

THE CITY OF SAN DIEGO

32nd and Harbor Drive Sewer Emergency Project **CONSTRUCTION ADVISORY**

Project 80 Percent Complete

Traffic and Parking Impact Summary Week of April 30

Where & When:

Harbor Drive South Bound – All Lanes Closed

- Full 24-hour weekday and weekend closure

Harbor Drive North Bound – One Lane Open

- Monday through Sunday

Gate 2, Harbor Drive and Belt Street – Intersection Closed

- Large delivery truck access before 4 p.m. by appointment only

Intersection of Harbor Drive and 28th Street – Traffic and Parking Impacts

- Weekdays only (7:30 a.m. to 4:30 p.m.)

Please use caution when traveling through the construction zone, follow the temporary detour signs and include additional time into your daily commute.

Why:

This project will repair the below ground vaults and replace manholes located along Harbor Drive between 28th and 32nd Street. This week, crews removed the dewatering wells and supporting structure surrounding the southern vault and backfilled the area. Crews also poured a wall between the northern vault and bridge and cleaned the two 42-inch sewer mains located between the vaults. Next week, crews will work on placing concrete caps around the two excavations, and begin installation of three 10-inch air jumpers to circulate air between the vaults.

Completion Date: The actual date of completion for this project is undetermined at this time due to unforeseen conditions below ground.

Thank you for your patience and understanding while the City completes this important emergency project. Every provision will be taken to quickly and efficiently complete the work in a timely manner. This project will restore the structural integrity of the underground sewer system, replace manholes and reduce future maintenance costs.
