Dear Council President Lightner and Members of the San Diego City Council,

The One Paseo Project deserves our strong support! As currently proposed, it is truly a reflection of the significant community input that has been requested by the developer and incorporated into the Project

The One Paseo Project:

- * Provides a true, walkable main street that will connect our community and complement the existing surrounding uses of retail, housing and employment center.
- * Makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved and therefore generates auto trips outside the community.
- * Will generate thousands of construction jobs as well as permanent, high paying jobs in this vital commercial corridor.
- * Incorporates new housing close to where people work.
- * Provides millions in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways.
- * Generates significant taxes and fees for the City and a boost to the local economy.
- * Sets a new standard for energy efficient and drought resistant green communities.
- * Helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives.

At hearings in October 2014, The San Diego City Planning Commission recognized that One Paseo clearly implements the goals of the General Plan's City of Villages strategy. Commissioners further said that the mixed use design aids in reducing vehicle trips and concentrates density for future transit service. As Commissioner Anthony Wagner stated, "Multi-modal transportation opportunities need to be seen through a lens of tomorrow, rather than today." This One Paseo will help bring such opportunities to Carmel Valley. Thank you for taking the time to hear from the community. I would like to urge your vote to approve the One Paseo project. Your time and consideration are both much appreciated.

Sincerely,

Dear Council President Lightner and Members of the San Diego City Council,

The One Paseo Project deserves our strong support! As currently proposed, it is truly a reflection of the significant community input that has been requested by the developer and incorporated into the Project

The One Paseo Project:

- * Provides a true, walkable main street that will connect our community and complement the existing surrounding uses of retail, housing and employment center.
- * Makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved and therefore generates auto trips outside the community.
- * Will generate thousands of construction jobs as well as permanent, high paying jobs in this vital commercial corridor.
- * Incorporates new housing close to where people work.
- * Provides millions in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways.
- * Generates significant taxes and fees for the City and a boost to the local economy.
- * Sets a new standard for energy efficient and drought resistant green communities.
- * Helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives.

At hearings in October 2014, The San Diego City Planning Commission recognized that One Paseo clearly implements the goals of the General Plan's City of Villages strategy. Commissioners further said that the mixed use design aids in reducing vehicle trips and concentrates density for future transit service. As Commissioner Anthony Wagner stated, "Multi-modal transportation opportunities need to be seen through a lens of tomorrow, rather than today." This One Paseo will help bring such opportunities to Carmel Valley. Thank you for taking the time to hear from the community. I would like to urge your vote to approve the One Paseo project. Your time and consideration are both much appreciated.

Sincerely,

Bruce Craig

Dear Council President Lightner and Members of the San Diego City Council,

The One Paseo Project deserves our strong support! As currently proposed, it is truly a reflection of the significant community input that has been requested by the developer and incorporated into the Project

The One Paseo Project:

- * Provides a true, walkable main street that will connect our community and complement the existing surrounding uses of retail, housing and employment center.
- * Makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved and therefore generates auto trips outside the community.
- * Will generate thousands of construction jobs as well as permanent, high paying jobs in this vital commercial corridor.
- * Incorporates new housing close to where people work.
- * Provides millions in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways.
- * Generates significant taxes and fees for the City and a boost to the local economy.
- * Sets a new standard for energy efficient and drought resistant green communities.
- * Helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives.

At hearings in October 2014, The San Diego City Planning Commission recognized that One Paseo clearly implements the goals of the General Plan's City of Villages strategy. Commissioners further said that the mixed use design aids in reducing vehicle trips and concentrates density for future transit service. As Commissioner Anthony Wagner stated, "Multi-modal transportation opportunities need to be seen through a lens of tomorrow, rather than today." This One Paseo will help bring such opportunities to Carmel Valley. Thank you for taking the time to hear from the community. I would like to urge your vote to approve the One Paseo project. Your time and consideration are both much appreciated.

Sincerely,

Sanjeev Krishnam

Subject: Reject One Paseo - Project 193036
Date: Tuesday, February 10, 2015 2:40:12 PM

Dear Council President Lightner,

I am writing in opposition to Kilroy Realty's proposed One Paseo project.

The significant negative impacts that One Paseo will have on our traffic congestion and community character are very concerning. One Paseo is not appropriate to suburban Carmel Valley, with its 1.45 million square feet of development on just 23.6 acres of land, buildings as tall as 150 feet, and a density similar to Horton Plaza downtown.

This is NOT smart or transit-oriented development. It adds 24,000 new cars daily to our roads, without access to mass transit until at least 2035. One Paseo requires nearby streets to be widened, creating dangerous and unappealing conditions for cyclists and pedestrians. Even Caltrans has said it is unclear if the project fits the region's smart growth principles.

