participation.

**B.**

**DEFINITIONS.**

1. The following definitions shall be used in conjunction with these specifications:

- a) **Bid Discount** – Additional inducements or enhancements in the bidding process that are designed to increase the chances for the selection of SLBE firms in competition with other firms.
- b) **Commercially Useful Function** – An SLBE-ELBE performs a commercially useful function when it is responsible for the execution of the Work and is carrying out its responsibilities by actually performing, managing, and supervising the Work involved. To perform a commercially useful function, the SLBE-ELBE shall also be responsible, with respect to materials and supplies used on the Contract, for negotiating price, determining quantity and quality, ordering the material, and installing (where applicable) and paying for the material itself.

To determine whether an SLBE-ELBE is performing a commercially useful function, an evaluation will be performed of the amount of Work subcontracted, normal industry practices, whether the amount the SLBE-ELBE firm is to be paid under the contract is commensurate with the Work it is actually performing and the SLBE-ELBE credit claimed for its performance of the Work, and other relevant factors. Specifically, an SLBE-ELBE does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of meaningful and useful SLBE-ELBE participation, when in similar transactions in which SLBE-ELBE firms do not participate, there is no such role performed.

- c) **Good Faith Efforts (GFE)** – Documentation of the Bidder's intent to comply with SLBE Program goals and procedures included in the City's SLBE Program, Instructions for Completing Good Faith Effort Submittal available from the City's EOCP website or the Contract Specialist.
- d) **Independently Owned, Managed, and Operated** – Ownership of a SLBE-ELBE firm shall be direct, independent, and by individuals only. Business firms that are owned by other businesses or by the principals or owners of other businesses that cannot themselves qualify under the SLBE-ELBE eligibility requirements shall not be eligible to participate in the Program. Moreover, the day-to-day management of the SLBE-ELBE firm shall be direct and independent of the influence of any other businesses that cannot themselves qualify under the SLBE-ELBE eligibility requirements.
- e) **Joint Venture** – An association of two or more persons or business entities that is formed for the single purpose of carrying out a single defined business enterprise for which purpose they combine their

capital, efforts, skills, knowledge, or property. Joint ventures shall be established by written agreement to qualify for this program.

- f) **Local Business Enterprise (“LBE”)** – A firm having a Principal Place of Business and a Significant Employment Presence in San Diego County, California that has been in operation for 12 consecutive months and a valid business tax certificate. This definition is subsumed within the definition of Small Local Business Enterprise.
- g) **Minor Construction Program** – A program developed for bidding exclusively among SLBE-ELBE Construction firms.
- h) **Principal Place of Business** – A location wherein a firm maintains a physical office and through which it obtains no less than 50% of its overall customers or sales dollars.
- i) **Protégé** – A firm that has been approved and is an active participant in the City’s Mentor-Protégé Program and that has signed the required program participation agreement and has been assigned a mentor.
- j) **Significant Employee Presence** – No less than 25% of a firm’s total number of employees are domiciled in San Diego County.

#### C. SUBCONTRACTOR PARTICIPATION.

1. For the purpose of satisfying subcontracting participation requirements, only 1<sup>st</sup> tier SLBE-ELBE Subcontractors will be recognized as participants in the Contract according to the following criteria:
  - a) For credit to be allowed toward a respective participation level, all listed SLBE-ELBE firms shall have been certified by the Bid due date.
  - b) The Subcontractor shall perform a commercially useful function for credit to be allowed toward subcontractor participation levels. The Subcontractor shall be required by you to be responsible for the execution of a distinct element of the Work and shall carry out its responsibility by actually performing and supervising its own workforce.
  - c) If the Bidder is seeking the recognition of materials, supplies, or both towards achieving any mandatory subcontracting participation level, the Bidder shall indicate on Form AA40 – Named Equipment/Material Supplier List with the Bid the following:
    - i. If the materials or supplies are obtained from a SLBE-ELBE manufacturer, the Bidder will receive 100% of the cost of the materials or supplies toward SLBE participation. For the purposes of counting SLBE-ELBE participation, a manufacturer is a firm that operates or maintains a factory or establishment that produces, on the premises, the materials, supplies,

articles, or equipment required under the Contract and of the general character described by the specifications.

