Dear Council President Lightner and Members of the San Diego City Council,

The One Paseo Project deserves our strong support! As currently proposed, it is truly a reflection of the significant community input that has been requested by the developer and incorporated into the Project

The One Paseo Project:

- * Provides a true, walkable main street that will connect our community and complement the existing surrounding uses of retail, housing and employment center.
- * Makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved and therefore generates auto trips outside the community.
- * Will generate thousands of construction jobs as well as permanent, high paying jobs in this vital commercial corridor.
- * Incorporates new housing close to where people work.
- * Provides millions in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways.
- * Generates significant taxes and fees for the City and a boost to the local economy.
- * Sets a new standard for energy efficient and drought resistant green communities.
- * Helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives.

At hearings in October 2014, The San Diego City Planning Commission recognized that One Paseo clearly implements the goals of the General Plan's City of Villages strategy. Commissioners further said that the mixed use design aids in reducing vehicle trips and concentrates density for future transit service. As Commissioner Anthony Wagner stated, "Multi-modal transportation opportunities need to be seen through a lens of tomorrow, rather than today." This One Paseo will help bring such opportunities to Carmel Valley. Thank you for taking the time to hear from the community. I would like to urge your vote to approve the One Paseo project. Your time and consideration are both much appreciated.

Sincerely,

Rebekah Kuller

Dear Mr. Godwin,
Renee Mezo is busy, so I'm writing to let you know we object to the One Paseo project.
The area is already over-developed & congested w/ traffic. This will only worsen things.
Please reject this project & let them find some place else for a high rise & traffic problems!
-Drs. Matt & Julia Kurlan

Subject: Reject One Paseo - Project 193036
Date: Wednesday, February 18, 2015 10:55:40 AM

Dear Mr. Lightner,

The One Paseo project should not be permitted. The area is already congested with traffic due to over-development. Too many people in too small area. This project will only worsen the environment for local residents without bringing any benefit. There is no shortage of space in San Diego, but this is not the place for a high-rise or more traffic lights.

You will be remembered for your judgment on this issue. I hope you'll do the right thing & not be bought out by the developer. Say 'NO!'

Sincerely,
Drs. Matt & Julia Kurlan,

Dear Council President Lightner,

One Paseo is not smart growth development. Although it has been marketed as smart growth, an honest examination of the project shows that One Paseo is not the type of bikeable, walkable, transit-oriented development San Diego deserves.

One Paseo will add 24,000 new car trips daily on our roads, further deterring residents from biking and walking in the community. Expanding Del Mar Heights Road to nine lanes will mean faster-moving cars and dangerous conditions for both cyclists and pedestrians. The proposed "cycletrack" will offer inadequate protection to those cycling in the area, as it will run for just a few hundred yards on one side of Del Mar Heights Road. Bike San Diego, the group working to transform San Diego into the world's best city for bicycling, has called One Paseo "bad for bicycling."

One Paseo is not planned to have nearby mass transit until 2035, if ever. It is not located near accessible and convenient mass transit options, and is not currently served by mass transit. The truth is that, as proposed, people from Carmel Valley and the surrounding neighborhoods will have to drive to One Paseo. The developer has proposed quadrupling the average daily car trips allowed for the site because this project is a car-centric development.

I'm asking you to please reject One Paseo because it isn't true "smart growth development." We need to promote smart growth in San Diego, but One Paseo perpetuates urban sprawl and congestion in a suburban neighborhood. A substantially smaller project that does not clog our streets, aligns with transit-oriented principles, and truly promotes walking and biking options in our community should be proposed for this site.

Thank you for your consideration.

Sincerely,

Mark Leibowitz

Dear Council President Lightner and Members of the San Diego City Council,

As past resident of Uptown District, I know first hand how wonderful it is to live in a mixed use community. The most common story I would tell is the ability to my car on Friday and not use it again until I went to work Monday morning. Walkable access to grocery stores, shops and restaurants changed my way of life. Now I live in Civita, another new walkable and sustainable community. Having worked on High Bluff Drive and shopped at Del Mar Highlands Town Center, I am familiar with the area of the One Paseo project. The vacant land is a prime site for development and the One Paseo project is the right density for the growing population in San Diego.

The One Paseo Project deserves City Council support! As currently proposed, it is truly a reflection of the significant community input that has been requested by the developer and incorporated into the Project

The One Paseo Project:

- * Provides a true, walkable main street that will connect our community and complement the existing surrounding uses of retail, housing and employment center.