The San Diego Planning Commission couldn't approve this project. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards rejected this project outright. I'm standing with these groups in asking you to say "NO" to One Paseo.

The entire community could benefit from an appropriately sized mixed-use project, but THIS One Paseo is just too large, too dense and creates too much traffic. Kilroy has repeatedly ignored our concerns and our request for a project that fits our community.

I strongly urge you to reject THIS One Paseo and tell Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

Ms. Carol Lewis

- * Will generate thousands of construction jobs as well as permanent, high paying jobs in this vital commercial corridor.
- * Incorporates new housing close to where people work.
- * Provides millions in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways.
- * Generates significant taxes and fees for the City and a boost to the local economy.
- * Sets a new standard for energy efficient and drought resistant green communities.
- * Helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives.

At hearings in October 2014, The San Diego City Planning Commission recognized that One Paseo clearly implements the goals of the General Plan's City of Villages strategy. Commissioners further said that the mixed use design aids in reducing vehicle trips and concentrates density for future transit service. As Commissioner Anthony Wagner stated, "Multi-modal transportation opportunities need to be seen through a lens of tomorrow, rather than today." This One Paseo will help bring such opportunities to Carmel Valley. Thank you for taking the time to hear from the community. I would like to urge your vote to approve the One Paseo project. Your time and consideration are both much appreciated.

Sincerely,

Toni McMahon

Dear Council President Lightner and Members of the San Diego City Council,

The One Paseo Project deserves our strong support! As currently proposed, it is truly a reflection of the significant community input that has been requested by the developer and incorporated into the Project

The One Paseo Project:

- * Provides a true, walkable main street that will connect our community and complement the existing surrounding uses of retail, housing and employment center.
- * Makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved and therefore generates auto trips outside the community.
- * Will generate thousands of construction jobs as well as permanent, high paying jobs in this vital commercial corridor.
- * Incorporates new housing close to where people work.
- * Provides millions in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways.
- * Generates significant taxes and fees for the City and a boost to the local economy.
- * Sets a new standard for energy efficient and drought resistant green communities.
- * Helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives.

Subject: Reject One Paseo - Project 193036
Date: Tuesday, February 10, 2015 8:58:20 AM

Dear Council President Lightner,

I am writing in opposition to Kilroy Realty's proposed One Paseo project.

The significant negative impacts that One Paseo will have on our traffic congestion and community character are very concerning. One Paseo is not appropriate to suburban Carmel Valley, with its 1.45 million square feet of development on just 23.6 acres of land, buildings as tall as 150 feet, and a density similar to Horton Plaza downtown.

This is NOT smart or transit-oriented development. It adds 24,000 new cars daily to our roads, without access to mass transit until at least 2035. One Paseo requires nearby streets to be widened, creating dangerous and unappealing conditions for cyclists and pedestrians. Even Caltrans has said it is unclear if the project fits the region's smart growth principles.

The San Diego Planning Commission couldn't approve this project. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards rejected this project outright. I'm standing with these groups in asking you to say "NO" to One Paseo.

The entire community could benefit from an appropriately sized mixed-use project, but THIS One Paseo is just too large, too dense and creates too much traffic. Kilroy has repeatedly ignored our concerns and our request for a project that fits our community.

I strongly urge you to reject THIS One Paseo and tell Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

Mrs. Kam Wong Reeves

Dear Council President Lightner and Members of the San Diego City Council,

The One Paseo Project deserves our strong support! As currently proposed, it is truly a reflection of the significant community input that has been requested by the developer and incorporated into the Project

The One Paseo Project:

- * Provides a true, walkable main street that will connect our community and complement the existing surrounding uses of retail, housing and employment center.
- * Makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved and therefore generates auto trips outside the community.
- * Will generate thousands of construction jobs as well as permanent, high paying jobs in this vital commercial corridor.
- * Incorporates new housing close to where people work.
- * Provides millions in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways.
- * Generates significant taxes and fees for the City and a boost to the local economy.
- * Sets a new standard for energy efficient and drought resistant green communities.
- * Helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives.

At hearings in October 2014, The San Diego City Planning Commission recognized that One Paseo clearly implements the goals of the General Plan's City of Villages strategy. Commissioners further said that the mixed use design aids in reducing vehicle trips and concentrates density for future transit service. As Commissioner Anthony Wagner stated, "Multi-modal transportation opportunities need to be seen through a lens of tomorrow, rather than today." This One Paseo will help bring such opportunities to Carmel Valley. Thank you for taking the time to hear from the community. I would like to urge your vote to approve the One Paseo project. Your time and consideration are both much appreciated.

Sincerely,

Brandon Stevens

Subject: Reject One Paseo - Project 193036
Date: Tuesday, February 10, 2015 8:01:33 AM

Dear Council President Lightner,

I oppose Kilroy Realty's One Paseo project. As a resident who lives near the proposed project, I feel that THIS One Paseo poses a significant threat to our community character, and urge you to reject it outright.