ii. If the materials or supplies are obtained from a SLBE-ELBE supplier, the Bidder will receive 60% of the cost of the materials or supplies toward SLBE participation. For the purposes of counting SLBE-ELBE participation a Supplier is a firm that owns, operates, or maintains a store, warehouse, or other establishment in which the materials, supplies, articles or equipment of the general character described by the specifications and required under the Contract are bought, kept in stock, and regularly sold or leased to the public in the usual course of business. To be a supplier, the firm shall be an established, regular business that engages, as its principal business and under its own name, in the purchase and sale or lease of the products in question. A person may be a supplier in such bulk items as petroleum products, steel, cement, gravel, stone, or asphalt without owning, operating, or maintaining a place of business if the person both owns and operates distribution equipment for the products. Any supplementing of the suppliers' own distribution equipment shall be by a long-term lease agreement and shall not be on an ad hoc or contract-by-contract basis.

iii. If the materials or supplies are obtained from a SLBE-ELBE, which is neither a manufacturer nor a supplier, the entire amount of fees or commissions charged for assistance in the procurement of the materials and supplies, fees or transportation charges for the delivery of materials or supplies required on a job site will be counted toward SLBE-ELBE participation, provided the fees are reasonable and not excessive as compared with fees customarily allowed for similar services. No portion of the cost of the materials and supplies themselves will be counted toward SLBE-ELBE participation.

d) If the Bidder is seeking the recognition of SLBE-ELBE Trucking towards achieving any mandatory subcontracting participation level, the Bidder shall indicate it on Form AA35 – List of Subcontractors with the Bid. The following factors will be evaluated in determining the credit to be allowed toward the respective participation level:

i. The SLBE-ELBE shall be responsible for the management and supervision of the entire trucking operation for which it is getting credit on a particular Contract and there shall not be a contrived arrangement for the purpose of counting SLBE-ELBE participation.

- ii. The SLBE-ELBE shall itself own and operate at least 1 fully licensed, insured, and operational truck used on the Contract.
- iii. The SLBE-ELBE receives credit for the total value of the transportation services it provides on the Contract using trucks it owns, insures, and operates using drivers it employs.
- iv. The SLBE-ELBE may lease trucks from another SLBE-ELBE firm including an owner-operator who is certified as a SLBE-ELBE. The SLBE-ELBE who leases trucks from another SLBE-ELBE receives credit for the total value of the transportation services the lessee SLBE-ELBE provides on the contract.
- v. The SLBE-ELBE may also lease trucks from a non-SLBE-ELBE firm, including an owner-operator. The SLBE-ELBE who leases trucks from a non-SLBE-ELBE is entitled to credit for the total value of transportation services provided by non-SLBE-ELBE lessees not to exceed the value of transportation services provided by SLBE-ELBE owned trucks on the contract. Additional participation by non-SLBE-ELBE lessees receive credit only for the fee or commission it receives as a result of the lease arrangement.
- vi. A lease shall indicate that the SLBE-ELBE has exclusive use of and control over the truck. This does not preclude the leased truck from working for others during the term of the lease with the consent of the SLBE-ELBE so long as the lease gives the SLBE-ELBE absolute priority for use of the leased truck.

**D. SLBE-ELBE SUBCONTRACTOR PARTICIPATION PERCENTAGES.**

- 1. Contracts valued at \$1,500,000 and above will be considered Major Public Works Contracts and will include a mandatory Subcontractor participation requirement for SLBE-ELBE firms.
  - a) The Bidder shall achieve the mandatory Subcontractor participation requirement or demonstrate GFE.
  - b) The Bidders shall indicate the participation on Forms AA35 - List of Subcontractors and AA40 - Named Equipment/Material Supplier List as applicable regardless of the dollar value.
  - c) An SLBE-ELBE Bidder may count its own participation toward achieving the mandatory goal as long as the SLBE-ELBE Bidder performs 51% of the Contract Price.

