City of San Diego  
1222 First Avenue, Mail Station 501  
San Diego, California 92101

Subject: Draft Environmental Impact Report  
Stadium Reconstruction Project  
Project No. 437916

Dear Ms. Blake:

I have reviewed the historical resources aspects of the subject DEIR on behalf of this committee of the San Diego County Archaeological Society.

Based on the information contained in the DEIR and its historical resources appendices, we concur with the impact analysis and mitigation measures as proposed, with the following exception:

1. Regarding Mitigation Measure HR-3, a requirement should be added to include in the new stadium an interpretive exhibit covering the existing stadium and the prehistory and history of Mission Valley. It should include appropriate pieces of the architectural salvage identified in advance of demolition by the City's Historical Resources Board and staff, with input from the architectural historians.

Thank you for the opportunity to provide our comments on this project's environmental documents.

Sincerely,

  
James W. Royle, Jr., Chairperson  
Environmental Review Committee
