Subject: Reject One Paseo - Project 193036
Date: Sunday, February 22, 2015 1:47:07 PM

Dear Council President Lightner,

I am writing to convey my opposition to Kilroy Realty's One Paseo project proposed for the corner of Del Mar Heights Road and El Camino Real. This project will, without a doubt, have severe impacts on our quality of life, our traffic and the character of our community.

My view is just one among the thousands of San Diegans who oppose THIS One Paseo.

There are also a number of high-profile community organizations who reject this oversized project. The community planning groups of Carmel Valley, Torrey Pines and Del Mar Mesa have all rejected One Paseo, as did the San Diego Planning Commission. County Supervisor Dave Roberts has spoken out against One Paseo's bulk and scale and Bike San Diego has called the project bad for bicycling. Furthermore, more than 6,000 of my friends and neighbors have joined the What Price Main Street? coalition, creating a united community voice in opposition of the project.

While a more appropriately sized mixed-use project could benefit our community, THIS One Paseo is just too large.

I ask you to reject this project outright.

Sincerely,
Sudarshanam Akkala

Subject: Reject One Paseo - Project 193036
Date: Sunday, February 22, 2015 11:55:57 AM

Dear Council President Lightner,

My neighborhood is a sea of blue and yellow signs. I have never seen everyone come out so strongly.

I am writing in opposition to Kilroy Realty's proposed One Paseo project.

I usually favor development, and I voted in favor of the ballpark downtown development a decade ago. But this project is absurd. The community doesn't need it. It is designed for one thing only, and that is to maximize profits for Kilroy.

Kilroy will fight tooth and nail for their profits. I know the city council is tough enough not to be snowed by them once you see this project for what it is.

I strongly urge you to reject THIS One Paseo and tell Kilroy to work with the community to propose an appropriately sized project. I would enjoy walking to shops and restaurants, and I look forward to a suitable development in that location.

Sincerely,

Dr. Marian Stewart Bartlett

Subject: I urge you to support One Paseo!
Date: Sunday, February 22, 2015 3:36:01 PM

Dear Council President Lightner and Members of the San Diego City Council,

The One Paseo Project deserves our strong support! As currently proposed, it is truly a reflection of the significant community input that has been requested by the developer and incorporated into the Project

The One Paseo Project:

- * Provides a true, walkable main street that will connect our community and complement the existing surrounding uses of retail, housing and employment center.
- * Makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved and therefore generates auto trips outside the community.
- * Will generate thousands of construction jobs as well as permanent, high paying jobs in this vital commercial corridor.
- * Incorporates new housing close to where people work.
- * Provides millions in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways.
- * Generates significant taxes and fees for the City and a boost to the local economy.
- * Sets a new standard for energy efficient and drought resistant green communities.
- * Helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives.

At hearings in October 2014, The San Diego City Planning Commission recognized that One Paseo clearly implements the goals of the General Plan's City of Villages strategy. Commissioners further said that the mixed use design aids in reducing vehicle trips and concentrates density for future transit service. As Commissioner Anthony Wagner stated, "Multi-modal transportation opportunities need to be seen through a lens of tomorrow, rather than today." This One Paseo will help bring such opportunities to Carmel Valley. Thank you for taking the time to hear from the community. I would like to urge your vote to approve the One Paseo project. Your time and consideration are both much appreciated.

Sincerely,

Subject: Reject One Paseo - Project 193036
Date: Sunday, February 22, 2015 9:25:56 AM

Dear Council President Lightner,

Development requires several different interconnected elements to truly be considered "smart growth." One Paseo is not smart growth development. Although it has been marketed as smart growth, an honest examination of the project shows that One Paseo is not the type of bikeable, walkable, transit-oriented development San Diego deserves.

One Paseo will add 24,000 new car trips daily on our roads, further deterring residents from biking and walking in the community. Expanding Del Mar Heights Road to nine lanes will mean faster-moving cars and dangerous conditions for both cyclists and pedestrians. The proposed "cycletrack" will offer inadequate protection to those cycling in the area, as it will run for just a few hundred yards on one side of Del Mar Heights Road. Bike San Diego, the group working to transform San Diego into the world's best city for bicycling, has called One Paseo "bad for bicycling."