One Paseo will tower over our community, standing nearly 100 feet taller than nearby buildings. With a density similar to Horton Plaza and two 150-foot buildings, the project will cram urban development and heights into our suburban neighborhood. At 1.45 million square feet, One Paseo will be more than five times the size of Del Mar Highlands Town Center, and one of the densest mixed-use projects in California. It belongs downtown, not in Carmel Valley.

Put simply, this is not the "main street" the project has been advertised to be. The size and scale of this project are in direct conflict with our community. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as San Diego Planning Commission, have already rejected One Paseo. Together with more than 6,000 members of my community, I ask you to reject this project when it comes before City Council.

Sincerely,

Mrs. Pik Wong

Subject: Reject One Paseo - Project 193036
Date: Tuesday, February 10, 2015 3:08:21 PM

Dear Council President Lightner,

I am gravely concerned about Kilroy Realty's proposed One Paseo project, and I'm writing today to share with you my concerns about the negative impacts this project will bring to Carmel Valley.

I am especially concerned about the impacts to traffic congestion in the area, given that One Paseo will increase traffic by 370 percent and add nearly 24,000 daily car trips to our roads. All of this will lead to gridlock, especially given that the effectiveness of the proposed traffic light synchronization system has not been proven, nor has Caltrans or the City committed to its implementation. In fact, the project's Environmental Impact Report shows significant, unmitigated impacts to eight intersections and road segments. Furthermore, traffic relief near the project site depends on new freeway connectors that will not be built until 2030, if ever.

The majority of our community believes that THIS One Paseo is too large for the neighborhood. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as the San Diego Planning Commission, have already rejected One Paseo. I'm standing with more than 6,000 members of my community to oppose the project and urge you to reject it.

Please don't consign Carmel Valley to a future of extreme congestion and hair-pulling traffic jams. Reject One Paseo and ask Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

Maureen Zetlmeisl
13359 Tiverton Road
San Diego, CA 92130

Subject: Reject One Paseo - Project 193036
Date: Tuesday, February 10, 2015 3:07:22 PM

Dear Council President Lightner,

I am writing in opposition to Kilroy Realty's proposed One Paseo project.

The significant negative impacts that One Paseo will have on our traffic congestion and community character are very concerning. One Paseo is not appropriate to suburban Carmel Valley, with its 1.45 million square feet of development on just 23.6 acres of land, buildings as tall as 150 feet, and a density similar to Horton Plaza downtown.

This is NOT smart or transit-oriented development. It adds 24,000 new cars daily to our roads, without access to mass transit until at least 2035. One Paseo requires nearby streets to be widened, creating dangerous and unappealing conditions for cyclists and pedestrians. Even Caltrans has said it is unclear if the project fits the region's smart growth principles.

The San Diego Planning Commission couldn't approve this project. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards rejected this project outright. I'm standing with these groups in asking you to say "NO" to One Paseo.

The entire community could benefit from an appropriately sized mixed-use project, but THIS One Paseo is just too large, too dense and creates too much traffic. Kilroy has repeatedly ignored our concerns and our request for a project that fits our community.

I strongly urge you to reject THIS One Paseo and tell Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

Maureen Zetlmeisl
13359 Tiverton Road
San Diego, CA 92130

Subject: Reject One Paseo - Project 193036
Date: Tuesday, February 10, 2015 3:05:56 PM

Dear Council President Lightner,

I am writing to share my concerns with Kilroy Realty's proposed One Paseo project. While the project is planned for the corner of Del Mar Heights Road and El Camino Real in Carmel Valley, the impacts of this oversized development would extend into surrounding communities.

I am particularly concerned about the 24,000 daily car trips that One Paseo will add to our roads, increasing traffic by 370 percent and negatively affecting roadways up to 3.5 miles away from the site! An unmitigated increase of this kind will cause back-ups throughout Carmel Valley and surrounding communities, especially considering that traffic relief near the project site depends on new freeway connectors that will not be built until 2030, if ever.

Additionally, the significant increase in traffic volume will increase emergency response times, creating the potential for dangerous or even life-threatening situations.

Furthermore, I am a proponent of smart growth in our region. However, One Paseo lacks the key criteria for smart growth: mass transit. Density of this scale needs to be located within walking distance of an established transit hub to create a genuine smart-growth project. If approved, the project will be built two decades in advance of the planned transit line, which is the opposite of smart development.

The simple fact of the matter is that, as proposed, One Paseo is not only TOO large for Carmel Valley, it's also misplaced in our region. One Paseo has already been rejected by the Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as the San Diego Planning Commission. When the matter comes before the City Council, please reject THIS One Paseo.

Sincerely,

Maureen Zetlmeisl
