

Regarding the 160 acres
of City owned land that's
now occupied by Qualcomm
Stadium:

We are facing many
years of drought:

The land is sitting on
a huge aquifer (water source)
that reaches from Kearney
Mesa to North Park from the
Ocean east to San Diego
State University.

Why is the City not
considering reusing that
water source. The other
alternatives are much
more costly.

Sincerely

Mary J. Slupe
past board member of
Mission Valley Community
Council