One Paseo is not planned to have nearby mass transit until 2035, if ever. It is not located near accessible and convenient mass transit options, and is not currently served by mass transit. The truth is that, as proposed, people from Carmel Valley and the surrounding neighborhoods will have to drive to One Paseo. The developer has proposed quadrupling the average daily car trips allowed for the site because this project is a car-centric development.

I'm asking you to please reject One Paseo because it isn't true "smart growth development." We need to promote smart growth in San Diego, but One Paseo perpetuates urban sprawl and congestion in a suburban neighborhood. A smaller project that does not clog our streets, aligns with transit-oriented principles, and truly promotes walking and biking options in our community should be proposed for this site.

Thank you for your consideration.

Sincerely,

Tracy Bennett

Subject: Reject One Paseo - Project 193036
Date: Sunday, February 22, 2015 9:10:22 AM

Dear Council President Lightner,

I am gravely concerned about Kilroy Realty's proposed One Paseo project, and I'm writing today to share with you my concerns about the negative impacts this project will bring to Carmel Valley.

I am especially concerned about the impacts to traffic congestion in the area, given that One Paseo will increase traffic by 370 percent and add nearly 24,000 daily car trips to our roads. All of this will lead to gridlock, especially given that the effectiveness of the proposed traffic light synchronization system has not been proven, nor has Caltrans or the City committed to its implementation. In fact, the project's Environmental Impact Report shows significant, unmitigated impacts to eight intersections and road segments. Furthermore, traffic relief near the project site depends on new freeway connectors that will not be built until 2030, if ever.

The majority of our community believes that THIS One Paseo is too large for the neighborhood. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as the San Diego Planning Commission, have already rejected One Paseo. I'm standing with more than 6,000 members of my community to oppose the project and urge you to reject it.

Please don't consign Carmel Valley to a future of extreme congestion and hair-pulling traffic jams. Reject One Paseo and ask Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

Anthony and Betty Bulich

Dear Council President Lightner,

We do not have a direct a democracy here in San Diego. Instead, we, the people, elect representatives. Essentially, they have two duties: 1) to reflect accurately the exact preferences of their constituents and 2) to make decision that may *not* reflect the exact nature of their constituents, but instead make choices for the greater good.

Historians have clearly shown the significant political influence held by those involved in buying, selling, and developing real estate. In some cases, they have brought reasonable growth to our city, but all too often they have not: profits generally drive their investments, not the character of our city.

I ask you to resist them this time. From what literature and testimony I have been able to gather, the development at One Paseo is not about making our community better. It generates a great many social "bads" and, at the end of the day, few social "goods."

Please take the sacred trust your voters have placed in your hands to make a decision that is best for our community, not interest groups, reelection bids, or possible tax revenues, etc.

Sincerely,

Clark Gibson

Dear Council President Lightner,

I am writing in opposition to Kilroy Realty's proposed One Paseo project.

The significant negative impacts that One Paseo will have on our traffic congestion and community character are very concerning. One Paseo is not appropriate to suburban Carmel Valley, with its 1.45 million square feet of development on just 23.6 acres of land, buildings as tall as 150 feet, and a density similar to Horton Plaza downtown.

This is NOT smart or transit-oriented development. It adds 24,000 new cars daily to our roads, without access to mass transit until at least 2035. One Paseo requires nearby streets to be widened, creating dangerous and unappealing conditions for cyclists and pedestrians. Even Caltrans has said it is unclear if the project fits the region's smart growth principles.

The San Diego Planning Commission couldn't approve this project. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards rejected this project outright. I'm standing with these groups in asking you to say "NO" to One Paseo.

The entire community could benefit from an appropriately sized mixed-use project, but THIS One Paseo is just too large, too dense and creates too much traffic. Kilroy has repeatedly ignored our concerns and our request for a project that fits our community.

I strongly urge you to reject THIS One Paseo and tell Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

Mr. Mike Demko

Dear Council President Lightner,

I oppose Kilroy Realty's One Paseo project. As a resident who lives near the proposed project, I feel that THIS One Paseo poses a significant threat to our community character, and urge you to reject it outright.

One Paseo will tower over our community, standing nearly 100 feet taller than nearby buildings. With a density similar to Horton Plaza and two 150-foot buildings, the project will cram urban development and heights into our suburban neighborhood. At 1.45 million square feet, One Paseo will be more than five times the size of Del Mar Highlands Town Center, and one of the densest mixed-use projects in California. It belongs downtown, not in Carmel Valley.