2. Contracts Valued over \$1,000,000 and under \$1,500,000 will also be considered Major Public Works Contracts and will include the mandatory subcontractor participation requirements described above and the following:
  - a) 5% bid discount for SLBE-ELBE firms.
  - b) Non-certified Contractor will receive 5% bid discount if they achieve the specified mandatory Subcontracting participations.
  - c) Bid discounts shall not apply if the award will result in a total contract cost of \$50,000 in excess of the apparent lowest Bid.
  - d) In the event of a tie bid between a SLBE-ELBE Bidder and a non-SLBE-ELBE Bidder, the SLBE-ELBE Bidder will be awarded the Contract.
  - e) In the event of a tie bid between a discounted Bid and a non-discounted Bid, the discounted Bid will be awarded the Contract.
3. Contracts valued over \$500,000 up to \$1,000,000 will be considered Minor Public Works Contracts and will be awarded through a competitive Bid process open only to City certified SLBE-ELBE firms. If there are no bidders or no responsible bidders, the Contract will be made available to all Bidders and will be subject to requirements listed in items 1 and 2 for Major Public Works Contracts above.
4. Contracts valued at \$500,000 and below will also be considered Minor Public Works Contracts and will be awarded through a competitive bid process open only to City certified ELBEs unless there are less than 2 firms available at which it will be awarded through a competitive process open only to the City certified SLBE-ELBE firms. If there are no bidders or no responsible bidders, the Contract will be made available to all Bidders and subject to requirements listed in items 1 and 2 for Major Public Works Contracts above.

**E. JOINT VENTURES.**

1. The City may allow for Joint Venture bid discounts on some Contracts. Contracts that allow for Joint Venture bid discounts will be designated in Bid documents. A firm that is bidding or competing for City Contracts may partner with a certified SLBE or ELBE to compete for Contracts as a Joint Venture.
2. A Joint Venture shall be between two entities with the same discipline or license as required by the City. Joint ventures will receive bid discounts depending on the SLBE or ELBE percentage of participation. To be eligible for a discount, a Joint Venture Agreement shall be approved by the City at the time of Bid submittal. The maximum allowable discount shall be 5%. The parties shall agree to enter in the relationship for the life of the projects.
3. Joint Venture shall submit a Joint Venture Management Plan, a Joint Venture Agreement, or both at least 2 weeks prior to the Bid due date. Copies of the

Joint Venture applications are available upon request to the Contract Specialist. Each agreement or management plan shall include the following:

- a) Detailed explanation of the financial contribution for each partner.
  - b) List of personnel and equipment used by each partner.
  - c) Detailed breakdown of the responsibilities of each partner.
  - d) Explanation of how the profits and losses will be distributed.
  - e) Description of the bonding capacity of each partner.
  - f) Management or incentive fees available for any one of the partners (if any).
4. Each Joint Venture partner shall perform a Commercially Useful Function. An SLBE or ELBE that relies on the resources and personnel of a non-SLBE or ELBE firm will not be deemed to perform a Commercially Useful Function.
  5. Each Joint Venture partner shall possess licenses appropriate for the discipline for which a proposal is being submitted. If a Joint Venture is bidding on a single trade project, at the time of bid submittal, each Joint Venture partner shall possess the requisite specialty license for that trade bid.
  6. The SLBE or ELBE partner shall clearly define the portion of the Work to be performed. This Work shall be of the similar type of Work the SLBE or ELBE partner performs in the normal course of its business. The Joint Venture Participation Form shall specify the Bid items to be performed by each individual Joint Venture partner. Lump sum Joint Venture participation shall not be acceptable.
  7. Responsibilities of the SLBE or ELBE Joint Venture Partner:
    - a) The SLBE or ELBE partner shall share in the control, management responsibilities, risks and profits of the Joint Venture in proportion with the level of participation in the project.
    - b) The SLBE or ELBE partner shall perform Work that is commensurate with its experience.
    - c) The SLBE or ELBE partner shall use its own employees and equipment to perform its portion of the Work.
    - d) The Joint Venture as a whole shall perform Bid items that equal or exceed 50% of the Contract Price, excluding the cost of manufactured items, in order to be eligible for a Joint Venture discount.

