

**CITY OF SAN DIEGO
M E M O R A N D U M**

DATE: December 31st, 2006

TO: Distribution

FROM: Afshin Oskoui, Deputy Director, Architectural Engineering and Contracts Division,
Engineering and Capital Projects Department

SUBJECT: Adoption of Various Standard Specifications and Drawings

Effective immediately, the City of San Diego is adopting several important design standards. References to these publications in City contract documents and drawings must read as follows:

- 1) Standard Specifications for Public Works Construction, 2006 Edition (GREENBOOK), Document No. AEC1231061
- 2) City of San Diego Supplements (to be used in conjunction with GREENBOOK), Document No. AEC1231062
- 3) City of San Diego Standard Drawings, Document No. AEC1231063
- 4) California MUTCD dated September 26th, 2006, Document No. AEC1231064

Please note that for the convenience of staff and bidders, the City Supplement Amendments and the Regional Supplement Amendments have been combined into a single manual in this cycle (see item 2).

Approximately three months will be allowed until April 1st, 2007 as a transition period for those projects in the advanced contract processing stage. After that date, all specifications and plans must reflect the new standards.

Please notify your Project Managers, Designers, Consultants and Maintenance crews of the new Manual. Copies of these documents except California MUTCD will be available for review at the Executive Complex Building, 1010 Second Avenue, Suite 500, Contract Processing. Should you have any questions or need additional information you may contact Mohsen Maali @ (619) 533-3167.