Put simply, this is not the "main street" the project has been advertised to be. The size and scale of this project are in direct conflict with our community. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as San Diego Planning Commission, have already rejected One Paseo. Together with more than 6,000 members of my community, I ask you to reject this project when it comes before City Council.

Sincerely,

Subject: Reject One Paseo - Project 193036
Date: Sunday, February 22, 2015 8:40:35 PM

Dear Council President Lightner,

I am writing in opposition to Kilroy Realty's proposed One Paseo project.

The significant negative impacts that One Paseo will have on our traffic congestion and community character are very concerning. One Paseo is not appropriate to suburban Carmel Valley, with its 1.45 million square feet of development on just 23.6 acres of land, buildings as tall as 150 feet, and a density similar to Horton Plaza downtown.

This is NOT smart or transit-oriented development. It adds 24,000 new cars daily to our roads, without access to mass transit until at least 2035. One Paseo requires nearby streets to be widened, creating dangerous and unappealing conditions for cyclists and pedestrians. Even Caltrans has said it is unclear if the project fits the region's smart growth principles.

The San Diego Planning Commission couldn't approve this project. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards rejected this project outright. I'm standing with these groups in asking you to say "NO" to One Paseo.

The entire community could benefit from an appropriately sized mixed-use project, but THIS One Paseo is just too large, too dense and creates too much traffic. Kilroy has repeatedly ignored our concerns and our request for a project that fits our community.

I strongly urge you to reject THIS One Paseo and tell Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

Dr. Evelynne

Subject: Reject One Paseo - Project 193036

Dear Council President Lightner,

Development requires several different interconnected elements to truly be considered "smart growth." One Paseo is not smart growth development. Although it has been marketed as smart growth, an honest examination of the project shows that One Paseo is not the type of bikeable, walkable, transit-oriented development San Diego deserves.

One Paseo will add 24,000 new car trips daily on our roads, further deterring residents from biking and walking in the community. Expanding Del Mar Heights Road to nine lanes will mean faster-moving cars and dangerous conditions for both cyclists and pedestrians. The proposed "cycletrack" will offer inadequate protection to those cycling in the area, as it will run for just a few hundred yards on one side of Del Mar Heights Road. Bike San Diego, the group working to transform San Diego into the world's best city for bicycling, has called One Paseo "bad for bicycling."

One Paseo is not planned to have nearby mass transit until 2035, if ever. It is not located near accessible and convenient mass transit options, and is not currently served by mass transit. The truth is that, as proposed, people from Carmel Valley and the surrounding neighborhoods will have to drive to One Paseo. The developer has proposed quadrupling the average daily car trips allowed for the site because this project is a car-centric development.

I'm asking you to please reject One Paseo because it isn't true "smart growth development." We need to promote smart growth in San Diego, but One Paseo perpetuates urban sprawl and congestion in a suburban neighborhood. A smaller project that does not clog our streets, aligns with transit-oriented principles, and truly promotes walking and biking options in our community should be proposed for this site.

Thank you for your consideration.

Subject: Reject One Paseo - Project 193036

Dear Council President Lightner,

I am writing to share my concerns with Kilroy Realty's proposed One Paseo project. While the project is planned for the corner of Del Mar Heights Road and El Camino Real in Carmel Valley, the impacts of this oversized development would extend into surrounding communities. As a resident who lives near the proposed project, I feel that THIS One Paseo poses a significant threat to our community character; I oppose Kilroy Realty's One Paseo project and urge you to reject it outright.

One Paseo will tower over our community, standing nearly 100 feet taller than nearby buildings. With a density similar to Horton Plaza and two 150-foot buildings, the project will cram urban development and heights into our suburban neighborhood. At 1.45 million square feet, One Paseo will be more than five times the size of Del Mar Highlands Town Center, and one of the densest mixed-use projects in California. It belongs downtown, not in Carmel Valley.

I am particularly concerned about the 24,000 daily car trips that One Paseo will add to our roads, increasing traffic by 370 percent and negatively affecting roadways up to 3.5 miles away from the site! An unmitigated increase of this kind will cause back-ups throughout Carmel Valley and surrounding communities, especially considering that traffic relief near the project site depends on new freeway connectors that will not be built until 2030, if ever.

Additionally, the significant increase in traffic volume will increase emergency response times, creating the potential for dangerous or even life-threatening situations.