**F. MAINTAINING PARTICIPATION LEVELS.**

1. Credit and preference points are earned based on the level of participation proposed prior to the award of the Contract. Once the Project begins you shall achieve and maintain the SLBE-ELBE participation levels for which credit and

preference points were earned. You shall maintain the SLBE-ELBE percentages indicated at the Award of Contract and throughout the Contract Time.

2. If the City modifies the original Scope of Work, you shall make reasonable efforts to maintain the SLBE-ELBE participation for which creditor preference points were earned. If participation levels will be reduced, approval shall be received from the City prior to making changes.
3. You shall notify and obtain written approval from the City in advance of any reduction in subcontract scope, termination, or substitution for a designated SLBE-ELBE Subcontractor. Failure to do so shall constitute a material breach of the Contract.
4. If you fail to maintain the SLBE-ELBE participation listed at the time the Contract is awarded and have not received prior approval from the City, the City may declare you in default and will be considered grounds for debarment under Chapter 2, Article 2, Division 8, of the San Diego Municipal Code.

**G. SUBCONTRACTING EFFORTS REVIEW AND EVALUATION.**

1. Documentation of your subcontracting efforts will be reviewed by EOCP to verify that you made subcontracting opportunities available to a broad base of qualified Subcontractors, negotiated in good faith with interested Subcontractors, and did not reject any bid for unlawful discriminatory reasons. The EOCP review is based on the federal "Six Good Faith Efforts" model.
2. The GFEs are required methods to ensure that all ELBE and SLBE firms have had the opportunity to compete for the City's Public Works procurements. The Six Good Faith Efforts, also known as affirmative steps, attract and utilize ELBE and SLBE firms:
  - a) Ensure ELBE firms are made aware of contracting opportunities to the fullest extent practicable through outreach and recruitment activities.
  - b) Make information of forthcoming opportunities available to SLBE-ELBE firms and arrange time for Contracts and establish delivery schedules, where requirements permit, in a way that encourages and facilitates participation by SLBE-ELBE firms in the competitive process. This includes posting solicitations for Bids or proposals to SLBE-ELBE firms for a minimum of 10 Working Days before the Bid or Proposal due date.
  - c) Consider in the contracting process whether firms competing for large Contracts could subcontract with SLBE-ELBE firms.
  - d) Encourage contracting with a consortium of ELBE-SLBE firms when a Contract is too large for one of these firms to handle individually.

- e) Use the services and assistance of the City's EOC Office and the SLBE-ELBE Directory.
- f) If you award subcontracts, require your Subcontractors to take the steps listed above.

**H. GOOD FAITH EFFORT DOCUMENTATION.**

- 1. If the specified SLBE-ELBE Subcontractor participation percentages are not met, you shall submit information necessary to establish that adequate GFEs were taken to meet the Contract Subcontractor participation percentages. See the City's document titled "Small Local Business (SLBE) Program, INSTRUCTIONS FOR BIDDERS COMPLETING THE GOOD FAITH EFFORT SUBMITTAL." The instructions for completing the good faith effort submittal can be found on the City's website:

<https://www.sandiego.gov/sites/default/files/legacy/eoc/pdf/slbegfeinst.pdf>

**I. SUBCONTRACTOR SUBSTITUTION.**

- 1. Evidence of fraud or discrimination in the substitution of Subcontractors will result in sanctions including assessment of penalty fines, termination of Contract, or debarment. This section does not replace applicable California Public Contract Code.

**J. FALSIFICATION OF SUB-AGREEMENT AND FRAUD.**

- 1. Falsification or misrepresentation of a sub-agreement as to company name, Contract amount or actual Work performed by Subcontractors, or any falsification or fraud on the part your submission of documentation and forms pursuant to this program, will result in sanctions against you including assessment of penalty fines, termination of the Contract, or debarment. Instances of falsification or fraud which are indicative of an attempt by you to avoid subcontracting with certain categories of Subcontractors on the basis of race, gender, gender expression, gender identity, religion, national origin, ethnicity, sexual orientation, age, or disability shall be referred to the Equal Opportunity Contracting Program's Investigative Unit for possible violations of Article 2, Division 35 of the City Administrative Code, §§22.3501 et seq. (Nondiscrimination in Contracting).