Date: Wednesday, February 18, 2015 11:34:55 AM

Dear Council President Lightner,

I oppose Kilroy Realty's One Paseo project. As a resident who lives near the proposed project, I feel that THIS One Paseo poses a significant threat to our community character, and urge you to reject it outright.

One Paseo will tower over our community, standing nearly 100 feet taller than nearby buildings. With a density similar to Horton Plaza and two 150-foot buildings, the project will cram urban development and heights into our suburban neighborhood. At 1.45 million square feet, One Paseo will be more than five times the size of Del Mar Highlands Town Center, and one of the densest mixed-use projects in California. It belongs downtown, not in Carmel Valley.

Put simply, this is not the "main street" the project has been advertised to be. The size and scale of this project are in direct conflict with our community. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as San Diego Planning Commission, have already rejected One Paseo. Together with more than 6,000 members of my community, I ask you to reject this project when it comes before City Council.

Sincerely,

Subject: Reject One Paseo - Project 193036
Date: Wednesday, February 18, 2015 11:42:43 AM

Dear Council President Lightner,

I am writing in opposition to Kilroy Realty's proposed One Paseo project.

The significant negative impacts that One Paseo will have on our traffic congestion and community character are very concerning. One Paseo is not appropriate to suburban Carmel Valley, with its 1.45 million square feet of development on just 23.6 acres of land, buildings as tall as 150 feet, and a density similar to Horton Plaza downtown.

This is NOT smart or transit-oriented development. It adds 24,000 new cars daily to our roads, without access to mass transit until at least 2035. One Paseo requires nearby streets to be widened, creating dangerous and unappealing conditions for cyclists and pedestrians. Even Caltrans has said it is unclear if the project fits the region's smart growth principles.

The San Diego Planning Commission couldn't approve this project. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards rejected this project outright. I'm standing with these groups in asking you to say "NO" to One Paseo.

The entire community could benefit from an appropriately sized mixed-use project, but THIS One Paseo is just too large, too dense and creates too much traffic. Kilroy has repeatedly ignored our concerns and our request for a project that fits our community.

I strongly urge you to reject THIS One Paseo and tell Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

Mr. Merlyn Nelson

Subject: Reject One Paseo - Project 193036
Date: Wednesday, February 18, 2015 2:14:52 PM

Dear Council President Lightner,

I am writing to share my concerns with Kilroy Realty's proposed One Paseo project. While the project is planned for the corner of Del Mar Heights Road and El Camino Real in Carmel Valley, the impacts of this oversized development would extend into surrounding communities.

Living in Solana Beach and having children that attend high school in Carmel Vally, I am particularly concerned about the 24,000 daily car trips that One Paseo will add to our roads, increasing traffic by 370 percent and negatively affecting roadways up to 3.5 miles away from the site! An unmitigated increase of this kind will cause back-ups throughout Carmel Valley and surrounding communities, especially considering that traffic relief near the project site depends on new freeway connectors that will not be built until 2030, if ever.

Additionally, the significant increase in traffic volume will increase emergency response times, creating the potential for dangerous or even life-threatening situations.

Furthermore, I am a proponent of smart growth in our region. However, One Paseo lacks the key criteria for smart growth: mass transit. Density of this scale needs to be located within walking distance of an established transit hub to create a genuine smart-growth project. Although I heard that Kilroy will provide one shuttle a day to the Coaster Station, that is not enough. Considering the size of this project, Kilroy should be providing at least one shuttle per departure and arrival of the Coaster. And what about the additional traffic when the Coaster is not running. If approved, the project will be built two decades in advance of the planned transit line, which is the opposite of smart development.

Kilroy has indicated, in the past, that some of the traffic will be diverted from Del Mar Heights Road to exits prior to and past it. This will provide an adverse impact on the cities of Del Mar and Solana Beach as the current bridge on El Camino Real only supports one lane in each direction.

The simple fact of the matter is that, as proposed, One Paseo is not only TOO large for Carmel Valley, it's also misplaced in our region. One Paseo has already been rejected by the Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as the San Diego Planning Commission. When the matter comes before the City Council, please reject THIS One Paseo.

