Audit Determines Improvement of San Diego's Finances *Budget Chair Gloria Comments on Audit Findings*

SAN DIEGO, CA (August 6, 2015) – Councilmember Todd Gloria today released a statement about the [Performance Audit of the City of San Diego's Financial Condition](#).

“The audit validates the hard work and responsible decision making of the San Diego City Council, Independent Budget Analyst, and city employees over the last several years,” said Councilmember Todd Gloria, who is serving as chair of the Budget and Government Efficiency Committee for the fifth consecutive year. **“San Diego is facing challenging issues including our need for infrastructure funding, and how we face those will be critical to our financial condition. As the economy continues to rebound, it is imperative that current and future city leaders consider likely financial market cycles and the long term fiscal impacts of their decisions so San Diego remains in this positive position.”**

The audit determined that San Diego's financial condition between Fiscal Year 2005 and Fiscal Year 2014 scored among the best compared to six cities of similar population size.
