City Council - District No. 8**

TIM GOMEZ

To the Citizens of District 8:

San Diego is STILL America's Finest City!

I am proud to call District 8 home. I've grown up through the schools in District 8 and graduated from Montgomery High School. At a time when our community faces some real daunting challenges and limited resources, the citizens of District 8 need leadership that combines vision, practical experience and the ability to produce positive results.

I have been very fortunate to visit other cities throughout the country. Success does not come in how many big buildings we build but in the value and quality of life for the people. My background includes decades of community leadership and commitment to progressive values. I have coached youth baseball, girl's soccer, served as a board member for a non-profit organization and owned my own business.

Open communication with citizens, public safety, infrastructure improvements, education, jobs and housing will be my top priorities. I promise straight talk and a large dose of common sense if I am elected as your Councilman. I am not a politician, just an ordinary citizen who is willing to serve the community who has given so much to me. God Bless San Diego.

REMIGIA "REMY" BERMÚDEZ

After a successful 21-year career in community economic development and 27 years of volunteer community service, I became a bilingual education teacher in 1999. I know that the future of San Diego's children is at risk. The Eighth District desperately needs leadership with knowledge, courage, principles and conviction to guide our City through these hard times.

I am committed to the fight for our communities' fair share of the City's resources.

District 8 is in dire need of vibrant, livable and safe neighborhoods. We need to secure housing opportunities for all, improve infrastructure, increase public and police services and focus on our city's financial stability.

I understand how City government works and I will guarantee it benefits our communities.

With a Master's degree in City Planning, I've tackled local and regional problems, always creating solutions in partnership with our neighborhood residents and citizen planning groups like the Sherman Heights Revitalization Team, Otay Mesa Development Committee, Golden Hill Town Council, and San Ysidro Commercial Border Crossing Task Force.

My experience in community advocacy, along with your support will ensure your presence at City Hall.

I offer honesty, integrity and a commitment to deliver.

DAN COFFEY

Defeated Brown Field Expansion: My wife Pepper Coffey and I led the fight and worked as volunteer citizen leaders for over two years with residents, businesses, non-profits, and the communities of faith to defeat the poorly-planned expansion of Brown Field airport. Independent: As your councilmember, I will be a strong, independent voice. I will tackle the financial issues of the city and speak out strongly for the community and families of District 8.

A plan for the future: Working with community members, I have developed a strong, principled approach to address our community's most pressing financial issues, increasing resources for our community, education, and growth.