Sincerely,

Walter F. Oliver

Subject: I urge you to support One Paseo!
Date: Wednesday, February 18, 2015 6:44:17 AM

Dear Council President Lightner and Members of the San Diego City Council,

The Revised One Paseo Project deserves your strong support! One Paseo is an inspired project that has significant and vitally needed economic benefits for our city.

The Revised One Paseo Project:

- * Provides a true, walkable main street environment that will connect the community and complement the existing surrounding uses of retail, housing and offices
- * Will generate \$630 million in new direct economic impact
- * Will create 3800 new construction jobs and 1590 new permanent jobs resulting in more than \$154 million annually in new job wages
- * Generates significant taxes and fees for the City and a boost to the local economy that help fund vital public services including our schools and affordable housing
- * Provides more than \$8 million in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways

One Paseo makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved.

In addition to job creation and economic benefit, One Paseo helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives. I strongly urge the City Council to APPROVE this One Paseo.

Sincerely,

Dear Paul Godwin:

Please pass this on to Renee Mezo and council president Lightner.

Dear Council President Lightner,

I am gravely concerned about Kilroy Realty's proposed One Paseo project, and I'm writing today to share with you my concerns about the negative impacts this project will bring to Carmel Valley.

I am especially concerned about the impacts to traffic congestion in the area, given that One Paseo will increase traffic by 370 percent and add nearly 24,000 daily car trips to our roads. All of this will lead to gridlock, especially given that the effectiveness of the proposed traffic light synchronization system has not been proven, nor has Caltrans or the City committed to its implementation. In fact, the project's Environmental Impact Report shows significant, unmitigated impacts to eight intersections and road segments. Furthermore, traffic relief near the project site depends on new freeway connectors that will not be built until 2030, if ever.

The majority of our community believes that THIS One Paseo is too large for the neighborhood. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as the San Diego Planning Commission, have already rejected One Paseo. I'm standing with more than 6,000 members of my community to oppose the project and urge you to reject it.

Please don't consign Carmel Valley to a future of extreme congestion and hair-pulling traffic jams. Reject One Paseo and ask Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

Dear Council President Lightner and Members of the San Diego City Council,

The One Paseo Project deserves our strong support! As currently proposed, it is truly a reflection of the significant community input that has been requested by the developer and incorporated into the Project

The One Paseo Project:

- * Provides a true, walkable main street that will connect our community and complement the existing surrounding uses of retail, housing and employment center.
- * Makes great use of a vacant site to provide usable, public green space, new bike lanes, enhanced pedestrian connectivity as well as diverse shopping and dining options in an area that is largely underserved and therefore generates auto trips outside the community.
- * Will generate thousands of construction jobs as well as permanent, high paying jobs in this vital commercial corridor.
- * Incorporates new housing close to where people work.
- * Provides millions in private investment toward traffic improvements and millions more for an Adaptive Traffic Management system as well as optimization technology that will reduce travel times on the local roadways.
- * Generates significant taxes and fees for the City and a boost to the local economy.
- * Sets a new standard for energy efficient and drought resistant green communities.
- * Helps to fulfill the General Plan's strategy for "a City of Villages" as well as important State, regional and local policy land-use initiatives.

At hearings in October 2014, The San Diego City Planning Commission recognized that One Paseo clearly implements the goals of the General Plan's City of Villages strategy. Commissioners further said that the mixed use design aids in reducing vehicle trips and concentrates density for future transit service. As Commissioner Anthony Wagner stated, "Multi-modal transportation opportunities need to be seen through a lens of tomorrow, rather than today." This One Paseo will help bring such opportunities to Carmel Valley. Thank you for taking the time to hear from the community. I would like to urge your vote to approve the One Paseo project. Your time and consideration are both much appreciated.

Sincerely,

Kirstin Pisacane

Subject: Reject One Paseo - Project 193036
Date: Wednesday, February 18, 2015 4:16:48 PM

Dear Council President Lightner,

I oppose Kilroy Realty's One Paseo project. As a resident who lives near the proposed project, I feel that THIS One Paseo poses a significant threat to our community character, and urge you to reject it outright.

One Paseo will tower over our community, standing nearly 100 feet taller than nearby buildings. With a density similar to Horton Plaza and two 150-foot buildings, the project will cram urban development and heights into our suburban neighborhood. At 1.45 million square feet, One Paseo will be more than five times the size of Del Mar Highlands Town Center, and one of the densest mixed-use projects in California. It belongs downtown, not in Carmel Valley.