Furthermore, I am a proponent of smart growth in our region. However, One Paseo lacks the key criteria for smart growth: mass transit. Density of this scale needs to be located within walking distance of an established transit hub to create a genuine smart-growth project. If approved, the project will be built two decades in advance of the planned transit line, which is the opposite of smart development.

The simple fact of the matter is that, as proposed, One Paseo is not only TOO large for Carmel Valley, it's also misplaced in our region. One Paseo has already been rejected by the Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as the San Diego Planning Commission. When the matter comes before the City Council, please reject THIS One Paseo.

Sincerely,

Sara Fan

Subject: I urge you to support One Paseo!
Date: Sunday, February 22, 2015 11:36:09 AM

Dear Council President Lightner and Members of the San Diego City Council,

The One Paseo Project deserves our strong support! As currently proposed, it is truly a reflection of the significant community input that has been requested by the developer and incorporated into the Project

The One Paseo Project:

- * Provides a true, walkable main street that will connect our community and complement the existing surrounding uses of retail, housing and employment center.
- * Makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved and therefore generates auto trips outside the community.
- * Will generate thousands of construction jobs as well as permanent, high paying jobs in this vital commercial corridor.
- * Incorporates new housing close to where people work.
- * Provides millions in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways.
- * Generates significant taxes and fees for the City and a boost to the local economy.
- * Sets a new standard for energy efficient and drought resistant green communities.
- * Helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives.

At hearings in October 2014, The San Diego City Planning Commission recognized that One Paseo clearly implements the goals of the General Plan's City of Villages strategy. Commissioners further said that the mixed use design aids in reducing vehicle trips and concentrates density for future transit service. As Commissioner Anthony Wagner stated, "Multi-modal transportation opportunities need to be seen through a lens of tomorrow, rather than today." This One Paseo will help bring such opportunities to Carmel Valley. Thank you for taking the time to hear from the community. I would like to urge your vote to approve the One Paseo project. Your time and consideration are both much appreciated.

One Paseo Zoning Exception Will Endanger Children Attending Solana Highlands Elementary

I am writing as a 27-year resident of Carmel Valley. Clearly 9 of 10 Carmel Valley residents are against granting the massive zoning-size exceptions requested in the current One Paseo proposal because of the dramatic change in character and intense traffic related problems that are certain to result. I will share one specific unmitigated, and unstudied, traffic overflow issue that will result in the endangerment of children, ages 5 to 11, attending Solana Highlands elementary school on High Bluff Road.

The EIR prepared for the proposed massive zoning/Community Plan changes required to accommodate the 3.5X current zoning-size limits of the proposed Kilroy Realty (\$6 billion company) One Paseo project indicates plans for the addition of a second left turn lane from eastbound Del Mar Heights Rd. to northbound High Bluff Dr. (one block from the Highway 5 entrance heading east). This second left turn lane will generate substantial increased traffic through our neighborhood as the result of the heavy traffic and congestion which is certain to result on Del Mar Heights Rd. (projected traffic will increase to 25,000 cars/day vs. 6,000 at present, plus additional stoplights to further slow/control traffic). The EIR for the One Paseo project did not even study or address this possibility, even though requested. This increased traffic through our neighborhood will result because homeowners just east of our neighborhood (east of El Camino Real), near Torrey Pines H.S., will use High Bluff as their primary route into and out of their neighborhood vs. Del Mar Heights Rd. in order to avoid delays and traffic congestion. We have seen this for years on the busiest County Fair attendance days (Del Mar Heights Rd. becomes congested because of parking at Torrey Pines H. S.)

The reason this overflow traffic will endanger children: As additional traffic travels north on High Bluff, the very first intersection you come to is where Solana Highlands elementary school is located- children ages 5 to 11. This road is already a delicate one to travel during school hours, but if you add any measure of new traffic, you will create a dangerous environment for these children. The increased traffic will result in cries for stop-lights and speed bumps, and God help us all if even one child gets hurt. The increased traffic and likely need to install stop-lights all along High Bluff will forever destroy the character, safety and home values in this neighborhood. Importantly, the current Community Plan prohibits making High Bluff Rd. a thoroughfare. But alas, if City Council grants Kilroy Realty such rights to change our Community and Neighborhood Plan, all 1100 homeowners must suffer the consequences, as well as parents with children attending Solana Highlands, and most importantly, the safety of the children themselves will be impacted. Let's hope our elected City Council members do the right thing and not grant the massive exceptions to existing zoning-size laws and Community Plans for the proposed, oversized, One Paseo.

