Subject: City of San Diego Housing Element Annual Report 2011

I am pleased to submit the City of San Diego's Housing Element Annual Report for the calendar year 2011 in compliance with Government Code Section 65400. In order to demonstrate compliance with the Housing Element, the City must report on annual building activity of affordable units (Table A), the annual activity of housing which was rehabilitated, preserved and acquired (Table A2), the annual activity of above-moderate units (Table A3), the City progress in meeting its regional housing needs allocation (Table B), and the City's progress in its implementation of the Housing Element programs during the year 2011 (Table C).

Income restricted residential building activity is based upon units that contain recorded covenants or deed restrictions that limit rents or sale prices over a period of time. Covenants and deed restrictions are generally not recorded until sometime after building permits have been issued. Therefore, issuance of a building permit does not necessarily reflect conveyance of an affordable unit.

If you have questions about this report please contact me at (619) 533-6457 or by email at (bschoenfisch@sandiego.gov).

Sincerely,

Brian Schoenfisch
Housing Element Project Manager
