**IV. Action**

- A. **Fat Boys Cornerstore & Deli - 3050 University Avenue (Project No. 241550)**: Proposed Conditional Use Permit (CUP) for off-sale alcohol sales (ABC Type 21 liquor license) and a Neighborhood Use Permit (NUP) for an existing sidewalk café use within the public right of way for a 1,200 square-foot neighborhood market in an existing 11,000 square-foot commercial building. The site is located within the CN-1 Zone of the Mid-City Communities Planned District. This project's CUP requires a Process Three, Hearing Officer decision (with appeal rights to the City's Planning Commission).

On January 21, 2011, the San Diego Police Department recommended denial of the application for a Type 21 liquor license because the location: is within a high crime area; is located within 100 feet of residences; and is located within 600 feet of incompatible uses. The applicant subsequently appealed the SDPD's denial. On April 5, 2011, the City's hearing officer overturned the SDPD's denial and granted the issuance of the Type 21 liquor license for the location. The SDPD continues to recommend denial of the CUP for the same reasons as stated on January 21, 2011.

- B. **AT&T - Plymouth Congregational Church (Project No. 224477)**: Neighborhood Use Permit application (Process Two) for installation of a new wireless communication facility consisting of antennas located within a new (50') tower structure within the setback with associated equipment located adjacent to the tower.

The subcommittee previously voted to recommend denial of the project at the March 7, 2011 meeting; however, the applicant has requested to present a new site design for additional consideration. The new site design includes no changes to the existing church tower; the construction of a new 40' tower to contain the new wireless communication facility; and the location of associated communications equipment in an adjacent storage room.

- C. **AT&T - The Twist (Project No. 233690)**: Modification of an existing wireless communication facility. Project proposes to remove an existing 30' tall light standard and attached panel antennas and install a new 30' tall faux pine tree with 12- 8' long panel antennas. The existing

315 square foot equipment area will be expanded by 153 square feet. The project is located at Montclair Neighborhood Park (2911 Nile St.) within the RS-1-7 Zone. The proposed project requires a Process Four Proposed Neighborhood Use Permit (NUP) and Planned Development Permit (PDP) to allow the proposed faux tree and equipment area to encroach onto a rear yard setback and to allow an equipment space greater than 250 total square feet.

- D. **Plaza de Panama - Balboa Park (Project No. 233958)**: Proposed project includes an amendment to the Balboa Park Master Plan; an amendment to the Central Mesa Precise Plan; and a Site Development Permit. The City of San Diego's 2<sup>nd</sup> Assessment Letter / Cycle Issues Report (May 25<sup>th</sup>) and recently adopted MOU will be discussed for possible action.

**V. Unfinished, New Business & Future Agenda Items**

**Next scheduled meeting date: Monday, October 3, 2011 (\*note: the September 5 subcommittee meeting will be cancelled due to the Labor Day holiday)**

**VI. Adjournment (8:00 pm)**