Subject: Reject One Paseo - Project 193036

Dear Council President Lightner,

I am concerned about Kilroy Realty's proposed One Paseo project, and I'm writing today to share with you my concerns about the negative impacts that this project will bring to Carmel Valley.

I am especially concerned about the impacts to traffic congestion in the area, given that One Paseo will increase traffic by 370 percent and add nearly 24,000 daily car trips to our roads. All of this will lead to gridlock, especially given that the effectiveness of the proposed traffic light synchronization system has not been proven, nor has Caltrans or the City committed to its implementation. In fact, the project's Environmental Impact Report shows significant, unmitigated impacts to eight intersections and road segments. Furthermore, traffic relief near the project site depends on new freeway connectors that will not be built until 2030, if ever.

The majority of our community believes that THIS One Paseo is too large for the neighborhood. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as the San Diego Planning Commission, have already rejected One Paseo. I'm standing with more than 6,000 members of my community to oppose the project and urge you to reject it.

Please don't consign Carmel Valley to a future of extreme congestion and hair-pulling traffic jams. Reject One Paseo and ask Kilroy to work with the community to propose an appropriately sized project.

Sincerely,
Phanat Hean

Subject: Reject One Paseo - Project 193036

Dear Council President Lightner,

I am writing in opposition to Kilroy Realty's proposed One Paseo project.

The significant negative impacts that One Paseo will have on our traffic congestion and community character are very concerning. One Paseo is not appropriate to suburban Carmel Valley, with its 1.45 million square feet of development on just 23.6 acres of land, buildings as tall as 150 feet, and a density similar to Horton Plaza downtown.

This is NOT smart or transit-oriented development. It adds 24,000 new cars daily to our roads, without access to mass transit until at least 2035. One Paseo requires nearby streets to be widened, creating dangerous and unappealing conditions for cyclists and pedestrians. Even Caltrans has said it is unclear if the project fits the region's smart growth principles.

The San Diego Planning Commission couldn't approve this project. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards rejected this project outright. I'm standing with these groups in asking you to say "NO" to One Paseo.

The entire community could benefit from an appropriately sized mixed-use project, but THIS One Paseo is just too large, too dense and creates too much traffic. Kilroy has repeatedly ignored our concerns and our request for a project that fits our community.

I strongly urge you to reject THIS One Paseo and tell Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

Herman Kuemmerle

Subject: Reject One Paseo - Project 193036

Dear Council President Lightner,

I am writing in opposition to Kilroy Realty's proposed One Paseo project.

The significant negative impacts that One Paseo will have on our traffic congestion and community character are very concerning. One Paseo is not appropriate to suburban Carmel Valley, with its 1.45 million square feet of development on just 23.6 acres of land, buildings as tall as 150 feet, and a density similar to Horton Plaza downtown.

This is NOT smart or transit-oriented development. It adds 24,000 new cars daily to our roads, without access to mass transit until at least 2035. One Paseo requires nearby streets to be widened, creating dangerous and unappealing conditions for cyclists and pedestrians. Even Caltrans has said it is unclear if the project fits the region's smart growth principles.

The San Diego Planning Commission couldn't approve this project. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards rejected this project outright. I'm standing with these groups in asking you to say "NO" to One Paseo.

The entire community could benefit from an appropriately sized mixed-use project, but THIS One Paseo is just too large, too dense and creates too much traffic. Kilroy has repeatedly ignored our concerns and our request for a project that fits our community.

I strongly urge you to reject THIS One Paseo and tell Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

Herman Kuemmerle

Subject: Reject One Paseo - Project 193036
Date: Sunday, February 22, 2015 12:27:31 PM

Dear Council President Lightner,

I am gravely concerned about Kilroy Realty's proposed One Paseo project, and I'm writing today to share with you my concerns about the negative impacts this project will bring to Carmel Valley.

I am especially concerned about the impacts to traffic congestion in the area, given that One Paseo will increase traffic by 370 percent and add nearly 24,000 daily car trips to our roads. All of this will lead to gridlock, especially given that the effectiveness of the proposed traffic light synchronization system has not been proven, nor has Caltrans or the City committed to its implementation. In fact, the project's Environmental Impact Report shows significant, unmitigated impacts to eight intersections and road segments. Furthermore, traffic relief near the project site depends on new freeway connectors that will not be built until 2030, if ever.