## Work Force Report

### **HISTORY**

The Work Force Report (WFR) is the document that allows the City of San Diego to analyze the work forces of all firms wishing to do business with the City. We are able to compare the firm's work force data to County Labor Force Availability (CLFA) data derived from the United States Census. CLFA data is a compilation of lists of occupations and includes the percentage of each ethnicity we track (American Indian or Alaska Native, Asian, Black or African-American, Native Hawaiian or Pacific Islander, White, and Other) for each occupation. Currently, our CLFA data is taken from the 2010 Census. In order to compare one firm to another, it is important that the data we receive from the consultant firm is accurate and organized in the manner that allows for this fair comparison.

### **WORK FORCE & BRANCH WORK FORCE REPORTS**

When submitting a WFR, especially if the WFR is for a specific project or activity, we would like to have information about the firm's work force that is actually participating in the project or activity. That is, if the project is in San Diego and the work force is from San Diego, we want a San Diego County Work Force Report<sup>1</sup>. By the same token, if the project is in San Diego, but the work force is from another county, such as Orange or Riverside County, we want a Work Force Report from that county<sup>2</sup>. If participation in a San Diego project is by work forces from San Diego County and, for example, from Los Angeles County and from Sacramento County, we ask for separate Work Force Reports representing your firm from each of the three counties.

### **MANAGING OFFICE WORK FORCE**

Equal Opportunity Contracting may occasionally ask for a Managing Office Work Force (MOWF) Report. This may occur in an instance where the firm involved is a large national or international firm but the San Diego or other local work force is very small. In this case, we may ask for both a local and a MOWF Report<sup>1,3</sup>. In another case, when work is done only by the Managing Office, only the MOWF Report may be necessary.<sup>3</sup>

### **TYPES OF WORK FORCE REPORTS:**

Please note, throughout the preceding text of this page, the superscript numbers one <sup>1</sup>, two <sup>2</sup> & three <sup>3</sup>. These numbers coincide with the types of work force report required in the example. See below:

<sup>1</sup> One San Diego County (or Most Local County) Work Force –  
Mandatory in most cases

<sup>2</sup> Branch Work Force \*

<sup>3</sup> Managing Office Work Force

*\*Submit a separate Work Force Report for all participating branches.  
Combine WFRs if more than one branch per county.*

### **RACE/ETHNICITY CATEGORIES**

**American Indian or Alaska Native** – A person having origins in any of the peoples of North and South America (including Central America) and who maintains tribal affiliation or community attachment.

**Asian** – A person having origins in any of the peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

**Black or African American** – A person having origins in any of the Black racial groups of Africa.

**Native Hawaiian or Pacific Islander** – A person having origins in any of the peoples of Hawaii, Guam, Samoa, or other Pacific Islands.

**White** – A person having origins in any of the peoples of Europe, the Middle East, or North Africa.

**Hispanic or Latino** – A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin.

**Project Name:** Quince Drive Runoff and Erosion Control Improvements      **WBS No.:** B-23122.02.06

**Project Location-Specific:** The project is located along Quince Drive approximately 500 feet east of the intersection of Quince Drive and Balboa Drive within Balboa Park (Council District 3).

**Project Location-City/County:** San Diego / San Diego

**Description of nature and purpose of the Project:** A visual inspection of Quince Drive has revealed a damaged 350-foot-long section of roadway caused by subsurface water intrusion from winter and spring rain events which have also eroded the hillside immediately east of the damaged section of roadway. Quince Drive is currently closed to vehicular traffic; however, potential further erosion and movement of soil poses an immediate threat to health and safety to vehicular traffic and pedestrians.