Put simply, this is not the "main street" the project has been advertised to be. The size and scale of this project are in direct conflict with our community. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards, as well as San Diego Planning Commission, have already rejected One Paseo. Together with more than 6,000 members of my community, I ask you to reject this project when it comes before City Council.

Sincerely,

Mr. Parker Politoske
5020 Seashell Place

Subject: Reject One Paseo - Project 193036
Date: Wednesday, February 18, 2015 4:12:32 PM

Dear Council President Lightner,

I am writing in opposition to Kilroy Realty's proposed One Paseo project.

The significant negative impacts that One Paseo will have on our traffic congestion and community character are very concerning. One Paseo is not appropriate to suburban Carmel Valley, with its 1.45 million square feet of development on just 23.6 acres of land, buildings as tall as 150 feet, and a density similar to Horton Plaza downtown.

This is NOT smart or transit-oriented development. It adds 24,000 new cars daily to our roads, without access to mass transit until at least 2035. One Paseo requires nearby streets to be widened, creating dangerous and unappealing conditions for cyclists and pedestrians. Even Caltrans has said it is unclear if the project fits the region's smart growth principles.

The San Diego Planning Commission couldn't approve this project. The Carmel Valley, Torrey Pines, Torrey Hills and Del Mar Mesa Community Planning Boards rejected this project outright. I'm standing with these groups in asking you to say "NO" to One Paseo.

The entire community could benefit from an appropriately sized mixed-use project, but THIS One Paseo is just too large, too dense and creates too much traffic. Kilroy has repeatedly ignored our concerns and our request for a project that fits our community.

I strongly urge you to reject THIS One Paseo and tell Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

Mrs. Kelli A. Politoske

Subject: Reject One Paseo - Project 193036
Date: Wednesday, February 18, 2015 4:11:05 PM

Dear Council President Lightner,

Development requires several different interconnected elements to truly be considered "smart growth." One Paseo is not smart growth development. Although it has been marketed as smart growth, an honest examination of the project shows that One Paseo is not the type of bikeable, walkable, transit-oriented development San Diego deserves.

One Paseo will add 24,000 new car trips daily on our roads, further deterring residents from biking and walking in the community. Expanding Del Mar Heights Road to nine lanes will mean faster-moving cars and dangerous conditions for both cyclists and pedestrians. The proposed "cycletrack" will offer inadequate protection to those cycling in the area, as it will run for just a few hundred yards on one side of Del Mar Heights Road. Bike San Diego, the group working to transform San Diego into the world's best city for bicycling, has called One Paseo "bad for bicycling."

One Paseo is not planned to have nearby mass transit until 2035, if ever. It is not located near accessible and convenient mass transit options, and is not currently served by mass transit. The truth is that, as proposed, people from Carmel Valley and the surrounding neighborhoods will have to drive to One Paseo. The developer has proposed quadrupling the average daily car trips allowed for the site because this project is a car-centric development.

I'm asking you to please reject One Paseo because it isn't true "smart growth development." We need to promote smart growth in San Diego, but One Paseo perpetuates urban sprawl and congestion in a suburban neighborhood. A smaller project that does not clog our streets, aligns with transit-oriented principles, and truly promotes walking and biking options in our community should be proposed for this site.

Thank you for your consideration.

Sincerely,

Dr. Douglas A. Politoske
5020 Seashell Place

Subject: Reject One Paseo - Project 193036
Date: Wednesday, February 18, 2015 4:40:35 PM

Dear Council President Lightner and Council Members,

As a 23 year resident of Carmel Valley and a past member of its community planning board for eight years, I urge you to reject the proposed One Paseo project. It is not a smart growth development. Although it has been marketed as such, an examination of this entirely automobile-dependent project shows that One Paseo is not the bikeable, walkable, transit-oriented development that defines smart growth and that San Diego deserves.

One Paseo will add 24,000 new car trips daily on our roads, further deterring residents from biking and walking in the community. Expanding Del Mar Heights Road to nine lanes will mean faster-moving cars and dangerous conditions for both cyclists and pedestrians. The proposed "cycletrack" will offer inadequate protection to those cycling in the area, as it will run for just a few hundred yards on one side of Del Mar Heights Road. Bike San Diego, the group working to transform San Diego into the world's best city for bicycling, has called One Paseo "bad for bicycling."

