

**NOTICE OF PROPOSED FEE INCREASES
FOR WATER RELATED SERVICES**

September 16, 2005

Community Planning Committee Members,

The Water Department will be making a short presentation at the September 27, 2005 CPC meeting on the proposed fee increases for certain Water Department services. Department staff will be on hand to answer any questions or concerns.

The proposed fees are calculated to recover costs incurred by the Water Department for services provided and are proposed to take effect January 1, 2006. The majority of the fees relate to charges to developers for new water services and extensions to the water infrastructure. The fees relating to ratepayers, e.g. termination of service due to non payment are listed in section 15 of the attached schedule (PDF) and are highlighted in yellow.

If you have any questions, please contact David Stallman at 619-533-5315 or by email at dstallman@sandiego.gov

Frank Belock Jr.
Water Department Director
