Dear Council President Lightner and Members of the San Diego City Council,

The One Paseo Project deserves our strong support! As currently proposed, it is truly a reflection of the significant community input that has been requested by the developer and incorporated into the Project

The One Paseo Project:

- * Provides a true, walkable main street that will connect our community and complement the existing surrounding uses of retail, housing and employment center.
- * Makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved and therefore generates auto trips outside the community.
- * Will generate thousands of construction jobs as well as permanent, high paying jobs in this vital commercial corridor.
- * Incorporates new housing close to where people work.
- * Provides millions in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways.
- * Generates significant taxes and fees for the City and a boost to the local economy.
- * Sets a new standard for energy efficient and drought resistant green communities.
- * Helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives.

At hearings in October 2014, The San Diego City Planning Commission recognized that One Paseo clearly implements the goals of the General Plan's City of Villages strategy. Commissioners further said that the mixed use design aids in reducing vehicle trips and concentrates density for future transit service. As Commissioner Anthony Wagner stated, "Multi-modal transportation opportunities need to be seen through a lens of tomorrow, rather than today." This One Paseo will help bring such opportunities to Carmel Valley. Thank you for taking the time to hear from the community. I would like to urge your vote to approve the One Paseo project. Your time and consideration are both much appreciated.

Sincerely,

Dawn Diley

Subject: One Paseo will invest in Carmel Valley and our region
Date: Friday, February 20, 2015 6:29:14 PM

Dear Council President Lightner and Members of the San Diego City Council,

One Paseo makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved.

The Revised One Paseo Project:

- * Provides a true, walkable main street environment that will connect the community and complement the existing surrounding uses of retail, housing and offices
- * Will generate \$630 million in new direct economic impact
- * Will create 3800 new construction jobs and 1590 new permanent jobs resulting in more than \$154 million annually in new job wages
- * Generates significant taxes and fees for the City and a boost to the local economy that help fund vital public services including our schools and affordable housing
- * Provides more than \$8 million in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways

In addition to job creation and economic benefit, One Paseo helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives. I strongly urge the City Council to APPROVE this One Paseo.

Sincerely,

Dear Council President Lightner and Members of the San Diego City Council,

The One Paseo Project has my strong support and it deserves yours! As currently proposed, it is truly a reflection of the significant community input that has been requested by the developer and incorporated into the Project

I work across the street from the site and I am excited by the proposed project. It is exactly the sort of forward thinking project that will help San Diego to thoughtfully grow. I am excited by the proposed mixed use at the site and I believe that it will be a wonderful addition to the area and the County.

I urge you to reject NIMBYism and to approve the project as proposed.

Sincerely,

Greg Markow

Subject: One Paseo implements the General Plan's City of Villages strategy!
Date: Saturday, February 21, 2015 5:50:30 PM

Dear Council President Lightner and Members of the San Diego City Council,

I am writing in strong support of the Revised One Paseo Project. As one of the most significant investments in green design, One Paseo will provide a stylish and sustainable neighborhood village in the heart of Carmel Valley.

One Paseo's developer, Kilroy Realty Corporation has demonstrated its leadership in sustainable design and has been ranked first in sustainability among 151 North American real estate companies and fifth worldwide by the Global Real Estate Sustainability Benchmark (GRESB). GRESB is widely recognized as the most rigorous standard for measuring the sustainability performance of real estate companies and funds. The company's commitment to green design is further demonstrated with its impressive and thoughtful design of One Paseo.

This project will make great use of a long-vacant site to provide usable, public green space, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved and therefore generates auto trips outside the community. In addition, One Paseo also incorporates a new bike network that is accessible and safe for riders.

At hearings in October 2014, The San Diego City Planning Commission recognized that One Paseo clearly implements the goals of the General Plan's "City of Villages" strategy. Commissioners further said that the mixed use design aids in reducing vehicle trips and concentrates density for future transit service. As Planning Commissioner Theresa Quiroz said, "We need infill development. That infill development is the City of Villages concept. And this is, without a doubt, a City of Village in the best way that our General Plan has tried to set out. [One Paseo] is a great way for us to be able to say to people this is what our community – our general plan is looking for."

