Title
Americans with Disabilities Act (ADA) Self-Evaluation Plan.

Purpose
The purpose of the City Self-Evaluation Plan is to ensure that all of City Department's programs, activities and services are in compliance with the Americans with Disabilities Act (P.L.101-336). This survey provides a general framework for completing the Self-Evaluation survey.

Departments are encouraged to be creative and flexible in their approach to fulfilling their ADA requirements. Because of the differences between Departmental programs, there is no single "right" way to complete the Self-Evaluation survey.

Background
In 1990 President Bush signed into law the Americans with Disabilities Act (P.L.101-336). This civil rights legislation protects the rights of people with disabilities. Title II of the ADA delineates the role of State and Local government to provide access to communications, building and facilities and programs, activities and services. Regulations implementing ADA call upon State and Local government to complete a "Self-Evaluation" of their programs, activities and services and to complete a "Transition Plan" when structural changes are necessary to make programs accessible to people with disabilities.

Timeline
The "Self-Evaluation" process which includes identification, surveying and corrective action plans are to be completed by January 26, 1993.