One Paseo is not planned to have nearby mass transit until 2035, if ever. It is not located near mass transit, and is not currently served by mass transit. This proposed regional shopping center would be dependent on having people drive to it from Carmel Valley and from surrounding neighborhoods in at least a 10 mile radius. As such, the developer proposes quadrupling the average daily car trips allowed for the site in total disregard of greenhouse gas emissions considerations.

I urge you to reject One Paseo outright as it is a throwback to promoting urban sprawl, car dependency and congestion in a suburban neighborhood. We need to promote true smart growth in San Diego. The developer needs to be sent back to the drawing board to design a smaller project that does not clog our streets, aligns with transit-oriented principles, and truly promotes walking and biking options in our community, a project that looks to the future not the past.

Thank you for your consideration.

Sincerely,

Gabriele Prater

Dear Council President Lightner,

I am writing to convey my opposition to Kilroy Realty's One Paseo project proposed for the corner of Del Mar Heights Road and El Camino Real. This project will, without a doubt, have severe impacts on our quality of life, our traffic and the character of our community.

My view is just one among the thousands of San Diegans who oppose THIS One Paseo.

There are also a number of high-profile community organizations who reject this oversized project. The community planning groups of Carmel Valley, Torrey Pines and Del Mar Mesa have all rejected One Paseo, as did the San Diego Planning Commission. County Supervisor Dave Roberts has spoken out against One Paseo's bulk and scale and Bike San Diego has called the project bad for bicycling. Furthermore, more than 6,000 of my friends and neighbors have joined the What Price Main Street? coalition, creating a united community voice in opposition of the project.

While a more appropriately sized mixed-use project could benefit our community, THIS One Paseo is just too large.

I ask you to reject this project outright.

Sincerely,

Roy Slavin

Dear Council President Lightner,
Dear Members of the San Diego City Council,

In your consideration of the One Paseo project, please note the following points:

1. Traffic will significantly impair delivery of emergency services to those living west of I-5. Writing as a UCSD physician and professor with expertise in critical care, I can attest that delivery of timely (within one hour) care to victims of heart attack or stroke can be life-saving. This delivery will be jeopardized by the unmitigated and markedly increased traffic on Del Mar Heights road.
2. Four local community planning groups and the city planning commission have failed to approve the project in its present form. A great majority of local citizens also do not favor the project in its present form.
3. I and my neighbors are counting on you to protect our safety and welfare and not approve the One Paseo proposal in its current form.

Thank you. Sincerely,

Roger G. Spragg, MD
Prof. Medicine, UCSD

Dear Council President Lightner,

I am writing in opposition to Kilroy Realty's proposed One Paseo project.

I purchased my home in the MASTER PLANNED COMMUNITY OF CARMEL VALLEY 30 years ago. I specifically purchased in a master planned community because I did not want 'surprises' that would negatively impact my life and community. Carmel Valley has been developed very closely to the original master plan over the last 30 years. This 'village' concept is not included anywhere else in the Carmel Valley area. Some minor changes have occurred in the master plan but essentially THIS Carmel Valley is the original North City West plan. I do not understand how master plan zoning can suddenly be ignored? Why has this enormous project at 4 times the allowed zoning even been allowed to progress this far? Kilroy's greed has already cost the taxpayers of the city of San Diego too much. If zoning is to be completely ignored and anything can be built anywhere, then lets just do away with it and have a free-for-all. Kilroy has admitted to contributing heavily to the campaigns of the city council. The basic plan of Carmel Valley does not support this extremely high density development. Please note that Del Mar Heights Road is the ONLY access to Interstate 5 in the Carmel Valley area. Widening Of Del Mar Heights to 9 lanes in front of One Paseo will just cause MORE congestion. Nothing makes sense. Kilroy bought the last remaining vacant parcel in Carmel Valley at the height of the market in terms of value. The community of Carmel Valley should not have to pay the price of Kilroys poor decisions.

I strongly urge you to reject THIS One Paseo and tell Kilroy to work with the community to propose an appropriately sized project.

Sincerely,

Address: 13963 Boquita Dr

City: Del Mar

State: CA

Zip: 92014

Area Code: 858

Agenda Item: 200

Comments: I am really upset about the proposed size of One Paseo project. It is far too big, and will seriously impact my quality of life try to commute in and around my neighborhood. Please don't let this happen.

Respectfully,
Mark Terracin
