SUBJECT: 2010 General Plan Monitoring Report

---

In 2008, the City Council adopted a comprehensive update to the City's General Plan. The City's General Plan provides the overall citywide planning policy framework. A companion item, the General Plan Action Plan, subsequently was adopted in 2009. The General Plan Action Plan provides implementation measures for the General Plan policies.

CPCI is now preparing a General Plan Monitoring Report to assess the progress on General Plan implementation. The Monitoring Report will update the status of the implementation actions in the General Plan Action Plan. Attached is a draft of Action Plan Progress Matrix, which documents the status of each action as *No Action*, *Underway*, or *Complete*. Staff will be present at the March 23rd CPC meeting to provide an informational presentation and listen to input on the working draft. Thank you.