The majority of our community believes that THIS One Paseo is too large for the neighborhood. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as the San Diego Planning Commission, have already rejected One Paseo. I'm standing with more than 6,000 members of my community to oppose the project and urge you to reject it.

Please don't consign Carmel Valley to a future of extreme congestion and hair-pulling traffic jams. Reject One Paseo and ask Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

George Lai

Subject: I urge you to support One Paseo!
Date: Sunday, February 22, 2015 4:27:05 PM

Dear Council President Lightner and Members of the San Diego City Council,

The One Paseo Project deserves our strong support! As currently proposed, it is truly a reflection of the significant community input that has been requested by the developer and incorporated into the Project

The One Paseo Project:

- * Provides a true, walkable main street that will connect our community and complement the existing surrounding uses of retail, housing and employment center.
- * Makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved and therefore generates auto trips outside the community.
- * Will generate thousands of construction jobs as well as permanent, high paying jobs in this vital commercial corridor.
- * Incorporates new housing close to where people work.
- * Provides millions in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways.
- * Generates significant taxes and fees for the City and a boost to the local economy.
- * Sets a new standard for energy efficient and drought resistant green communities.
- * Helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives.

At hearings in October 2014, The San Diego City Planning Commission recognized that One Paseo clearly implements the goals of the General Plan's City of Villages strategy. Commissioners further said that the mixed use design aids in reducing vehicle trips and concentrates density for future transit service. As Commissioner Anthony Wagner stated, "Multi-modal transportation opportunities need to be seen through a lens of tomorrow, rather than today." This One Paseo will help bring such opportunities to Carmel Valley. Thank you for taking the time to hear from the community. I would like to urge your vote to approve the One Paseo project. Your time and consideration are both much appreciated.

Sincerely,

Eric Linxwiler

Date: Sunday, February 22, 2015 2:27:21 PM

Dear Council Member,

I am opposed to the One Paseo project proposed for Carmel Valley, my neighborhood. I believe it is too big and does not reflect the needs or character of this area. My concerns are for the increased traffic, delays in receiving emergency services (911 calls), the increased demands on our schools, and the aesthetics of such a large project. I am also opposed on principle. The area being considered is zoned for a project much less dense and I resent Kilroy's attempts to override the limits.

Please vote to stop this One Paseo. Thank you.

Subject: Reject One Paseo - Project 193036
Date: Sunday, February 22, 2015 3:58:52 PM

Dear Council President Lightner,

Development requires several different interconnected elements to truly be considered "smart growth." One Paseo is not smart growth development. Although it has been marketed as smart growth, an honest examination of the project shows that One Paseo is not the type of bikeable, walkable, transit-oriented development San Diego deserves.

One Paseo will add 24,000 new car trips daily on our roads, further deterring residents from biking and walking in the community. Expanding Del Mar Heights Road to nine lanes will mean faster-moving cars and dangerous conditions for both cyclists and pedestrians. The proposed "cycletrack" will offer inadequate protection to those cycling in the area, as it will run for just a few hundred yards on one side of Del Mar Heights Road. Bike San Diego, the group working to transform San Diego into the world's best city for bicycling, has called One Paseo "bad for bicycling."

One Paseo is not planned to have nearby mass transit until 2035, if ever. It is not located near accessible and convenient mass transit options, and is not currently served by mass transit. The truth is that, as proposed, people from Carmel Valley and the surrounding neighborhoods will have to drive to One Paseo. The developer has proposed quadrupling the average daily car trips allowed for the site because this project is a car-centric development.

I'm asking you to please reject One Paseo because it isn't true "smart growth development." We need to promote smart growth in San Diego, but One Paseo perpetuates urban sprawl and congestion in a suburban neighborhood. A smaller project that does not clog our streets, aligns with transit-oriented principles, and truly promotes walking and biking options in our community should be proposed for this site.

Thank you for your consideration.

Sincerely,

Ms. Erica Pascal

Date: Sunday, February 22, 2015 8:38:59 PM

Dear Council President Lightner,

I am writing to convey my opposition to Kilroy Realty's One Paseo project proposed for the corner of Del Mar Heights Road and El Camino Real. This project will, without a doubt, have severe impacts on our quality of life, our traffic and the character of our community.

