

FACT SHEET

Howard Ave. – UU71

Infrastructure Projects:

- Airports
- Bikeways
- Bridges
- Drainage Control Facilities
- Flood Control Facilities
- Libraries
- Parks
- Recreation Centers
- Police Stations
- Fire Stations
- Lifeguard Stations
- Street Improvements
- Street Lights
- Traffic Signals
- Utilities Undergrounding
- Water Facilities
- Sewer Facilities
- Water Pipelines
- Sewer Pipelines

Background

The City of San Diego will be constructing numerous capital improvement projects to maintain, upgrade or replace public infrastructure and public service providing facilities within the communities of Uptown, North Park, Hillcrest, and Balboa Park in San Diego. These projects will be in construction simultaneously between early 2013 and mid-2018.

Combined, the Uptown-North Park construction projects include sewer and water replacement; facility upgrades; street striping and signal modifications; bridge reconstruction; curb ramp installation to facilitate access for persons with disabilities where required; bike lane; utilities undergrounding; and street resurfacing projects.

Project Overview

The utilities undergrounding project on Howard Ave from Park Blvd to Texas Street will convert approximately 2,697 feet of overhead power and communication lines with safer and more reliable underground systems.

Undergrounding within the boundaries of this project includes: trenching to install the conduits, preparing the electrical meters to accept the undergrounding system, trenching from the public right of way to each private meter, cabling for all utilities, transferring each meter from the overhead to the underground system, removal of lines and poles, and the resurfacing of streets.

The project scope will include the installation of 16 streetlights. Six new pedestrian curb ramps that facilitate access for people with disabilities will be updated to current City standards.

Project Schedule

Completion of Project Design: December 2015*

*All dates are approximate and subject to change.

Project Budget

The project's planning, design, and construction budget is \$1,421,848.

January 2014