The project will repair an approximately 350-foot-long section of roadway and adjacent eroded hillside, resurface approximately 600 linear feet of roadway, and replace an existing storm drain inlet. Roadway repairs will require replacement of an approximately 75-foot-long section of two-foot-high cobblestone retaining wall along the west shoulder of Quince Drive. The cobblestone retaining wall is eligible for historical designation and all work will be consistent with the U.S. Secretary of Interior's Standards and Guidelines. Following completion of work, all areas impacted by the emergency repair and slope failure will be restored to their pre-impact condition, including revegetation of any excavated area on the hillside. The proposed work is the minimum necessary to ensure adequate operational capacity of the roadway and ensure health and safety.

## **EXHIBIT O**

### **ADVANCED METERING INFRASTRUCTURE (AMI) DEVICE PROTECTION**

## **Protecting AMI Devices in Meter Boxes and on Street Lights**

The Public Utilities Department (PUD) has begun the installation of the Advanced Metering Infrastructure (AMI) technology as a new tool to enhance water meter reading accuracy and efficiency, customer service and billing, and to be used by individual accounts to better manage the efficient use of water. **All AMI devices shall be protected per Section 402-2, "Protection", of the 2021 Whitebook.**

AMI technology allows water meters to be read electronically rather than through direct visual inspection by PUD field staff. This will assist PUD staff and customers in managing unusual consumption patterns which could indicate leaks or meter tampering on a customer's property.

Three of the main components of an AMI system are the:

- A. Endpoints, see Photo 1:

**Photo 1**

- B. AMI Antenna attached to Endpoint (antenna not always required), see Photo 2:

---

Network Devices, see Photo 3:

AMI endpoints transmit meter information to the AMI system and will soon be on the vast majority of meters in San Diego. These AMI devices provide interval consumption data to the PUD's Customer Support Division. If these devices are damaged or communication is interrupted, this Division will be alerted of the situation. The endpoints are installed in water meter boxes, coffins, and vaults adjacent to the meter. A separate flat round antenna may also be installed through the meter box lid. This antenna is connected to the endpoint via cable. The following proper installation shall be implemented when removing the lid to avoid damaging the antenna, cable, and/or endpoint. Photo 4 below demonstrates a diagram of the connection:

**Photo 4**

The AMI device ERT/Endpoint/Transmitter shall be positioned and installed as discussed in this Appendix. If the ERT/Endpoint/Transmitter is disturbed, it shall be re-installed and returned to its original installation with the end points pointed upwards as shown below in Photo 5.

**The PUD's code compliance staff will issue citations and invoices to you for any damaged AMI devices that are not re-installed as discussed in the Contract Document**

Photo 5 below shows a typical installation of an AMI endpoint on a water meter.

**Photo 5**

Photo 6 below is an example of disturbance that shall be avoided:

**Photo 6**

**You are responsible when working in and around meter boxes.** If you encounter these endpoints, use proper care and do not disconnect them from the registers on top of the water meter. If the lid has an antenna drilled through, do not change or tamper with the lid and inform the Resident Engineer immediately about the location of that lid. Refer to Photo 7 below:

**Photo 7**

Another component of the AMI system are the Network Devices. The Network Devices are strategically placed units (mainly on street light poles) that collect interval meter reading data from multiple meters for transmission to the Department Control Computer. **If you come across any of these devices on street lights that will be removed or replaced (refer to Photos 8 and 9 below), notify AMI Project Manager Arwa Sayed at (619) 362-0121 immediately.**

Photo 8 shows an installed network device on a street light. On the back of each Network Device is a sticker with contact information. See Photo 9. **Call PUD Water Emergency Repairs at 619-515-3525 if your work will impact these street lights.** These are assets that belong to the City of San Diego and you shall be responsible for any costs of disruption of this network.

**Photo 8**

**Network Device**

**Photo 9**

**If you encounter any bad installations, disconnected/broken/buried endpoints, or inadvertently damage any AMI devices or cables, notify the Resident Engineer immediately. The Resident Engineer will then immediately contact the AMI Project Manager, Arwa Sayed, at (619) 362-0121.**
