

NOTICE

From
Engineering & Capital Projects Department

CITY OF SAN DIEGO – 9491 AERO DRIVE, SAN DIEGO, CA 92123

DATE: May 25, 2005

TO: Contracting Industry

FROM: Hossein Ruhi, Deputy Director/City Engineer

SUBJECT: Testing Services for Recycled Construction Material

In the spirit of cooperation, the City of San Diego, Materials Testing Laboratory is offering its services. With the increasing use of recycled materials in construction, the City Materials Test Lab can provide testing services to

determine if recycled materials to be used on Public works projects are in conformance with the required specifications. Any recycled materials that are not supplied by an approved vendor should be tested for compliance.

To request the City of San Diego's services, please contact the Materials Test Lab directly at (858) 627-3279.

Sincerely,

Hossein Ruhi
Deputy Director, Field Engineering/City Engineer