My view is just one among the thousands of San Diegans who oppose THIS One Paseo.

There are also a number of high-profile community organizations who reject this oversized project. The community planning groups of Carmel Valley, Torrey Pines and Del Mar Mesa have all rejected One Paseo, as did the San Diego Planning Commission. County Supervisor Dave Roberts has spoken out against One Paseo's bulk and scale and Bike San Diego has called the project bad for bicycling. Furthermore, more than 6,000 of my friends and neighbors have joined the What Price Main Street? coalition, creating a united community voice in opposition of the project.

While a more appropriately sized mixed-use project could benefit our community, THIS One Paseo is just too large.

I ask you to reject this project outright.

Sincerely,

Mr. Pierre

Subject: Reject One Paseo - Project 193036
Date: Sunday, February 22, 2015 1:41:38 PM

Dear Council President Lightner,

I am writing to share my concerns with Kilroy Realty's proposed One Paseo project. While the project is planned for the corner of Del Mar Heights Road and El Camino Real in Carmel Valley, the impacts of this oversized development would extend into surrounding communities.

IT IS TIME TO STOP THE BUYOUT OF THE CITY BY GREEDY DEVELOPERS. IT IS THE TO HONOR REGIONAL DEVELOPMENT PLANS WHICH RESPECT OPEN SPACE, NEIGHBORHOOD AMENITIES TRAFFIC AND NATURAL RESOURCES.

IT IS BAD ENOUGH THE COUNCIL IGNORED THE RULES AND REGULATIONS PUT FORTH IN A DEVELOPMENT PLAN AT THE DEL MAR HEIGHTS/CARMEL VALLEY INTERSECTIONS. THAT PLAN REQUIRED A CONNECTION FROM THE 56 WEST TO THE I5 NORTH TO BE COMPLETED BEFORE FURTHER DEVELOPMENT OF THE PROPERTY AT THAT JUNCTION. THE DENSITY OF THE CARMEL VALLEY ROAD DEVELOPMENT IS FAR TO GREAT FOR THE ROADS AND HIGHWAY ACCESS IN THE AREA.

IT IS ABHORRENT THAT A DEVELOPER WAS ABLE TO BUY OFF THE CITY TO INCREASE BY SUBSTANTIAL AMOUNTS THE RESIDENTIAL DEVELOPMENT IN A DESIGNATED OPEN SPACE PLAN IN THE CARMEL VALLEY AREA. IT IS ABHORRENT THAT THESE DEVELOPERS ARE ABLE TO BUILD WITHOUT SIGNIFICANT GIVEBACKS TO THE CITY SUCH AS NATURAL OPEN SPACE AND RECREATION.

I am particularly concerned about the 24,000 daily car trips that One Paseo will add to our roads, increasing traffic by 370 percent and negatively affecting roadways up to 3.5 miles away from the site! An unmitigated increase of this kind will cause back-ups throughout Carmel Valley and surrounding communities, especially considering that traffic relief near the project site depends on new freeway connectors that will not be built until 2030, if ever.

I travel to and from work each day through this area, and it will be nightmare.

Additionally, the significant increase in traffic volume will increase emergency response times, creating the potential for dangerous or even life-threatening situations.

Furthermore, I am a proponent of smart growth in our region. However, One Paseo lacks the key criteria for smart growth: mass transit. Density of this scale needs to be located within walking distance of an established transit hub to create a genuine smart-growth project. If approved, the project will be built two decades in advance of the planned transit line, which is the opposite of smart development.

The simple fact of the matter is that, as proposed, One Paseo is not only TOO large for Carmel Valley, it's also misplaced in our region. One Paseo has already been rejected by the Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as the San Diego Planning Commission. When the matter comes before the City Council, please reject THIS One Paseo.

Sincerely,

Cheryl Phillips Raiken

Date: Sunday, February 22, 2015 12:34:26 PM

Dear Council President Lightner,

I oppose Kilroy Realty's One Paseo project. As a resident who lives near the proposed project, I feel that THIS One Paseo poses a significant threat to our community character, and urge you to reject it outright.

One Paseo will tower over our community, standing nearly 100 feet taller than nearby buildings. With a density similar to Horton Plaza and two 150-foot buildings, the project will cram urban development and heights into our suburban neighborhood. At 1.45 million square feet, One Paseo will be more than five times the size of Del Mar Highlands Town Center, and one of the densest mixed-use projects in California. It belongs downtown, not in Carmel Valley.

