**DOCKET ITEMS:**

1. **“Mark-Up” Workshop for next round of recommendations.**

So far, planning group members have identified needed improvements of public facilities and certain infrastructure at 67 locations, using six categories including: street lights, new sidewalks, sidewalk repairs, street repaving, public amenities, and "other."

This will be a workshop-style "mark up" session with the participation of a broad segment of key community leaders for purposes of reviewing/refining the initial list and adding additional locations as indicated. Criteria for prioritizing the several type improvements will be discussed.

The Subcommittee's refined list will be docketed for the February 15th Regular Meeting of the SY Community Planning Group for action and, if adopted, forwarded to the City of San Diego and the Redevelopment Agency.

This information will be made available in alternative format upon request. To request an agenda in alternative format, to request a sign language or oral interpreter, or to request Assistive Listening Devices (ALD's) for the meeting, you must call the City of San Diego at (619) 235-5200 at least five working days prior to the meeting to insure availability.
