To the Citizens of District 8:

San Diego is America's Finest City!

I am proud to call District 8 home. I've grown up through the schools in District 8 and graduated from Montgomery High School. At a time when our community faces some real daunting challenges and limited resources, the citizens of District 8 need proven leadership that combines vision, practical experience and the ability to produce positive results.

Success does not come in how many big buildings we build but in the value and quality of life for the people. My background includes decades of community leadership and commitment to traditional values. I have coached Little League baseball, AYSO girl's soccer, served as a board member for Habitat for Humanity and owned my own business.

Open communication with citizens, public safety, infrastructure improvements, education, jobs and housing will be my top priorities. I promise straight talk and a large dose of common sense if I am elected as your Councilman. I am not a politician, just an ordinary citizen who is willing to serve the community which has given so much to me. May God continue to bless San Diego!