Put simply, this is not the "main street" the project has been advertised to be. The size and scale of this project are in direct conflict with our community. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as San Diego Planning Commission, have already rejected One Paseo. Together with more than 6,000 members of my community, I ask you to reject this project when it comes before City Council.

Sincerely,

Dr. Nancy Weare

Subject: Reject One Paseo - Project 193036
Date: Sunday, February 22, 2015 12:32:20 PM

Dear Council President Lightner,

I am gravely concerned about Kilroy Realty's proposed One Paseo project, and I'm writing today to share with you my concerns about the negative impacts this project will bring to Carmel Valley.

I am especially concerned about the impacts to traffic congestion in the area, given that One Paseo will increase traffic by 370 percent and add nearly 24,000 daily car trips to our roads. All of this will lead to gridlock, especially given that the effectiveness of the proposed traffic light synchronization system has not been proven, nor has Caltrans or the City committed to its implementation. In fact, the project's Environmental Impact Report shows significant, unmitigated impacts to eight intersections and road segments. Furthermore, traffic relief near the project site depends on new freeway connectors that will not be built until 2030, if ever.

The majority of our community believes that THIS One Paseo is too large for the neighborhood. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as the San Diego Planning Commission, have already rejected One Paseo. I'm standing with more than 6,000 members of my community to oppose the project and urge you to reject it.

Please don't consign Carmel Valley to a future of extreme congestion and hair-pulling traffic jams. Reject One Paseo and ask Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

Dr. Nancy Weare

Subject: Support One Paseo
Date: Sunday, February 22, 2015 12:15:21 PM

Hello,

My name is Kim Woodruff; I am a native San Diegan and have lived in various parts of San Diego throughout my life. I would like to tell you why I am in favor of The One Paseo development and why it deserves 100% of your support!

Having lived in San Diego for 50 years, I can tell you that I have seen growth beyond my wildest imagination and that growth has given way to great developments! The developments have proven to be very valuable to each and every community where they have been built!

Growth is inevitable and can't be stopped! We live in one of the most desirable states in America and each day another person moves here, we can't stop people from moving here, so we must build to accommodate them!

Some people refuse to imagine a development like One Paseo in Carmel Valley, those individuals should venture out to various communities where new developments have been built and they will see first hand how new developments have proven to benefit and bring value to that community, not hurt it!

Like I Said, growth is inevitable, if One Paseo isn't approved, something will be built there and Carmel Valley will have missed the boat on all of the benefits that could have been!!

One Paseo will prove to be a wonderful development that Carmel Valley will be proud of and the benefits will be immeasurable!

Thank you,
Kim Woodruff

Subject: Reject One Paseo - Project 193036
Date: Sunday, February 22, 2015 10:47:09 PM

Dear Council President Lightner,

Development requires several different interconnected elements to truly be considered "smart growth." One Paseo is not smart growth development. Although it has been marketed as smart growth, an honest examination of the project shows that One Paseo is not the type of bikeable, walkable, transit-oriented development San Diego deserves.

One Paseo will add 24,000 new car trips daily on our roads, further deterring residents from biking and walking in the community. Expanding Del Mar Heights Road to nine lanes will mean faster-moving cars and dangerous conditions for both cyclists and pedestrians. The proposed "cycletrack" will offer inadequate protection to those cycling in the area, as it will run for just a few hundred yards on one side of Del Mar Heights Road. Bike San Diego, the group working to transform San Diego into the world's best city for bicycling, has called One Paseo "bad for bicycling."

One Paseo is not planned to have nearby mass transit until 2035, if ever. It is not located near accessible and convenient mass transit options, and is not currently served by mass transit. The truth is that, as proposed, people from Carmel Valley and the surrounding neighborhoods will have to drive to One Paseo. The developer has proposed quadrupling the average daily car trips allowed for the site because this project is a car-centric development.

I'm asking you to please reject One Paseo because it isn't true "smart growth development." We need to promote smart growth in San Diego, but One Paseo perpetuates urban sprawl and congestion in a suburban neighborhood. A smaller project that does not clog our streets, aligns with transit-oriented principles, and truly promotes walking and biking options in our community should be proposed for this site.

Thank you for your consideration.

Sincerely,

Dr. James A. Wurzbach
