

**CITY OF SAN DIEGO
Mayor**

MYKE SHELBY

Has been a successful businessman, political and community activist, president of the chamber of commerce at JFK International Airport. He's often been recognized for his achievements including San Diego Homefront Hero Award, ADL Torch of Liberty Award, and been inducted into the Sturgis Motorcycle Freedom Fighter Hall of Fame. He's a Vietnam Vet, married with four grown children and owns San Diego Harley-Davidson.

Our first priority is that every citizen, city employee, visitor, and investor be confident that we are America's finest city.

The pension fund situation must be fixed. Spending and the bureaucracy must be brought under control. We do not have a corrupt city, but any corruption must be stamped out. We must become a city of One and end divisive politicking.

No threats of bankruptcy! That is not an option financially, spiritually, or morally. To attract the best and brightest we must inspire local business and investors, tourist, conventions, sports events and educators. Responsible development should be encouraged, and our borders must be secure.

There is much that is inspirational about San Diego, especially Mt. Soledad, our National Veteran's Memorial with its 43' high cross which must be protected. Myke Shelby will lead San Diego and inspire leadership in others.
