Present Land Use/Zoning/General Plan Designation:

Stadium/Mission Valley-Commercial-Visitor/Community Recreation and Public Recreation

Project Description: (please use a separate page if necessary)

Please see the attached.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Project Description:

City Council approval of the Stadium Reconstruction Project (“proposed project”). Project goals include replacing existing sports and recreation facilities with updated facilities to enable San Diego to continue to host premier recreation events such as NFL football games and Super Bowls, collegiate football games, family entertainment events, concerts, and meeting activities. Project elements include:

1. **Stadium Construction.** The proposed stadium would be located north of the existing trolley line, within the existing developed footprint of the Qualcomm Stadium property. It would have a minimum normal capacity of up to 68,000 seats and could be designed to expand to approximately 72,000 seats for special events. An NFL Super Bowl game would be an example of a special event that would require additional seating. The structure would be up to 1.75 million net square feet, with a structure footprint of up to 750,000 square feet. The stadium structure would have a maximum height of 250 feet above ground level including stadium lights and architectural features on the top of the structure.
2. **Stadium Demolition.** The existing Qualcomm Stadium structure with a normal capacity of approximately 71,000 seats would be subject to demolition and parking would be constructed on the existing stadium site.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X". If you have already sent your document to the agency please denote that with an "S".
