

Bay to Bay Link

(Font: Melborne Bold)

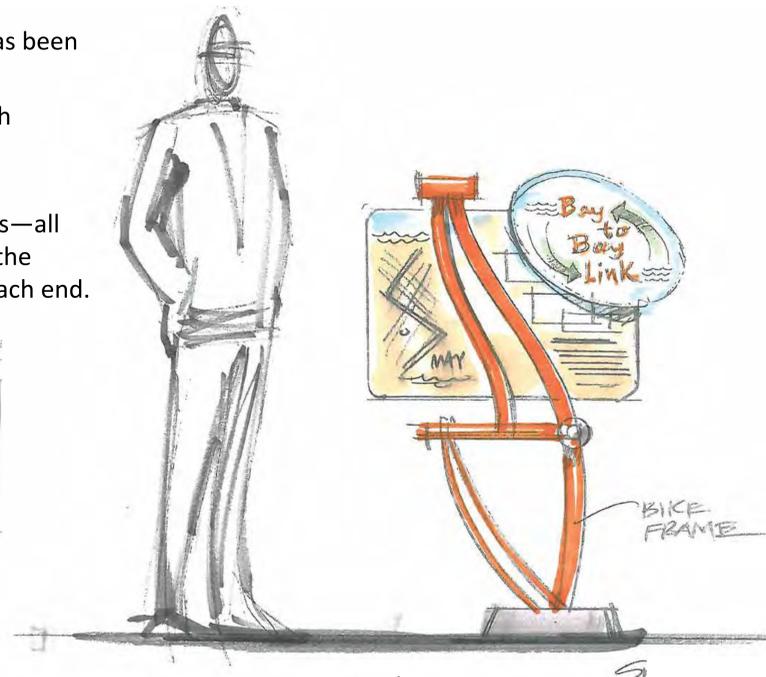

Creation of a water link between San Diego and Mission Bays has been discussed for nearly a century—and may happen someday....

Meanwhile, our Urban Greening Plan will create a land-link, with special appeal to cyclists and pedestrians.

Thematic streetscape elements, wayfinding signage, amenities designed for visitors on foot or bike, unique materials and colors—all will reinforce the attractiveness of this environment, as well as the marine and nautical features to be discovered and enjoyed at each end.