As our population continues to grow in San Diego, it is important that we do all we can to encourage infill development and energy- and water-efficient design. One Paseo will set a new standard in San Diego and I would like to urge you to approve THIS One Paseo project.

Sincerely,

Steve CodrarO

Dear Council President Lightner and Members of the San Diego City Council,

The One Paseo Project deserves our strong support! As currently proposed, it is truly a reflection of the significant community input that has been requested by the developer and incorporated into the Project

The One Paseo Project:

- * Provides a true, walkable main street that will connect our community and complement the existing surrounding uses of retail, housing and employment center.
- * Makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved and therefore generates auto trips outside the community.
- * Will generate thousands of construction jobs as well as permanent, high paying jobs in this vital commercial corridor.
- * Incorporates new housing close to where people work.
- * Provides millions in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways.
- * Generates significant taxes and fees for the City and a boost to the local economy.
- * Sets a new standard for energy efficient and drought resistant green communities.
- * Helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives.

At hearings in October 2014, The San Diego City Planning Commission recognized that One Paseo clearly implements the goals of the General Plan's City of Villages strategy. Commissioners further said that the mixed use design aids in reducing vehicle trips and concentrates density for future transit service. As Commissioner Anthony Wagner stated, "Multi-modal transportation opportunities need to be seen through a lens of tomorrow, rather than today." This One Paseo will help bring such opportunities to Carmel Valley. Thank you for taking the time to hear from the community. I would like to urge your vote to approve the One Paseo project. Your time and consideration are both much appreciated.

Sincerely,

Aaron Grubbs

Dear Council President Lightner and Members of the San Diego City Council,

The One Paseo Project deserves our strong support! However, can we please design a complex that uses NO STUCCO. Stucco is mud and we the people of San Diego deserve better than to live in mud huts.

The One Paseo Project:

- * Provides a true, walkable main street that will connect our community and complement the existing surrounding uses of retail, housing and employment center.

Subject: One Paseo will invest in Carmel Valley and our region
Date: Saturday, February 21, 2015 10:26:29 AM

Dear Council President Lightner and Members of the San Diego City Council,

One Paseo makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved.

The Revised One Paseo Project:

- * Provides a true, walkable main street environment that will connect the community and complement the existing surrounding uses of retail, housing and offices
- * Will generate \$630 million in new direct economic impact
- * Will create 3800 new construction jobs and 1590 new permanent jobs resulting in more than \$154 million annually in new job wages
- * Generates significant taxes and fees for the City and a boost to the local economy that help fund vital public services including our schools and affordable housing
- * Provides more than \$8 million in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways

In addition to job creation and economic benefit, One Paseo helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives. I strongly urge the City Council to APPROVE this One Paseo.

Sincerely,

Zac Scornavacco

Hello,

My name is Kim Woodruff; I am a native San Diegan and have lived in various parts of San Diego throughout my life. I would like to tell you why I am in favor of The One Paseo development and why it deserves 100% of your support!

Having lived in San Diego for 50 years, I can tell you that I have seen growth beyond my wildest imagination and that growth has given way to great developments! The developments have proven to be very valuable to each and every community where they have been built!

Growth is inevitable and can't be stopped! We live in one of the most desirable states in America and each day another person moves here, we can't stop people from moving here, so we must build to accommodate them!

Some people refuse to imagine a development like One Paseo in Carmel Valley, those individuals should venture out to various communities where new developments have been built and they will see first hand how new developments have proven to benefit and bring value to that community, not hurt it!

Like I Said, growth is inevitable, if One Paseo isn't approved, something will be built there and Carmel Valley will have missed the boat on all of the benefits that could have been!!

One Paseo will prove to be a wonderful development that Carmel Valley will be proud of and the benefits will be immeasurable!

Thank you,
Kim Woodruff
